

EMPath

Economic Mobility Pathways

MEMBERSHIP DETAILS

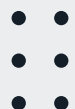

WHY JOIN THE ECONOMIC MOBILITY EXCHANGE™?

Our membership provides dedicated technical assistance: hands-on support to help your team adapt, troubleshoot, and apply our Mobility Mentoring® coaching model in ways that fit your organization's structure and goals.

Training and knowledge transfer are essential, but they're the starting point, not the destination. Our approach is built around sustained impact rather than a one-time training event. We're invested in how your program develops and matures over time, and we work with you to track and support that growth.

We ask members to think of the first year as a foundation-building period: getting core practices in place, building staff capacity, and establishing the systems that will support your program long-term. From there, membership offers a clear pathway toward deeper growth, with the goal of your program eventually achieving certification in Mobility Mentoring.

WHAT MEMBERSHIP PROVIDES

- **Dedicated technical assistance:** We work alongside your team to adapt the coaching model to your organization's context.
- **Built for sustained impact:** Training and knowledge matter, but they're a starting point. We're invested in your program's growth over time, not just a single training milestone, with ongoing professional development and networking opportunities.
- **Year one: foundation building:** Your first year focuses on building your organization's Mobility Mentoring-informed approach, establishing core practices, staff capacity, and systems.
- **A pathway to certification** Long-term membership supports your program's progression towards Mobility Mentoring Certification, with EMPath assessing that your program is implementing Mobility Mentoring to the highest standards and is ready to achieve impactful outcomes.

MEMBERSHIP TIERS

Pathfinder: The DIY Approach

This tier is for organizations that want to create their own implementation journey towards a Mobility Mentoring-informed approach. Organizations can purchase additional learning opportunities as needed. See the [Training Catalog](#) for more details.

Trailblazer: Bundles access to our asynchronous online courses

This tier is for organizations that invest in their staff's continued learning with seats in our additional asynchronous online courses on our platform, Engage@EMPath. See the [Training Catalog](#) for more details.

Trailblazer Implementation: Bundles access to our asynchronous online courses and our implementation package

This tier is for organizations that want a guided approach towards designing and implementing a Mobility Mentoring-informed model. This includes seats/year in our Design & Implementation package and up to six (6) support calls. See the [Training Catalog](#) for more details.

Certified: The Gold Standard

Organizations whose program(s) have been assessed by EMPATH as replicating the Mobility Mentoring model to fidelity. Organizations can participate in the application process after implementing Mobility Mentoring for at least one year.

EMPath determines membership fees using a matrix of qualifiers:

- Degree of Mobility Mentoring model implementation
- Type of organization
 - **Nonprofit Direct Service Organizations:** human service agencies providing case management and coaching directly with the population they seek to impact
 - **Other**
 - Government Agencies
 - Community Networks (**join as a Network Membership Holder**): one lead organization that has a fiduciary relationship with NGOs in their network and is overseeing the learning about and/or implementation of Mobility Mentoring with multiple organizations.
 - Institutions of Higher Education
 - Foundations
- Number of participants served using a Mobility Mentoring-Informed Approach

EMPath's Economic Mobility Exchange™

Frequently Asked Questions

Why is the membership cost dependent on the number of participants served?

To provide organizations with the in-depth support conducive to implementing a Mobility Mentoring informed model on a larger scale, EMPath licenses use of the Mobility Mentoring model and tools based on the number of participants served directly with the Mobility Mentoring model.

We look at the **amount of people that you are serving directly using the Mobility Mentoring informed model** and not just the overall number of participants that your organization serves. In an effort to keep membership costs attainable, as the number of participants served using a Mobility Mentoring informed model increases, the license will expand at a lower cost per participant.

What happens if my organization decides to cancel its membership with the Exchange?

Your organization is allowed to still use the tools and resources you adapted as members. Please use this language on all relevant materials: "Former member of EMPath's Exchange, model/program is inspired by EMPath's Mobility Mentoring® model.

Additional Questions?

For any additional questions or more detailed information, please contact the Exchange at theexchange@empathways.org.
