

## **ACTION ENTRY AGREEMENT**

1. The World Water Race (“the Race”) is open to all registered students on Enactus teams working on water and/or sanitation projects that align with the Enactus Judging Criterion.
2. The Race is a team-based competition. Project teams must have at least two Enactus students (Project Leader and Alternate Project Leader) and one Enactus Faculty Advisor. Enactus teams can form more than one project team, but project team members must come from the same Enactus team.
3. To join the Race and to be eligible to submit a Progress Report, project teams must submit a completed Action Entry no later than 30 April 2018 at 17:00 GMT.
4. Action Entry submissions must be completed in English.
5. Enactus will screen all submitted Action Entries before posting to the Projects page. Enactus may flag and return a submission if it does not meet the criteria or lacks clarity. In the process, Enactus may make or recommend grammatical edits.
6. Participating teams permit Enactus and the Race sponsors to publicize any information provided by the team in connection to the Race.
7. All materials submitted to the Race must be either 1) original work of and owned by the Enactus team or 2) in the case of a team working with another entity, the team must credit and have permission to use the entity’s work. Note: any projects working in partnership with another entity will need to be defined and validated in the upcoming Progress Report.
8. By submitting an Action Entry to the Race, project teams acknowledge and agree that:
  - Falsely, consciously, and deliberately over-stating the reach, impact and/or qualitative and quantitative results of any project is an offence for disqualification.
  - It is an offence for disqualification to plagiarize, claim or present a project that a team did not implement or did not contribute to.
  - We will clearly identify key project partners and distinguish the activities and outcomes achieved by the partner vs. the Enactus team.
  - With regards to continuing projects, teams must indicate in Race submissions the specific activities undertaken since September 2017, thereby clearly differentiating actions taken this year from those of previous years. Teams must also ensure that the submission of anticipated/future outcomes are clearly identified as ‘projections’ and not as results already achieved.
  - Teams will provide any additional information and support documentation about their project upon request by the Enactus office.
9. Race participants and/or project teams who do not honor any of the above points will become ineligible for Race rewards and/or will be disqualified from the Race.

**WHEN WE TAKE ACTION AND REPORT PROGRESS WITH INTEGRITY, WE ALL WIN!**
