## **2010 Clinical Pharmacology Conference for Advanced Practice Nurses**

### **Goals and Objectives**

The primary goal of the conference is to provide pharmaceutical education and credits to its members on current topics pertinent to nurse practitioner's practice, as well as to provide an atmosphere of professional collegiality, promoting professional growth through networking with nurse practitioners within the community.

Upon completion of this conference, participants should be able to:

- 1. Discuss new therapies that have evolved from stem cell research**
- 2. Apply evidence-based guidelines for use of incretin therapy in the treatment of diabetes**
- 3. Describe the use of hypnotherapy in the treatment of pain patients**
- 4. Discuss indications, contraindications and uses of cardiovascular diagnostic testing in the treatment of heart failure**
- 5. Recognize patients at risk and discuss evidence based guidelines for treatment of pediatric and geriatric psychiatric conditions**

### **Approved for 7 CEs and 5 Pharmacology CE credits**

The University of Texas Health Science Center at Houston School of Nursing an approved provider of continuing nursing education by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
