CCOM MEDICAL GROUP HOSTS PATIENTS FOR DIABETES AWARENESS DAY

Muskogee, OK — CCOM Medical Group wants all its patients to know the early warning signs of metabolic disorder and Type 2 diabetes, as well as how to prevent and treat these conditions. Both ailments are on a dramatic rise in the United States.

Educational events are planned for **Saturday, April 7** from **10am – noon** in the front lobby of CCOM’s main clinic at **350 South 40th Street in Muskogee**, across the street from Hatbox Field.

Positive Patient Impact

On offer for patients and guests are preliminary screening tests and a “Diving Into Diabetes” presentation for the newly diagnosed patient, as well as those who are at risk of developing diabetes, their loved ones, and personal support team, hosted by CCOM’s diabetes educator. Health care experts will also demonstrate good care techniques and other tips and tricks for those living with diabetes, including stress relief and gentle exercise methods.

Endocrinologist Availability

We continue to schedule appointments, laboratory testing and other services for patients with diabetes at CCOM’s main clinic at 350 South 40th Street in Muskogee. Make an appointment or refer a patient by calling 918-683-0753.

Founded in 1979 and still locally physician-owned, CCOM Medical Group is the community leader in local health care. Compassionate, caring, and convenient health care options include a walk-in clinic and the availability of same-day appointments, as well as multiple specialties, in-house laboratory and x-ray. Our facilities and expert staff make CCOM the best choice for comprehensive health care for the whole family.
