PART I

Item 1. Business

GENERAL

Raytheon Company ("Raytheon" or the "Company") is a global technology leader, with worldwide 1999 sales of $19.8 billion. The Company provides products and services in the areas of defense and commercial electronics, engineering and construction, and business and special mission aircraft. Raytheon has operations throughout the United States and serves customers in more than 80 countries around the world.

The Company, formerly known as HE Holdings, Inc. ("HE Holdings"), is the surviving company of the December 17, 1997 merger (the "Hughes Merger") of HE Holdings, Inc. and Raytheon Company, a Delaware corporation ("Former Raytheon"). At the effective time of the Hughes Merger, the separate legal existence of Former Raytheon ceased and HE Holdings was renamed "Raytheon Company." Although, from a legal point of view, HE Holdings, Inc. is the surviving company of the Hughes Merger, the Company's business is largely conducted in the same manner as and under the senior management of Former Raytheon. Accordingly, the historical disclosures in this Form 10-K for years prior to 1998 and any year-to-year comparisons contained herein for years prior to 1998, unless otherwise specifically noted, relate to the operations of Former Raytheon, as a predecessor to the Company by merger, and not to HE Holdings, Inc. as it existed prior to the Hughes Merger.

BUSINESS SEGMENTS

Electronics

Defense Electronics. Raytheon's defense electronics businesses represent the combination and consolidation of four legacy defense organizations--Raytheon Electronic Systems, Raytheon E-Systems, Raytheon TI Systems and the defense electronics business of Hughes Electronics Corporation. Raytheon's defense electronics businesses are engaged in the design, manufacture and service of advanced electronic devices, equipment and systems for both government and commercial customers. In addition to defense electronics systems, Raytheon has been successful in the conversion of certain defense electronics technologies to commercial and non-defense applications such as air traffic control, environmental monitoring and communications. In 1999 the Company's defense electronics business was conducted through the following business segments: Defense Systems; Sensors and Electronics Systems; Command, Control, Communication and Information Systems; Aircraft Integration Systems; and Training and Services.

See "Business Segments - Consolidations and Reorganizations" regarding
the reorganization of the Company's defense electronics businesses.

Defense Systems. The Defense Systems segment ("DSS") focuses on anti-ballistic missile systems; air defense; air-to-air, surface-to-air, and air-to-surface missiles; naval and maritime systems; ship self-defense systems; torpedoes; strike, interdiction and cruise missiles; and advanced munitions.

DSS produces the Patriot ground-based air defense missile system, which is capable of tracking and intercepting enemy aircraft, cruise missiles, and tactical ballistic missiles. In addition to the U.S., eight nations have selected Patriot as an integral part of their air defense systems. Since the end of the Gulf War in 1991, Raytheon has received approximately $3.5 billion in international orders for Patriot equipment and services. In addition, DSS leads Raytheon's efforts as the prime contractor for the Hawk ground-launched missile, which is in service with the U.S. and 18 allied nations.

DSS develops ground-based phased-array radars, including the X-Band Radar (XBR) and Upgrade Early Warning Radar (UEWR) for National Missile Defense, as well as the Ground-Based Radar (GBR) for the Theater High Altitude Area Defense (THAAD) system, part of the U.S. Army's Theater Missile Defense Program. It also is developing next-generation theater missile interceptors for the Navy Area Defense (NAD) and Navy Theater Wide (NTW) systems and the Exoatmospheric Kill Vehicle (EKV) for National Missile Defense.

DSS manufactures the primary air-to-air missile for the U.S. Air Force and Navy fighter aircraft - the Advanced Medium Range Air-to-Air Missile (AMRAAM), and is developing the AIM-9X (short-range air-to-air missile). Other missiles produced by DSS include Tomahawk, TOW, Stinger, Maverick, Standard, the High Speed Anti-Radiation Missile (HARM), Paveway laser-guided bombs, Extended Range Guided Munitions (ERGM), XM-982, Joint Stand Off Weapon (JSOW), and Javelin (pursuant to a joint venture with Lockheed Martin Corporation).

DSS also leads Raytheon's efforts as the prime contractor for the NATO Sea-Sparrow Surface to Air Missile System (NSSMS), as well as producing the air- and surface-launched versions of the Sparrow missile for both the U.S. and foreign Navies. DSS produces Phalanx and the Rolling Airframe Missile (RAM), which the U.S. and foreign Navies use as part of the ship self-defense system. DSS develops sonars, combat control systems, minehunting equipment and torpedoes for submarines and ships in U.S. and allied fleets, in addition to designing unmanned underwater vehicles and laser sensors. DSS produces a variety of shipboard radar systems. DSS also leads Raytheon's development efforts on the U.S. Navy's next generation of surface combatant ships, the DD-21.

SES airborne radars are deployed on four operational tactical fighter aircraft operated by U.S. forces (the F-14, F-15, F/A-18, and the AV-8B) and international customers, as well as radars for the AC-130U gunship and the B-2 Stealth Bomber. SES is also part of a joint venture with Northrop Grumman Corporation providing the next generation airborne radar for the F-22 aircraft. The segment provides the Forward Looking Infrared (FLIR) and designation system for the F-117 Stealth Fighter, the infrared subsystem for the F/A-18 targeting pod, and is developing the Advanced Targeting FLIR for the F/A-18.
SES supplies integrated sensor suites for applications such as the U.S. Department of Defense's ("DoD") Global Hawk Unmanned Aerial Vehicle Reconnaissance System, which includes a synthetic aperture radar and electro-optical/infrared sensors. SES surveillance and reconnaissance systems are used on a variety of aircraft, such as the British Tornado, the U.S. Air Force U-2 and the U.S. Navy P-3 Orion. SES also provides space sensors for defense and scientific applications.

SES night vision and fire control systems equip combat vehicles like the M1 Abrams tank, Bradley Fighting Vehicle and a host of light armored vehicles, ships and submarines, and aircraft. The segment also puts state of the art technology in the hands of the infantry. Its sensor and electronic systems are used for law enforcement, security, oil spill response, search and rescue and many other commercial and industrial applications. One commercial night vision application is a night driving safety option on the model year 2000 Cadillac(R) DeVille(R)(1).

The segment's surface radar products include radars for intelligence/data collection, spacetack, deep space surveillance, missile warning and imaging and command and control radars. Tactical radars include battlefield radars for Forward Area Air Defense Systems and hostile weapons locating radars.

Command, Control, Communication and Information Systems. The Command, Control, Communication and Information Systems segment ("C3I") is involved in command, control and communication systems; air traffic control systems; tactical radios; satellite communication ground control terminals; wide area surveillance systems; advanced transportation systems; simulators and simulation systems; ground-based information processing systems; image processing; large scale information retrieval, processing and distribution systems; and global broadcast systems.

An example of C3I's capabilities in the area of advanced information integration is the U.S. Navy's Cooperative Engagement Capability (CEC) program. CEC integrates sensor information from multiple sources to provide ships, aircraft and land-based installations an integrated air picture. The system has now successfully completed more than eight years of comprehensive at-sea testing, including several live fire tests, and is now facing the challenges of integration into the fleet.

C3I led Raytheon's role as the prime contractor for the Brazilian System for the Vigilance of the Amazon (SIVAM) program, which calls for the delivery of an integrated information network linking numerous sensors to regional and national coordination centers. Information will be used to enable the Brazilian Government to protect the environment, improve air safety and weather forecasts, help control epidemics, manage land occupation and usage and ensure effective law enforcement and border control.

C3I also designs and installs air traffic control (ATC) and weather systems at airports worldwide. One example is the Federal Aviation Administration (FAA)/DoD's Standard Terminal Automation Replacement System (STARS) program, which will modernize and upgrade approximately 370 air traffic control sites across the United States. Some of the countries Raytheon is providing ATC systems and radars for include: Australia, Canada, Cyprus, Germany, Hong Kong, India, Jamaica, The Netherlands, Norway, Oman, the People's Republic of China, Switzerland and Taiwan.

(1) Cadillac and DeVille are registered trademarks of General Motors.
Aircraft Integration Systems. The Aircraft Integration Systems segment ("AIS") focuses on integration of airborne surveillance and intelligence systems and aircraft modifications.

AIS specializes in developing and integrating complex electronic systems for airborne Intelligence, Surveillance, and Reconnaissance (ISR) missions. AIS provides signals intelligence, air-ground surveillance, maritime surveillance, and airborne command post systems to both U.S. Government and foreign customers. In addition, AIS modernizes aging aircraft through structural refurbishment and avionics upgrades including completely new "glass" cockpits with the latest display technologies and FAA-required air traffic management systems that enhance air safety. The segment also designs and installs interiors for executive aircraft and performs Special Operations Forces Support Activity (SOFSA).

Training and Services. The Training and Services segment operates under Raytheon Technical Services Company ("RTSC"). RTSC provides technical services; training programs; and logistics and base operations support throughout the U.S. and in 22 other countries.

RTSC performs complete engineering and depot-level cradle-to-grave support to Raytheon-manufactured equipment and to various commercial and military customers. Services provided include installation and test of upgrades to deployed systems; engineering design, planning, and testing; repair and refurbishment of DoD equipment; software engineering support; data management; preparation of technical manuals; training for allied forces; system and facility installations; field testing and evaluation; field engineering; and system operation and maintenance.

RTSC is a world leader in providing and supporting range instrumentation systems and bases worldwide for the DoD. It also provides missile range calibration services for the U.S. Air Force, trains U.S. Army personnel in battlefield tactics and supports undersea testing and evaluation for the U.S. Navy. RTSC provides operations and engineering support to the Atlantic Underwater Test and Evaluation Center, range technical support at Cape Canaveral, and facilities maintenance at several DoD facilities, including the U.S. Army's missile testing range in the Kwajalein Atoll. It also provides base operations support to DoD facilities on Guam, Johnston Atoll and other locations.

RTSC supplies professional services to a broad range of customers in the areas of space and earth sciences, scientific data management, transportation management, remote sensing, and computer networking. RTSC also supports the U.S. Government's demilitarization activities in countries of the former Soviet Union and the development and operation of Space Shuttle and Space Station simulators for NASA's Johnson Space Center. It also provides logistics and science support for the National Science Foundation's Antarctica program.

RTSC is a leader in commercial training, managing corporate universities for General Motors and Raytheon, as well as providing instructor and computer-based training to a number of commercial clients. The work for General Motors ranges from dealer enthusiasm training in more than twenty languages in Europe to factory floor training in plants around the world and training for engineering support in North America. As part of the reorganization of the Company's commercial businesses, RTSC's commercial training business was moved to Commercial Electronics.
See "Business Segments - Consolidations and Reorganizations" regarding the reorganization of the Company's commercial electronics businesses.

Commercial Electronics. Raytheon's commercial electronics businesses produce, among other things, marine radars and other marine electronics, transmit/receive modules for satellite communications projects, and other electronic components for a wide range of applications.

Raytheon Marine supplies marine radars, depth sounders, radiotelephones, autopilots, fish finders, ECDIS and navigation aids, GPS and Loran receivers and other marine electronics under the Raytheon, Apelco and Autchelm labels in the U.S. and abroad. Raytheon Anschutz GmbH, located in Kiel, Germany, manufactures gyro compasses, autopilots, steering control systems, and integrated bridge systems for the commercial and military marine market.

Raytheon is using its gallium arsenide MMIC technology to develop direct broadcast satellite television receivers and is currently delivering high volumes of gallium arsenide power amplifiers to Motorola for use in the digital StarTAC(R)2 phone for the cellular market.

For financial reporting purposes, certain operating segments within Electronics have been aggregated as they exhibit similar long-term financial performance characteristics. All material intercompany transactions have been eliminated. During 1999 the reportable segments within Electronics included the following: Defense Systems; Sensors and Electronic Systems; Command, Control, Communication and Information Systems; and a combined group made up of Aircraft Integration Systems, Training and Services, Commercial Electronics and Other.

See "Business Segments - Consolidations and Reorganizations" regarding the reorganization of the Company's defense and commercial electronics businesses.

Aircraft

Raytheon Aircraft offers a broad product line in the general aviation market. Raytheon Aircraft manufactures, markets and supports piston-powered aircraft, jet props and light and medium jets for the world's commercial, regional airlines and military aircraft markets.

Raytheon Aircraft's piston-powered aircraft line includes the single-engine Beech Bonanza and the twin-engine Beech Baron aircraft for business and personal flying. The segment's King Air jetprop series includes the Beech King Air C90, B200, and 350. The jet line includes the Beechjet 400A and the Hawker 800XP midsize business jet. Raytheon Aircraft is the leading producer of 19-passenger regional airliners, selling the Beech 1900D stand-up cabin aircraft to commuter airlines and corporate customers. The Raytheon Premier I entry-level business jet is currently in a certification test program. To date, approximately 200 firm orders have been received for the Premier I, with an anticipated certification by mid-year 2000 and deliveries to begin in the second half of 2000. A new super midsize business jet, the Hawker Horizon, is currently in development, leading to anticipated airplane certification and delivery in 2001.

(2) StarTAC is a registered trademark of Motorola, Inc.
The segment supplies aircraft training systems for the military, including the T-6A trainer selected as the next-generation trainer for the U.S. Air Force and Navy under the Joint Primary Aircraft Training (JPATS) contract. Raytheon Aircraft produces special mission aircraft, including a C-12 militarized version of the King Air B200 and the U-125 search-and-rescue variant of the Hawker 800.

Raytheon Aerospace manages approximately 1,500 aircraft at over 250 sites around the world and provides contractor logistics and training support for military and other government aircraft and missile target systems. Raytheon Aircraft Services operates a network of business aviation service operations at airports across the U.S.

Raytheon Travel Air sells fractional shares in aircraft and provides aircraft management and transportation services for the owners of the shares. The Travel Air program includes the Hawker 800XP, Beechjet 400A and the King Air 200. At year end 1999, Raytheon Travel Air had more than 400 fractional share owners.

Engineering and Construction

Raytheon Engineers & Constructors ("RE&C") is a major full-service engineering and construction firm serving customers worldwide. RE&C's major product lines are Power, Infrastructure, Operations & Maintenance, Government, Industrial Products, and Petroleum and Chemicals. Its range of capabilities includes master planning, project financing, proprietary process technology, environmental assessment, engineering and design, procurement, construction and construction management, operations and maintenance, quality programs, and systems integration.

RE&C undertakes some engineering and construction projects on a firm fixed price basis ("lump sum turnkey") and as a result, benefits from cost savings and carries the burden of cost overruns. RE&C is focusing on optimizing its mix of ongoing services work and lump sum turnkey projects.

Examples of projects in which RE&C is currently engaged include: (i) a $1.1 billion Sithe Energies award for two power plant projects in Massachusetts; (ii) a $1.1 billion project to design, build, operate, and maintain a light rail line in New Jersey; (iii) a project valued at more than $700 million to build a dam and power plant at San Roque in the Philippines; (iv) projects valued at a total of more than $1 billion to build and operate chemical weapons destruction facilities in Umatilla, Oregon and Pine Bluff, Arkansas; (v) projects valued at more than $120 million to design and build petrochemical facilities at two BASF sites in Europe; (vi) major expansions of two Corning optical fiber manufacturing plants in North Carolina; and (vii) operations and maintenance services at the Motiva Refinery in Delaware, where the company has been performing such work for more than 40 years.

Consolidations and Reorganizations

In November 1999, the Company announced a reorganization of its defense electronics businesses. The reorganization will be reflected in the Company's 2000 financial statements. In the new structure, Raytheon Systems Company has
been phased out; a new Electronic Systems business has been created by combining the Company's former Defense Systems and Sensors and Electronic Systems segments; and domestic and international business development has been combined in one organization to provide focused customer solutions worldwide. The Company also reorganized its Commercial Electronics business to put all commercial electronics businesses, plus certain commercializable products and technologies from Raytheon Systems Company, into one operating unit.

Divestitures

Consistent with Raytheon's strategy of divesting non-core assets to focus and streamline core businesses and pay down debt, the Company divested a number of business units in 1999. Cash proceeds from divestitures and sales of investments totaled $267 million after tax.

SALES TO THE UNITED STATES GOVERNMENT

Sales to the United States Government (the "Government"), principally to the Department of Defense ("DoD"), were $12.1 billion in 1999 and $12.8 billion in 1998, representing 60.8% of total sales in 1999 and 66.1% in 1998. Of these sales, $1.0 billion in 1999 and $1.7 billion in 1998 represented purchases made by the Government on behalf of foreign governments.

GOVERNMENT CONTRACTS

The Company and various subsidiaries act as a prime contractor or major subcontractor for many different Government programs, including those that involve the development and production of new or improved weapons or other types of electronics systems or major components of such systems. Over its lifetime, a program may be implemented by the award of many different individual contracts and subcontracts. The funding of Government programs is subject to congressional appropriations. Although multi-year contracts may be authorized in connection with major procurements, Congress generally appropriates funds on a fiscal year basis even though a program may continue for many years. Consequently, programs are often only partially funded initially, and additional funds are committed only as Congress makes further appropriations. The Government is required to adjust equitably a contract price for additions or reductions in scope or other changes ordered by it.

Generally, Government contracts are subject to oversight audits by Government representatives, and, in addition, they include provisions permitting termination, in whole or in part, without prior notice at the Government's convenience upon the payment of compensation only for work done and commitments made at the time of termination. In the event of termination, the contractor will receive some allowance for profit on the work performed. The right to terminate for convenience has not had any significant effect upon Raytheon's business in light of its total Government business.

The Company's Government business is performed under both cost reimbursement and fixed price prime contracts and subcontracts. Cost reimbursement contracts provide for the reimbursement of allowable costs plus the payment of a fee. These contracts fall into three basic types: (i) cost plus fixed fee contracts which provide for the payment of a fixed fee irrespective of the final cost of performance; (ii) cost plus incentive fee contracts which provide for increases or decreases in the fee, within specified limits, based upon actual results as compared to contractual targets relating to such factors as cost, performance and delivery schedule; and (iii) cost plus award fee contracts which provide for the payment of an award fee determined at the
discretion of the customer based upon the performance of the contractor against pre-established criteria. Under cost reimbursement type contracts, Raytheon is reimbursed periodically for allowable costs and is paid a portion of the fee based on contract progress. Some costs incident to performing contracts have been made partially or wholly unallowable by statute or regulation. Examples are charitable contributions, travel costs in excess of Government rates and certain litigation defense costs.

The Company's fixed-price contracts are either firm fixed-price contracts or fixed-price incentive contracts. Under firm-fixed price contracts, Raytheon agrees to perform the contract for a fixed price and as a result benefits from cost savings and carries the burden of cost overruns. Under fixed-price incentive contracts, Raytheon shares with the Government savings accrued from contracts performed for less than target costs and costs incurred in excess of targets up to a negotiated ceiling price (which is higher than the target cost) and carries the entire burden of costs exceeding the negotiated ceiling price. Accordingly under such incentive contracts, the Company's profit may also be adjusted up or down depending upon whether specified performance objectives are met. Under firm-fixed price and fixed-price incentive type contracts, the Company usually receives progress payments monthly from the Government generally in amounts equaling 75% and 80% of costs incurred under (i) DoD contracts and (ii) all other Government contracts, respectively. The remaining amount, including profits or incentive fees, is billed upon delivery and final acceptance of end items under the contract.

The Company's Government business is subject to specific procurement regulations and a variety of socio-economic and other requirements. Failure to comply with such regulations and requirements could lead to suspension or debarment, for cause, from Government contracting or subcontracting for a period of time. Among the causes for debarment are violations of various statutes, including those related to procurement integrity, export control, government security regulations, employment practices, the protection of the environment, the accuracy of records and the recording of costs.

Under many Government contracts, the Company is required to maintain facility and personnel security clearances complying with DoD requirements.

Companies which are engaged in supplying defense-related equipment to the Government are subject to certain business risks, some of which are peculiar to that industry. Among these are: the cost of obtaining trained and skilled employees; the uncertainty and instability of prices for raw materials and supplies; the problems associated with advanced designs, which may result in unforeseen technological difficulties and cost overruns; and the intense competition and the constant necessity for improvement in facilities and personnel training. Sales to the Government may be affected by changes in procurement policies, budget considerations, changing concepts of national defense, political developments abroad and other factors.

See "Item 1. Sales to the United States Government" for information regarding the percentage of the Company's revenues generated from sales to the Government.

BACKLOG

The Company's backlog of orders at December 31, 1999 was $28.4 billion compared with $24.0 billion at the end of 1998. The 1999 amount includes funded backlog of $16.1 billion from the Government compared with $14.6 billion at the end of 1998.
Approximately $4.4 billion of the overall backlog figure represents the unperformed portion of direct orders from foreign governments. Approximately $3.1 billion of the overall backlog represents non-government foreign backlog.

Aircraft segment backlog was $4.3 billion at the end of 1999 versus $2.5 billion at the end of 1998. The increase was primarily due to the receipt of orders for general aviation aircraft including Horizon, Premier I and Hawker 800XP.

Backlog in the Engineering and Construction segment was $3.4 billion at the end of 1999 compared with $3.9 billion at the end of 1998. Design and construction contracts in this segment typically take from eighteen months to several years to perform.

Approximately $15.5 billion of the $28.4 billion 1999 year-end backlog is not expected to be filled during the following twelve months.

RESEARCH AND DEVELOPMENT

During 1999, Raytheon expended $508.5 million on research and development efforts compared with $582.1 million in 1998 and $415.1 million in 1997. These expenditures principally have been for product development for the Government and for aircraft products. In addition, Raytheon conducts funded research and development activities under Government contracts which is included in net sales.

SUPPLIERS

Delivery of raw materials and supplies to Raytheon is generally satisfactory. Raytheon is sometimes dependent, for a variety of reasons, upon sole-source suppliers for procurement requirements. However, Raytheon has experienced no significant difficulties in meeting production and delivery obligations because of delays in delivery or reliance on such suppliers.

See Management's Discussion and Analysis of Financial Condition and Results of Operations on pages 26 through 31 of the Company's Annual Report to Stockholders for the year ended December 31, 1999 for information regarding the "Year 2000" issue as it relates to the Company and the Company's suppliers.

COMPETITION

The Electronics business is a direct participant in most major areas of development in the defense, space, information gathering, data reduction and automation fields. Technical superiority and reputation, price, delivery schedules, financing, and reliability are among the principal competitive factors considered by electronics customers. The on-going consolidation of the U.S. and global defense, space and aerospace industries continues to intensify competition. Consolidation among U.S. defense, space and aerospace companies has resulted in three principal prime contractors for the DoD, including the Company. As a result of this consolidation, the Company frequently partners on various programs with its major suppliers, some of whom are, from time to time, competitors on other programs.

The Aircraft segment competes primarily with four other companies in the business aviation industry. The principal factors for competition in the industry are price, financing, operating costs, product reliability, cabin size and comfort, product quality, travel range and speed, and product support. The
Company believes we possess competitive advantages in the breadth of our product line, the performance of our product line, and the strength of our product support.

Competition in the Engineering and Construction segment is intense and comes from a number of domestic and foreign firms, competing for major business opportunities worldwide. In addition to numerous small and specialty firms, there are nine large competitors to the Company in this industry. Competition is based primarily upon performance, technical skills, experience, reliability, financing, and price. The ability to recruit and maintain highly skilled and experienced professionals has a critical impact on the Company's competitiveness in this industry. The industry's intense competition, particularly on contracts that are competitively bid, can negatively impact price and margins. The Company believes that the diversity of our customer base is a competitive strength.

PATENTS AND LICENSES

Raytheon has long been an innovative leader in the development of new products and manufacturing technologies. Raytheon and its subsidiaries own a large intellectual property portfolio which includes, by way of example, United States and foreign patents, unpatented know-how, trademarks and copyrights, all of which contribute significantly to the preservation of the Company's strong competitive position in the market. In certain instances, Raytheon has augmented its technology base by licensing the proprietary intellectual property of others. Although these patents and licenses are, in the aggregate, important to the operation of the Company's business, no existing patent, license, or similar intellectual property right is of such importance that its loss or termination would, in the opinion of management, have a material effect on the Company's business.

Raytheon's patent position and intellectual property portfolio is deemed adequate for the conduct of its businesses. It is Raytheon's policy to enforce its own intellectual property rights and to respect the rights of others. Incidental to the normal course of business, infringement claims may arise or may be threatened both by and against Raytheon. In the opinion of management, these claims will not have a material adverse effect on the Company's operations.

EMPLOYMENT

As of December 31, 1999, Raytheon had approximately 105,300 employees compared with approximately 108,200 employees at the end of 1998. The decrease is mainly due to layoffs within defense electronics and RE&C. Subsidiaries of Raytheon Engineers & Constructors International, Inc. and certain other subsidiaries have craft employees engaged for individual projects not included in Raytheon's employee count.

Raytheon considers its union-management relationships to be satisfactory. Raytheon has successfully negotiated labor agreements without any work stoppages during 1999. Raytheon currently has collective bargaining relationships with 11 different U.S. labor organizations and 5 different non-U.S. labor organizations involving 36 and 7 separate labor agreements, respectively.

INTERNATIONAL SALES

Of total sales, Raytheon's sales to customers outside the United States (including foreign military sales) were 27%, 26% and 29% in 1999, 1998 and 1997,
respectively. These sales were principally in the fields of air defense systems, air traffic control systems, sonar systems, aircraft products, petrochemical, power and industrial plant design and construction, electronic equipment, computer software and systems, personnel training, equipment maintenance and microwave communication. Foreign subsidiary working capital requirements generally are financed in the countries concerned. Sales and income from international operations are subject to changes in currency values, domestic and foreign government policies (including requirements to expend a portion of program funds in-country) and regulations, embargoes and international hostilities. Exchange restrictions imposed by various countries could restrict the transfer of funds between countries and between Raytheon and its subsidiaries. Raytheon generally has been able to protect itself against most undue risks through insurance, foreign exchange contracts, contract provisions, government guarantees or progress payments.

Raytheon utilizes the services of sales representatives and distributors in connection with foreign sales. Normally representatives are paid commissions and distributors are granted resale discounts in return for services rendered.

The export from the U.S. of many of Raytheon's products may require the issuance of a license by the Department of State under the Arms Export Control of 1976, as amended (formerly the Foreign Military Sales Act); or by the Department of Commerce under the Export Administration Act as kept in force by the International Emergency Economic Powers Act of 1977, as amended ("IEEPA"); or by the Treasury Department under IEEPA or the Trading with the Enemy Act of 1917, as amended. Such licenses may be denied for reasons of U.S. national security or foreign policy. In the case of certain exports of defense equipment and services, the Department of State must notify Congress at least 15 or 30 days (depending on the identity of the country that will utilize the equipment and services) prior to authorizing such exports. During that time, Congress may take action to block a proposed export by joint resolution which is subject to Presidential veto.

There can be no assurance that the actual results or developments anticipated by us will be realized or, even if substantially realized, that they
will have the expected consequences to or effects on our business and operations. We undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise. The following are some of the factors we think could cause our actual results to differ materially from expected and historical results. Other factors besides those listed here could also adversely affect the Company. All subsequent forward-looking statements attributable to the Company or persons acting on behalf of the Company are expressly qualified in their entirety by the factors described below and in the documents containing such forward-looking statements.

If the cost-cutting efforts currently being undertaken at two of our core business units are not successful, our financial results may not improve, which may result in more volatility in the price of our stock in the future.

During 1998, we announced plans to reduce the workforce and close facilities in conjunction with the consolidation and reorganization of two of our business units, Raytheon Systems Company, our major defense electronics operation, and Raytheon Engineers & Constructors, our engineering and construction unit. Significant progress has been made to date in completing these actions. As part of this effort, we have closed several facilities in the United States while transferring the operations previously conducted at those facilities to other Company sites. In addition, several of Raytheon Systems Company's operations were consolidated. Both units' workforces have also been significantly reduced. In September 1999, we announced plans to further reduce costs at Raytheon Systems Company and Raytheon Engineers & Constructors. In October 1999, we announced pretax charges totaling $599 million, including $147 million for restructuring charges for additional employment and facility space reductions primarily at Raytheon Systems Company and Raytheon Engineers & Constructors.

These cost-cutting actions have been taken in an effort to improve these units' competitive position in their markets and ultimately, our results of operations. There can be no assurance that these actions will ultimately be successful in improving our results of operations. The results of operations of these two units are affected by a wide variety of factors, including factors that affect their industries generally. A failure to improve these important business units' results of operations, which constitute a vital part of our results of operations, could result in more volatility in the price of our stock.

The restructuring charges resulting from these cost-cutting efforts have had a negative impact on our earnings in 1999. There can be no assurance that additional reductions and associated restructuring charges will not be required in the future to improve one or both of these units' operations. Any additional reductions and associated restructuring charges could negatively impact future financial results.

Because we have recently sold a number of our business units, our business is less diversified, which could reduce our earnings and might make us more susceptible to negative conditions in our remaining businesses.

Consistent with our strategy of focusing on and streamlining our core businesses and paying down our debt, during 1998 and 1999 we divested several non-core business units. We also sold three business units that we agreed to divest when we acquired the defense operations of Hughes Electronics Corporation and the defense assets of Texas Instruments Incorporated in 1997. As a result of these divestitures, we no longer receive revenues from these operations and, without offsetting increases in revenues in our other businesses, our overall
revenues would decrease, which would have a negative affect on our financial condition.

In addition, as a result of these divestitures, our business is now less diversified and thus more dependent on our remaining businesses. As a result, we are now more sensitive to conditions and trends in the remaining industries in which we operate. Negative conditions and trends in these remaining industries could cause our financial condition and results of operations to suffer more heavily than would occur when our business lines were more diversified. Our inability to overcome these negative conditions and trends could have a negative impact on our financial condition.

We heavily depend on our government contracts, which are only partially funded, subject to immediate termination and heavily regulated and audited, and the termination or failure to fund one or more of these contracts could have a negative impact on our operations.

We act as prime contractor or major subcontractor for many different government programs. Over its lifetime, a program may be implemented by the award of many different individual contracts and subcontracts. The funding of government programs is subject to congressional appropriations. Although multi-year contracts may be authorized in connection with major procurements, Congress generally appropriates funds on a fiscal year basis even though a program may continue for several years. Consequently, programs are often only partially funded initially, and additional funds are committed only as Congress makes further appropriations. The termination of funding for a government program would result in a loss of anticipated future revenues attributable to that program. That could have a negative impact on our operations. In addition, the termination of a program or failure to commit additional funds to a program already started could increase our overall costs of doing business.

Generally, government contracts are subject to oversight audits by government representatives and contain provisions permitting termination, in whole or in part, without prior notice at the government's convenience upon the payment of compensation only for work done and commitments made at the time of termination. We can give no assurance that one or more of our government contracts will not be terminated under these circumstances. Also, we can give no assurance that we would be able to procure new government contracts to offset the revenues lost as a result of any termination of our contracts. As our revenues are dependent on our procurement, performance and payment under our contracts, the loss of one or more critical contracts could have a negative impact on our financial condition.

Our government business is also subject to specific procurement regulations and a variety of socio-economic and other requirements. These requirements, although customary in government contracts, increase our performance and compliance costs. These costs might increase in the future, reducing our margins, which could have a negative effect on our financial condition. Failure to comply with these regulations and requirements could lead to suspension or debarment, for cause, from government contracting or subcontracting for a period of time. Among the causes for debarment are violations of various statutes, including those related to:

- procurement integrity
- export control
- government security regulations
- employment practices
- protection of the environment
accuracy of records and the recording of costs

The termination of a government contract or relationship as a result of any of these acts would have a negative impact on our operations and could have a negative effect on our reputation and ability to procure other government contracts in the future.

In addition, sales to the government may be affected by:

- changes in procurement policies
- budget considerations
- changing concepts of national defense
- political developments abroad

The influence of any of these factors, which are largely beyond our control, could also negatively impact our financial condition. We also may experience problems associated with advanced designs required by the government which may result in unforeseen technological difficulties and cost overruns. Failure to overcome these technological difficulties and the occurrence of cost overruns would have a negative impact on our results.

We depend on the U.S. Government for a significant portion of our sales, and the loss of this relationship or a shift in Government funding could have severe consequences on the financial condition of Raytheon.

Approximately 61% of our net sales in 1999 were to the U.S. Government. Therefore, any significant disruption or deterioration of our relationship with the U.S. Government would significantly reduce our revenues. Our U.S. Government programs must compete with programs managed by other defense contractors for a limited number of programs and for uncertain levels of funding. Our competitors continuously engage in efforts to expand their business relationships with the U.S. Government at our expense and are likely to continue these efforts in the future. The U.S. Government may choose to use other defense contractors for its limited number of defense programs. In addition, the funding of defense programs also competes with non-defense spending of the U.S. Government. Budget decisions made by the U.S. Government are outside of our control and have long-term consequences for the size and structure of Raytheon. A shift in government defense spending to other programs in which we are not involved or a reduction in U.S. Government defense spending generally could have severe consequences for our results of operations.

We derive a significant portion of our revenues from international sales and are subject to the risks of doing business in foreign countries.

In 1999, sales to international customers accounted for approximately 27% of our net sales. We expect that international sales will continue to account for a substantial portion of our net sales for the foreseeable future. As a result, we are subject to risks of doing business internationally, including:

- changes in regulatory requirements
- domestic and foreign government policies, including requirements to expend a portion of program funds locally and governmental industrial cooperation requirements
- fluctuations in foreign currency exchange rates
- delays in placing orders
the complexity and necessity of using foreign representatives and consultants
the uncertainty of adequate and available transportation
the uncertainty of the ability of foreign customers to finance purchases
uncertainties and restrictions concerning the availability of funding credit or guarantees
imposition of tariffs or embargoes, export controls and other trade restrictions
the difficulty of management and operation of an enterprise spread over various countries
compliance with a variety of foreign laws, as well as U.S. laws affecting the activities of U.S. companies abroad
general economic and geopolitical conditions, including international hostilities, inflation, trade relationships and military and political alliances

While these factors or the impact of these factors are difficult to predict, any one or more of these factors could adversely affect our operations in the future.

We may not be successful in obtaining the necessary licenses to conduct operations abroad, and Congress may prevent proposed sales to foreign governments.

Licenses are required from government agencies under the Export Administration Act, the Trading with the Enemy Act of 1917 and the Arms Export Control Act of 1976 for export of many of our products. We can give no assurance that we will be successful in obtaining these necessary licenses in order to conduct business abroad. In the case of certain sales of defense equipment and services to foreign governments, the U.S. Government's Executive Branch must notify Congress at least 15 to 30 days, depending on the location of the sale, prior to authorizing these sales. During that time, Congress may take action to block the proposed sale.

We may suffer problems relating to Year 2000 date conversion.

The Year 2000 problem concerns the inability of information systems to properly recognize and process date-sensitive information beyond January 1, 2000. In January 1998, we initiated a formal comprehensive enterprise-wide program to identify and to resolve Year 2000 related issues. The scope of the program included the investigation of all Raytheon functions and products and all internally used hardware and software systems, including embedded systems in what are not traditionally considered information technology systems. We followed an eight-step risk management process grouped into two major phases: detection, including planning and awareness, inventory, triage, and detailed assessment; and correction, including resolution, test planning, test execution, and deployment.

Through the first two months of calendar year 2000, we completed the transition from calendar year 1999 to 2000 with no reported significant impact to our operations. We will continue to evaluate Year 2000 related exposures at our suppliers and customers over the next several months. We will also continue to monitor our systems, facilities and products to ensure that latent defects do not manifest themselves over the next few months. Although our Year 2000 conversion efforts were successful, there are some remaining Year 2000-related risks. These risks include potential product supply issues and other non-operational issues.
Since January 1998, we have spent approximately $116 million to resolve Year 2000 related issues. These costs included costs related to employees, inside and outside consultants and services, system replacements and other equipment requirements.

Competition within our markets may reduce our procurement of future contracts and our sales.

The military and commercial industries in which we operate are highly competitive. Our competitors range from highly resourceful small concerns, which engineer and produce specialized items, to large, diversified firms. Several established and emerging companies offer a variety of products for applications similar to those of our products. Our competitors may have more extensive or more specialized engineering, manufacturing and marketing capabilities than we do in some areas. There can be no assurance that we can continue to compete with these firms. In addition, some of our largest customers could develop the capability to manufacture products similar to products that we manufacture. This would result in these customers supplying their own products and competing directly with us for sales of these products, all of which could significantly reduce our revenues and seriously harm our business.

Furthermore, we are facing increased international competition and cross-border consolidation of competition. There can be no assurance that we will be able to compete successfully against our current or future competitors or that the competitive pressures we face will not result in reduced revenues and market share or seriously harm our business.

Our future success will depend on our ability to develop new technologies that achieve market acceptance.

Both our commercial and defense markets are characterized by rapidly changing technologies and evolving industry standards. Accordingly, our future performance depends on a number of factors, including our ability to:

- identify emerging technological trends in our target markets
- develop and maintain competitive products
- enhance our products by adding innovative features that differentiate our products from those of our competitors
- manufacture and bring products to market quickly at cost-effective prices

Specifically, at Raytheon Aircraft Company, our future success is dependent on: (1) our ability to meet scheduled timetables for the certification and delivery of new product offerings; (2) our ability to achieve the efficiencies necessary to control product costs; and (3) continued market acceptance of, and government regulations affecting, 19-seat turboprop commuter aircraft. Any additional cost overruns at Raytheon Aircraft, similar to those experienced in 1999, would have an adverse effect, potentially material, on our financial results.

We believe that, in order to remain competitive in the future, we will need to continue to develop new products, which will require the investment of significant financial resources in new product development. The need to make these expenditures could divert our attention and resources from other projects, and we cannot be sure that these expenditures will ultimately lead to the timely development of new technology. Due to the design complexity of our products, we may in the future experience delays in completing development and introduction of new products. Any delays could result in increased costs of development or
deflect resources from other projects. In addition, there can be no assurance that the market for our products will develop or continue to expand as we currently anticipate. The failure of our technology to gain market acceptance could significantly reduce our revenues and harm our business. Furthermore, we cannot be sure that our competitors will not develop competing technology which gains market acceptance in advance of our products. The possibility that our competitors might develop new technology or products might cause our existing technology and products to become obsolete. If we fail in our new product development efforts or our products fail to achieve market acceptance more rapidly than our competitors', our revenues will decline and our business, financial condition and results of operations will be negatively affected.

Our financial performance is significantly dependent on the timely and successful conversion of our defense products into commercial markets.

In order to leverage technology that we develop for defense applications, we frequently strive to adapt existing defense technology for commercial markets. We may not be successful, however, in converting our defense systems and devices into commercially viable products, and the market for such products may be limited. Any of these results could have a negative impact on our future revenues.

We enter into fixed-price contracts which could subject us to losses in the event that we have cost overruns.

Sometimes we enter into contracts on a firm, fixed-price basis. This allows us to benefit from cost savings, but carries the burden of cost overruns. If our initial estimates are incorrect, we can lose money on these contracts. In addition, some of our contracts have provisions relating to cost controls and audit rights, and if we fail to meet the terms specified in those contracts then we may not realize their full benefits. Our financial condition is dependent on our ability to maximize our earnings from our contracts. Lower earnings caused by cost overruns and cost controls would have a negative impact on our financial results.

In 1998 and 1999, we experienced significant cost overruns at Raytheon Engineers & Constructors, Raytheon Aircraft Company and our Aircraft Integration Systems segment. Raytheon Engineers & Constructors also experienced project delays and cancellations. There may be further cost overruns and losses as we move to close out older contracts at Raytheon Engineers & Constructors, particularly four large, international turnkey contracts. Many of the fixed-price, turnkey contracts entered into prior to 1999 contain exposures and obligations that are not entirely within the control of the Company (e.g., subcontractor performance or labor disputes). Any related cost overruns or losses would have an adverse effect, potentially material, on our financial results.

We depend on the recruitment and retention of qualified personnel, and our failure to attract and retain personnel could seriously harm our business.

Due to the specialized nature of our businesses, our future performance is highly dependent upon the continued services of our key engineering personnel and executive officers. Our prospects depend upon our ability to attract and retain qualified engineering, manufacturing, marketing, sales and management personnel for our operations. Competition for personnel is intense, and we may not be successful in attracting or retaining qualified personnel. Our failure to compete for these personnel could seriously harm our business, results of operations and financial condition.
A significant portion of our labor force is unionized, and our failure to maintain stable relationships with our unions could seriously harm our business.

Approximately 16,000 of our employees are unionized, which represented approximately 15% of our employees at December 31, 1999. As a result, we may experience work stoppages from time to time, and we are vulnerable to the demands imposed by our collective bargaining relationships. We cannot predict how stable these relationships, currently with 11 different U.S. labor organizations and 5 different non-U.S. labor organizations, will be or whether we will be able to meet the requirements of these unions without impacting the financial condition of Raytheon. In addition, the presence of unions may limit our flexibility in dealing with our workforce. Work stoppages and instability in our union relationships could negatively impact our ability to manufacture our products on a timely basis, resulting in strain on our relationships with our customers, as well as a loss of revenues. That would adversely affect our results of operations.

We may be unable to adequately protect our intellectual property rights, which could affect our ability to compete.

Protecting our intellectual property rights is critical to our ability to compete and succeed as a company. We own a large number of United States and foreign patents and patent applications, as well as trademark, copyright and semiconductor chip mask work registrations which are necessary and contribute significantly to the preservation of our competitive position in the market. There can be no assurance that any of these patents and other intellectual property will not be challenged, invalidated or circumvented by third parties. In some instances, we have augmented our technology base by licensing the proprietary intellectual property of others. In the future, we may not be able to obtain necessary licenses on commercially reasonable terms. We enter into confidentiality and invention assignment agreements with our employees, and enter into non-disclosure agreements with our suppliers and appropriate customers so as to limit access to and disclosure of our proprietary information. These measures may not suffice to deter misappropriation or independent third party development of similar technologies. Moreover, the protection provided to our intellectual property by the laws and courts of foreign nations may not be as advantageous to us as the remedies available under United States law.

Our operations expose us to the risk of material environmental liabilities.

Because we use and generate large quantities of hazardous substances and wastes in our manufacturing operations, we are subject to potentially material liabilities related to personal injuries or property damages that may be caused by hazardous substance releases and exposures. For example, we are investigating and remediating contamination related to our current or past practices at numerous properties and, in some cases, have been named as a defendant in related personal injury or "toxic tort" claims.

We are also subject to increasingly stringent laws and regulations that impose strict requirements for the proper management, treatment, storage and disposal of hazardous substances and wastes, restrict air and water emissions from our manufacturing operations, and require maintenance of a safe workplace. These laws and regulations can impose substantial fines and criminal sanctions for violations, and require the installation of costly pollution control equipment or operational changes to limit pollution emissions and/or decrease the likelihood of accidental hazardous substance releases. We incur, and expect
to continue to incur, substantial capital and operating costs to comply with these laws and regulations. In addition, new laws and regulations, stricter enforcement of existing laws and regulations, the discovery of previously unknown contamination or the imposition of new clean-up requirements could require us to incur costs in the future that would have a negative effect on our financial condition or results of operations.

Provisions in our charter documents and rights agreement could make it more difficult to acquire Raytheon and may reduce the market price of our stock.

Our certificate of incorporation and by-laws contain certain provisions, such as a classified board of directors, a provision prohibiting stockholder action by written consent, a provision prohibiting stockholders from calling special meetings and a provision authorizing our Board of Directors to consider factors other than stockholders' short-term interests in evaluating an offer involving a change in control. Also, we have a rights plan, which limits the ability of anyone to acquire more than 15% of our Class A or Class B Common Stock. These provisions could have the effect of delaying or preventing a change in control of Raytheon or the removal of Raytheon management, of deterring potential acquirers from making an offer to our stockholders and of limiting any opportunity to realize premiums over prevailing market prices for Raytheon common stock. Provisions of the Shareholder Rights Agreement and the Hughes Separation Agreement, both of which are incorporated as exhibits to this filing, could also have the effect of deterring changes of control of Raytheon.

We depend on component availability, subcontractor performance and our key suppliers to manufacture and deliver our products and services.

Our manufacturing operations are highly dependent upon the delivery of materials by outside suppliers in a timely manner. In addition, we depend in part upon subcontractors to assemble major components and subsystems used in our products in a timely and satisfactory manner. Raytheon Engineers & Constructors relies upon the performance of subcontractors in many of its fixed-price contracts. While we enter into long-term or volume purchase agreements with a few of our suppliers, we cannot be sure that materials, components, and subsystems will be available in the quantities we require, if at all. We are dependent for some purposes on sole-source suppliers. If any of them fails to meet our needs, we may not have readily available alternatives. Our inability to fill our supply needs would jeopardize our ability to satisfactorily and timely complete our obligations under government and other contracts. This might result in reduced sales, termination of one or more of these contracts and damage to our reputation and relationships with our customers. All of these events could have a negative effect on our financial condition.

Our dual class capital structure may depress the value of your Class B Common Stock.

We have two distinct classes of common stock – Class A Common Stock and Class B Common Stock. With respect to all actions other than the election or removal of directors, holders of Class A Common Stock and Class B Common Stock have equal voting rights. With respect to the election or removal of directors only, holders of Class A Common Stock have 80.1% of the total voting power. Holders of Class B Common Stock have the remaining 19.9% of the voting power. If you hold Class B Common Stock, the value of your securities may be depressed by the disparity in voting power. Furthermore, while shares of both our Class A and Class B Common Stock currently trade on the New York Stock Exchange, the Chicago Stock Exchange and the Pacific Exchange, the listing policies of each of these exchanges with respect to corporations with dual-class capitalizations may
change in the future, and in the future such policies may not allow for the
continued listing of both our Class A and Class B Common Stock.

The unpredictability of our results may harm the trading price of our
securities, or contribute to volatility.

Our operating results may vary significantly over time for a variety of
reasons, many of which are outside of our control, and any of which may harm our
business. The value of our securities may fluctuate as a result of
considerations that are difficult to forecast, such as:

- volume and timing of product orders received and delivered
- levels of product demand
- consumer and government spending patterns
- the timing of contract receipt and funding
- our ability and the ability of our key suppliers to respond to changes in
customer orders
- timing of our new product introductions and the new product introductions
of our competitors
- changes in the mix of our products
- cost and availability of components and subsystems
- price erosion
- adoption of new technologies and industry standards
- competitive factors, including pricing, availability and demand for
  competing products
- fluctuations in foreign currency exchange rates
- conditions in the capital markets and the availability of project financing
- the impact on recourse obligations at Raytheon Aircraft due to changes in
  the collateral value of financed aircraft
- regulatory developments
- general economic conditions, particularly the cyclical nature of the
general aviation and engineering and construction markets in which we
participate

Item 2. Properties

The Company and its subsidiaries operate in a number of plants,
laboratories, warehouses and office facilities in the United States and abroad.

At December 31, 1999, the Company utilized approximately 48 million
square feet of floor space for manufacturing, engineering, research,
administration, sales and warehousing, approximately 96% of which was located in
the United States. Of such total, approximately 34% was owned, approximately 61%
was leased, and approximately 5% was made available under facilities contracts
for use in the performance of U. S. Government contracts. At December 31, 1999,
the Company had approximately 3.2 million square feet of additional floor space
that was not in use, including approximately 1.6 million square feet in
Company-owned facilities.

There are no major encumbrances on any of the Company's plants or
equipment other than financing arrangements which, in the aggregate, are not
material. In the opinion of management, the Company's properties have been well
maintained, are in sound operating condition and contain all equipment and
facilities necessary to operate at present levels.

At December 31, 1999, our business segments had major operations at the
following locations:

- Electronic Systems -- E. Camden, AR; Tucson, AZ; El Segundo, CA; Fullerton,
CA; Goleta, CA; Newport Beach, CA; Danbury, CT; Louisville, KY; Andover, MA; Bedford, MA; Quincy, MA; Sudbury, MA; Tewksbury, MA; Portsmouth, RI; Mukilteo, WA; Dallas, TX; Plano, TX; and Sherman, TX;

See "Item 1. Factors That Could Affect Future Results" above, "Item 3. Legal Proceedings", and Note K to Raytheon's Financial Statements in the Company's Annual Report to Stockholders for the year ended December 31, 1999 for information regarding the effect of compliance with environmental protection requirements and the resolution of environmental claims against the Company and its operations.

Item 3. Legal Proceedings

The Company is primarily engaged in providing products and services under contracts with the U.S. Government and, to a lesser degree, under direct foreign sales contracts, some of which are funded by the U.S. Government. These contracts are subject to extensive legal and regulatory requirements and, from time to time, agencies of the U.S. Government investigate whether the Company's operations are being conducted in accordance with these requirements. U.S.
Government investigations of the Company, whether relating to these contracts or conducted for other reasons, could result in administrative, civil or criminal liabilities, including repayments, fines or penalties being imposed upon the Company, or could lead to suspension or debarment from future U.S. Government contracting. U.S. Government investigations often take years to complete and many result in no adverse action against the Company.

New Matters

During October, November and December 1999, the Company and two of its officers were named as defendants in purported class action lawsuits filed in the United States District Court for the District of Massachusetts on October 14, 1999 by Merrill Roth (No. 99-12143NG), on October 15, 1999 by Robert Johnson (No. 99-12146PBS) and Jeffrey Gelfand (No. 99-121954JLT), on October 18, 1999 by Sidney Meisel (No. 99-12142PBS) and A. Richard Albrecht (No. 99-12178PBS), on October 19, 1999 by Barbara Rice (No. 99-12185NG), on October 26, 1999 by David DeForrest (No. 99-12222PBS) and Maureen Rocks (No. 99-12225PBS), on November 3, 1999 by Deborah Isaac (99-12297PBS), on November 8, 1999 by Jay Fleishman (No. 99-12339PBS), on December 1, 1999 by Lasensky Paper Stock PSP (No. 99-12463NG), and on December 10, 1999 by Osprey Partners Investment Management, LLC (99-12539-PB); in the United States District Court for the Southern District of New York on October 25, 1999 by Raymond Masri (No. 99-10789); and in the United States District Court for the District of Maryland on October 21, 1999 by Edwin Hankin (No. S-99-3211) (collectively the "Complaints"). The Complaints principally allege that the defendants violated federal securities laws by purportedly making false and misleading statements and by failing to disclose material information concerning the Company's financial performance, thereby allegedly causing the value of the Company's stock to be artificially inflated. The purported class periods for which damages are allegedly sought include March 30, 1998 to October 11, 1999 for the Rocks, Isaac and Osprey Partners actions; January 28, 1999 to October 12, 1999 for the Roth, Rice, Masri, Hankin, Fleishman and Lasensky Paper Stock actions; August 18, 1999 to October 11, 1999 for the Johnson, Gelfand, Albrecht and DeForrest actions; and September 16, 1999 to October 11, 1999 for the Meisel action. The Complaints have been consolidated in the United States District Court for the District of Massachusetts (the "Court"). The Court has appointed a lead plaintiff and lead counsel and has directed that an amended, consolidated complaint be filed in early May, 2000. The Company will have 45 days after it is served with a copy of the amended complaint to answer or file a motion to dismiss.

The Company was also named as a nominal defendant and all of its directors (except one) were named as defendants in purported derivative lawsuits filed on October 25, 1999 in the Court of Chancery of the State of Delaware in and for New Castle County by Ralph Mirarchi and others (No. 17495-NC), and on November 24, 1999 in Middlesex County, Massachusetts, Superior Court by John Chevedden (No. 99-5782) (collectively, the "Derivative Complaints"). The Derivative Complaints contain allegations similar to those included in the Complaints and further allege that the defendants purportedly breached fiduciary duties to the Company and allegedly failed to exercise due care and diligence in the management and administration of the affairs of the Company.

Although the Company believes that it and the other defendants have meritorious defenses to the claims made in both the Derivative Complaints and the other Complaints and intends to contest the lawsuits vigorously, an adverse resolution of the lawsuits could have a material adverse effect on the Company's financial position or results of operations in the period in which the lawsuits are resolved. The Company is not presently able to reasonably estimate potential losses, if any, related to the lawsuits.
The U.S. Customs Service has concluded its investigation of the contemplated sale by Raytheon Canada Ltd., a subsidiary of the Company, of troposcatter radio equipment to a customer in Pakistan. The Company has produced documents in response to grand jury subpoenas, and grand jury appearances have taken place. The Company has cooperated fully with the investigation. The Government has not reached a final decision with respect to this matter. An adverse decision relating to this matter could ultimately have a material adverse effect on the Company's results of operations or financial condition.

In November 1999, the Company filed a complaint against Towers, Perrin, Forster & Crosby (TPF&C) in the U.S. District Court for the District of Massachusetts. The complaint arises out of a series of events concerning certain Hughes Electronics pension plans (the "Hughes Plans"), portions of which were acquired by the Company in connection with the merger with Hughes Defense. Specifically, the complaint alleges that the Company was damaged by (i) false representations made to the Company by TPF&C regarding the amount of surplus in the Hughes Plans and (ii) errors committed by TPF&C in providing administrative services to the Hughes Plans. The complaint seeks damages in an amount to be determined at trial.

See Management's Discussion and Analysis of Financial Condition and Results of Operations on pages 26 through 31 of the Company's Annual Report to Stockholders for the year ended December 31, 1999 for a description of the Company's disputes with Hughes Electronics regarding the following matters: (i) the determination of the final purchase price for Hughes Defense and (ii) a claim by the Company against Hughes Electronics concerning the accuracy and completeness of disclosures made by Hughes Electronics prior to the merger of Raytheon Company and HE Holdings, Inc.

Previously Reported Matters

Prior to the Hughes Merger, the business of Hughes Defense was conducted by Hughes Aircraft Company ("HAC"), an indirect subsidiary of Hughes Electronics Corporation. Since 1985, several actions seeking compensatory and punitive damages in unspecified amounts have been filed against HAC by plaintiffs alleging that they suffered injuries as a result of the migration of alleged toxic substances into the Tucson, Arizona, water supply. These substances were disposed of at a facility owned by the U.S. Government which HAC operated and Raytheon now leases under a contract with the U.S. Air Force.

In 1991, HAC settled with the approximately 2,000 plaintiffs in one of these cases, Valenzuela v. Hughes Aircraft Company. HAC's primary and excess insurance carriers made substantial contributions toward this settlement. Several of these carriers are seeking reimbursement of the amounts they paid. If the insurers prevail in the insurance coverage litigation, the Company may ultimately bear responsibility for a portion of the Valenzuela settlement.

Several other actions arising out of migration of alleged toxic substances into the Tucson water supply have been settled or resolved in the Company's favor, including:

1. Cordova v. Hughes Aircraft Company, et al., which was filed on January 13, 1992 with the Arizona Superior Court, Pima County by an estimated 90,000 member class against HAC, McDonnell Douglas Corporation, General Dynamics Corporation and the Tucson Airport Authority as co-defendants. The court denied class certification in 1996. Settlement was reached with all but 3
claimants in 1998. The remaining claims were dismissed. The claimants appealed the dismissal of the claims, and the Arizona Court of Appeals affirmed the trial court's entry of summary judgment on March 7, 2000.

2. Yslava v. Hughes Aircraft Company, an action filed on August 7, 1992 in U.S. District Court for the District of Arizona by approximately 250 individual plaintiffs, alleging injury claims (inclusive of loss of consortium claims). HAC filed third party claims against McDonnell Douglas Corporation, General Dynamics Corporation, the Tucson Airport Authority and the City of Tucson. A settlement has been effectuated and monies paid out. This matter is now closed.

3. Lanier v. Hughes Aircraft Company, et al., a class action filed on September 30, 1991 in U.S. District Court for the District of Arizona, seeking medical monitoring for an estimated class of 50,000 residents from the south side of Tucson. A court-approved settlement has been reached with all of the plaintiffs, and the matter is now closed.

In addition, the Company has obtained state and federal court decisions requiring its insurers to pay defense costs in these actions. Although the Company believes that it has good bases for seeking indemnity coverage from its carriers, it cannot reasonably estimate what, if any, coverage may, in fact, be available.

The Company is also involved in various stages of investigation and cleanup relative to remediation of various other sites. All appropriate costs incurred in connection therewith have been accrued. Due to the complexity of environmental laws and regulations, the varying costs and effectiveness of alternative cleanup methods and technologies, the uncertainty of insurance coverage and the unresolved extent of the Company's responsibility, it is difficult to determine the ultimate outcome of these matters. However, in the opinion of management, any liability will not have a material effect on the Company's financial position, liquidity or results of operations after giving effect to provisions already recorded.

Accidents involving personal injuries and property damage occur in general aviation travel. When permitted by appropriate government agencies, Raytheon Aircraft investigates accidents related to its products involving fatalities or serious injuries. Through a relationship with FlightSafety International, Raytheon Aircraft provides initial and recurrent pilot and maintenance training services to reduce the frequency of accidents involving its products.

Raytheon Aircraft is a defendant in a number of product liability lawsuits which allege personal injury and property damage and seek substantial recoveries including, in some cases, punitive and exemplary damages. Raytheon Aircraft maintains partial insurance coverage against such claims and maintains a level of uninsured risk determined by management to be prudent. (See Note J to Raytheon's Financial Statements for the years ended December 31, 1998, 1997 and 1996.)

The insurance policies for product liability coverage held by Raytheon Aircraft do not exclude punitive damages, and it is the position of Raytheon Aircraft and its counsel that punitive damage claims are therefore covered. Historically, the defense of punitive damage claims has been undertaken and paid by insurance carriers. Under the law of some states, however, insurers are not required to respond to judgments for punitive damages. Nevertheless, to date no judgments for punitive damages have been sustained.
Defense contractors are subject to many levels of audit and investigation. Agencies which oversee contract performance include: the Defense Contract Audit Agency, the Department of Defense Inspector General, the General Accounting Office, the Department of Justice and Congressional Committees. The Department of Justice from time to time has convened grand juries to investigate possible irregularities by the Company in governmental contracting.

Various claims and legal proceedings generally incidental to the normal course of business are pending or threatened against the Company. While the Company cannot predict the outcome of these matters, in the opinion of management, any liability arising from them will not have a material effect on the Company's financial position, liquidity or results of operations after giving effect to provisions already recorded.

W I T N E S S E T H:

WHEREAS, pursuant to the Purchase and Sale Agreement, the Purchasers have agreed to purchase, and have purchased, certain Receivables from the Seller;

WHEREAS, the Seller has requested that the Purchasers, the Managing Facility Agent and the Co-Administrative Agents amend the Purchase and Sale Agreement in certain ways; and

WHEREAS, the Purchasers, the Seller, the Servicer, the Managing Facility Agent, the Co-Administrative Agents, RAC and Raytheon desire to amend the Purchase and Sale Agreement in the manner specified herein.

NOW, THEREFORE, the parties hereto hereby agree as follows:

1. Defined Terms. Terms defined in the Purchase and Sale Agreement and used herein shall have the meanings given to them in the Purchase and Sale Agreement.

2. Amendments to Subsection 1.1 of the Purchase and Sale Agreement. (a) Subsection 1.1 of the Purchase and Sale Agreement is hereby amended by deleting therefrom the definitions of the following defined terms in their respective entireties and inserting in lieu thereof the following new definitions in their proper alphabetical position:

"Consolidated Net Income": for any period, the consolidated net income (or deficit) of Raytheon and its consolidated Subsidiaries for such period, determined in accordance with GAAP; provided that (i) for the fiscal quarter of Raytheon and its consolidated Subsidiaries ending December 31, 1997, such Consolidated Net Income shall be increased by $327,100,000 representing a restructuring charge taken in connection with Raytheon's acquisition of Hughes Aircraft Company, (ii) for the fiscal quarter of Raytheon and its consolidated Subsidiaries ending September 27, 1998, such Consolidated Net Income shall be increased by $284,000,000 representing restructuring charges and a write-down in investments taken in such fiscal quarter and (iii) for the fiscal quarter of Raytheon and its consolidated Subsidiaries ending October 3, 1999, such Consolidated Net Income shall be increased by $144,000,000 representing
restructuring charges and other non-recurring charges.

"Debt Rating": at any date of determination, Raytheon's long-term unsecured senior debt rating, determined in accordance with the following:

(a) for purposes of determining Debt Rating as used in the definition of "Rating Adjustment",

(i) if on any date on which a Debt Rating is to be determined, only two of Moody's, S&P and Duff are providing long-term unsecured senior debt ratings for Raytheon and such ratings are no more than one rating level apart (e.g., the difference between B and B+ being one rating level), the Debt Rating will be the lower of such ratings,

(ii) if on any date on which a Debt Rating is to be determined, only two of Moody's, S&P and Duff are providing long-term unsecured senior debt ratings for Raytheon but such ratings are more than one rating level apart, the Debt Rating will be one rating level higher than the lower of such ratings so provided,

(iii) if on any date on which a Debt Rating is to be determined, each of Moody's, S&P and Duff is providing long-term unsecured senior debt ratings for Raytheon, the Debt Rating will be the lower of the two highest of the three ratings so provided, and

(iv) if on any date on which a Debt Rating is to be determined, only one of Moody's, S&P and Duff is providing a long-term unsecured senior debt rating for Raytheon, the Debt Rating will be Raytheon's long-term unsecured senior debt rating as provided by such rating agency; and

(b) for all other purposes, if on any date on which a Debt Rating is to be determined, any one, two or all three of Moody's, S&P and Duff are providing long-term unsecured senior debt ratings for Raytheon, the Debt Rating will be the lowest of the ratings (or the rating, in the case of a rating by only one of Moody's, S&P and Duff) so provided.

A debt rating shall be deemed to be in effect on the date of announcement or publication by the applicable rating agency. References in this Agreement to alphabetical rating classifications are references to the S&P/Moody's ratings. For purposes of clauses (a) and (b) above, the ratings of Duff shall be the rating provided by Duff which is comparable to the S&P alphabetical classification. Notwithstanding the foregoing, the Seller and the Required Purchasers may at any time and from time to time agree to utilize a rating agency other than Moody's, S&P or Duff to determine the Debt Rating, in which case the Debt Rating shall be such levels as quoted by such rating agencies as, in each case, the Seller and the Purchasers, by unanimous consent, shall agree.

"Discount Event": any time on or prior to the Expiration Date when Raytheon's Debt Rating is lower than either BBB- or the equivalent thereof.

"Rating Adjustment": the increase in (i) the Applicable Margin for any Accrual Period and (ii) the Interbank Rate applicable for any Special Settlement Date Accrual Period, as applicable, to be applied if Raytheon's Debt Rating is at the levels set forth below on the last day of the immediately preceding Accrual Period:

"Rating Event": any time when (a) Raytheon's Debt Rating is below BBB- or the equivalent thereof, or if for any reason Raytheon's long-term senior unsecured debt is not rated (whether by reason of suspension or withdrawal of a rating, or otherwise) or (b) an Amortization Event described in subsection 8.1(o) shall have occurred and be continuing.

"Remittance Event": any time Raytheon's Debt Rating is below BBB- or the equivalent thereof, or if for any reason Raytheon's long-term senior unsecured debt is not rated (whether by reason of suspension or withdrawal of a rating, or otherwise).

(b) Clause (t) of the definition of "Eligible Receivables" is hereby amended by deleting the phrase "BBB/Baa2" appearing therein and by inserting, in lieu thereof, the phrase "BBB- or the equivalent thereof".

3. Amendments to Subsection 2.7 of the Purchase and Sale Agreement. 6. Affirmation of Guarantee. The Guarantor hereby consents to the amendments to the Purchase and Sale Agreement set forth herein and reaffirms its obligations under the Guarantee.

7. Conditions to Effectiveness. Except as expressly amended, modified and supplemented hereby, the provisions of each Purchase Document and the other documents executed pursuant to the Purchase Documents are and shall remain in full force and effect.

IN WITNESS WHEREOF, the parties hereto have caused this Amendment to be duly executed and delivered by their respective proper and duly authorized officers as of the day and year first above written.

Adoption of the Plan

1.1 Amendment and Restatement.

(a) Raytheon Company, a corporation organized under the laws of the state of Delaware, originally established the Raytheon Savings and Investment Plan (the "Plan") effective January 1, 1984. Raytheon Company desires to amend and restate the Plan in its entirety effective January 1, 1999. The amended and restated Plan shall consist of three portions - (1) a profit sharing plan that includes a cash or deferred arrangement under section 401(k) of the Code ("401(k) Portion"), (2) a stock bonus plan ("Stock Bonus Portion"), and (3) a stock bonus plan that constitutes an employee stock ownership plan within the meaning of section 4975(e)(7) of the Code ("ESOP Portion"). Except as otherwise provided herein, the provisions of the Plan shall apply in the same manner to the 401(k), Stock Bonus and ESOP Portions of the Plan.

(b) In accordance with sections 4.5(a) and 15.1 of the Plan, effective January 1, 1999, all or a portion of the following qualified retirement plans shall merge into and become part of the Plan:

Raytheon Salaried Savings and Investment Plan (10011)

Raytheon TI Systems Savings Plan
E-Systems, Inc. Employee Savings Plan
Serv-Air, Inc. Savings and Retirement Plan
Hughes STX Corporation 401(k) Retirement Plan
Savings and Investment Plan of Standard Missile Company, L.L.C
Raytheon Stock Ownership Plan

The above-referenced qualified retirement plans shall cease to exist as separate plans after December 31, 1998.

(c) The Plan is intended to comply with all of the applicable requirements under sections 401(a), 401(k) and 4975(e)(7) of the Code and the terms of the Plan shall be interpreted consistent therewith.

1.2 Trust. The Trust shall be the sole source of benefits under the Plan and the Adopting Employers or any Affiliate shall not have any liability for the adequacy of the benefits provided under the Plan.

1.3 Effective Date.

(a) General Effective Date: The amended and restated Plan shall be effective as of January 1, 1999, or such other dates as may be specifically provided herein or as otherwise required by law for the Plan to satisfy the requirements of section 401(a) of the Code.

(b) Special Effective Dates: The following special effective dates apply with respect to the Plan, including the separate plans merged into the Plan:
effective January 1, 1999 and identified in section 1.1(b):

(1) Section 3.6 shall be effective on and after December 12, 1994, in accordance with the requirements of section 414(u) of the Code.

(2) For Plan Years beginning after December 31, 1997 and before January 1, 1999, the definition of compensation used to apply the limitations on contributions and benefits under section 415 of the Code shall include any elective deferral (as defined in section 402(g)(3)), and any amount which is contributed or deferred by the Employer at the election of a Participant and which is not includible in the gross income of the Participant by reason of section 125 or 457 of the Code.

(3) Section 2.29 shall be effective for Plan Years beginning after December 31, 1996.

(4) Section 8.2(f) shall be effective for Plan Years beginning after December 31, 1996.

(5) For Plan Years beginning after December 31, 1996, the family aggregation rules prescribed in sections 414(q) and 401(a)(17) of the Code shall no longer apply.

(6) Sections 8.2(b) and (c) shall apply with respect to distributions made on or after the first Pay Period commencing on or after September 25, 1998.

(7) Section 2.32 shall be effective for Plan Years beginning after December 31, 1996.

(8) For Plan Years beginning after December 31, 1996 and before January 1, 1999, for purposes of satisfying the nondiscrimination requirements prescribed in sections 401(k) and 401(m) of the Code, except as otherwise provided in Exhibit C to this Plan, the actual deferral percentage and the actual contribution percentage of the nonhighly compensated employees for the current Plan Year shall be taken into account.

(9) For Plan Years beginning after December 31, 1996 and before January 1, 1999, for purposes of allocating excess contributions or excess aggregate contributions, as applicable, to the Highly Compensated Employees, such excess contributions and excess aggregate contributions, as applicable, shall be allocated to the Highly Compensated Employees on the basis of the amount of contributions by, or on behalf of, each such Highly Compensated Employee in accordance with sections 401(k)(8)(C) and 401(m)(6)(C) of the Code.

1.4 Adoption of Plan. With the prior approval of the Senior Vice President of Human Resources of the Company or other officer to whom authority to approve participation by an entity is delegated by the Board of Directors, the Plan and Trust may be adopted by any corporation or other entity (hereinafter referred to as an Adopting Employer). Such adoption shall be made by the Adopting Employer taking the actions designated by the Administrator as appropriate to the proper adoption and operation of the Plan and Trust. In the event of the adoption of the Plan and Trust by an Adopting Employer, the Plan and Trust shall be interpreted in a manner consistent with such adoption. The Adopting Employers shall be listed in Exhibit A attached to this Plan.

1.5 Withdrawal of Adopting Employer.

(a) An Adopting Employer's participation in this Plan may be terminated,
voluntarily or involuntarily, at any time, as provided in this section.

3

(b) An Adopting Employer shall withdraw from the Plan and Trust if the Plan and Trust, with respect to that Adopting Employer, fail to qualify under sections 401(a) and 501(a) of the Code (or, in the opinion of the Administrator, they may fail to so qualify) and the continued sponsorship of that Adopting Employer may jeopardize the status with respect to the Company or the remaining Adopting Employers, of the Plan and Trust under sections 401(a) and 501(a) of the Code. The Adopting Employer shall receive at least thirty (30) days prior written notice of a withdrawal under this subsection, unless a shorter period is agreed to.

(c) An Adopting Employer may voluntarily withdraw from the Plan and Trust for any reason. Such withdrawal requires at least thirty (30) days written notice to the Administrator and the Trustee, unless a shorter period is agreed to.

(d) Upon withdrawal, the Trustee shall segregate the assets attributable to Employees of the withdrawn Adopting Employer, the amount thereof to be determined by the Administrator and the Trustee. The segregated assets shall be held, paid to another trust, distributed or otherwise disposed of as is appropriate under the circumstances; provided, however, that any transfer shall be for the exclusive benefit of Participants and their Beneficiaries. A withdrawal of an Adopting Employer from the Plan is not necessarily a termination under ARTICLE XIV. If the withdrawal is a termination, then the provisions of ARTICLE XIV shall also be applicable.

ARTICLE II

A Participant's Account shall consist of the following subaccounts: an Elective Deferral Account, an Employee After-Tax Contribution Account, a Matching Contribution Account, an ESOP Contribution Account and, where applicable, a Rollover Contribution Account and a Qualified Nonelective Contribution Account. The Administrator may set up such additional subaccounts as it deems necessary for the proper administration of the Plan.

The Adopting Employers, and if applicable, the divisions, operations or similar
cohesive groups of the Adopting Employers that participate in the Plan shall be listed in Exhibit A to this Plan. 2.5 Affiliate. A trade or business that, together with an Adopting Employer is a member of (i) a controlled group of corporations within the meaning of section 414(b) of the Code; (ii) a group of trades or businesses (whether or not incorporated) under common control as defined in section 414(c) of the Code, or (iii) an affiliated service group as defined in section 414(m) of the Code, or which is an entity otherwise required to be aggregated with the Adopting Employer pursuant to section 414(o) of the Code. For purposes of ARTICLE X, the determination of controlled groups of corporations and trades or businesses under common control shall be made after taking into account the modification required under section 415(h) of the Code. All such entities, whether or not incorporated, shall be treated as a single employer to the extent required by the Code.

(a)(1) Except as otherwise provided herein, the total wages, salaries, and fees for professional services and other amounts received (without regard to whether or not an amount is paid in cash) for personal services actually rendered in the course of employment with the Employer to the extent that the amounts are includible in gross income, including, but not limited to (A) commissions paid salesmen, (B) compensation for services on the basis of a percentage of profits, (C) commissions on insurance premiums, (D) tips, (E) bonuses, (F) fringe benefits, (G) reimbursements or other expense allowances under a nonaccountable plan (as described in Treas. (2) Notwithstanding the foregoing, Compensation shall not include: (A) Employer contributions to a plan of deferred compensation which are not includible in the Employee's gross income for the taxable year in which contributed, or any distributions from a plan of deferred compensation (regardless of whether such amounts are includible in the gross income of the Employee when distributed); (B) amounts realized from the exercise of a nonqualified stock option, or when restricted stock (or property) held by the Employee either becomes freely transferable or becomes no longer subject to a substantial risk of forfeiture; (C) amounts realized from the sale, exchange or other disposition of stock acquired under a qualified stock option; and (D) other amounts which received special tax benefits, such as premiums for group-term life insurance to the extent that the premiums are not includible in the gross income of the Employee.

(3) To the extent not otherwise excluded by subsection (a)(2), Compensation also shall not include: (A) reimbursements or other expense allowances, (B) fringe benefits (cash and noncash), (C) moving expenses, (D) deferred compensation, and (E) welfare benefits.

(4) In all cases, however, notwithstanding any exclusions above, Compensation shall include any amount which would otherwise be deemed Compensation under this subsection 2.13(a) but for the fact that it is deferred pursuant to a salary reduction agreement under this Plan or under any plan described in section 401(k) or 125 of the Code.

(b) The Compensation of each Participant for any year shall not exceed one hundred fifty thousand dollars ($150,000), as adjusted for increases in the cost-of-living in accordance with section 401(a)(17)(B) of the Code.

(c) Unless otherwise indicated herein, Compensation shall be determined only on the basis of amounts paid during the Plan Year, including any Plan Year with a duration of fewer than twelve (12) months.

(d) The Compensation of a person who becomes a Participant during the Plan Year shall only include amounts paid after the date on which such person was admitted as a Participant.

2.13 Current Market Value. The closing price of the Common Stock on the New York Stock Exchange on the Trade Day immediately preceding the Trade Day on which the Common Stock is allocated to the Participants' Accounts in accordance with the terms of the Plan.

2.14 Disability. A Participant who is totally and permanently disabled by bodily injury or disease so as to be prevented from engaging in any occupation for compensation or profit. The determination of Disability shall be made by the Administrator with the aid of competent medical advice. It shall be based on such evidence as the Administrator deems necessary to establish Disability or the continuation thereof.

2.15 Effective Date. The effective date of this amendment and restatement of the Plan shall be January 1, 1999, or such other dates as may be specifically provided in section 1.3 or as otherwise required by law for the Plan to satisfy the requirements of section 401(a) of the Code.

In determining whether to accept such a transfer, the Administrator shall consider the administrative inconvenience engendered by such a transfer and any risks to the continued qualification of the Plan under section 401(a) of the Code. Acceptance of any such transfer shall not preclude the Administrator from refusing any such subsequent transfers.

(b) Any transfer of assets accepted under this subsection shall be separately accounted for at all times and shall remain subject to the provisions of the transferor plan (as it existed at the time of such transfer) to the extent required by section 411(d)(6) of the Code (including, but not limited to, any rights to qualified joint and survivor annuities and qualified preretirement survivor annuities) as if such provisions were part of the Plan. For this purpose, all contributions are made, other than Employee After-Tax Contributions, subject to the condition that they are deductible under the Code for the taxable year of the Adopting Employer for which the contributions are made, or by the Internal Revenue Service for filing the federal income tax return of the Adopting Employer for the taxable year in which such contributions are made, and subject to the further condition that the Adopting Employer is in compliance with the provisions of the Code. Furthermore, any contribution made on the basis of a mistake in fact may be returned to the Adopting Employer within one (1) year from the date such contribution was made.

For all other Eligible Participants, the "applicable year" for determining the Actual Contribution Percentage shall be the current Plan Year, unless, in accordance with the procedures prescribed by the Internal Revenue Service, the Administrator elects to use the immediately preceding Plan Year. purposes of this ARTICLE; provided, however, that to the extent such definition is not so permitted, then Compensation shall include all compensation required to be counted under section 414(s) of the Code; provided further, however, that this definition shall not apply for purposes of the definition of Highly Compensated Employee in section 2.29.

(4) Eligible Participant. Any Employee of the Company who is authorized under the terms of the Plan to make Elective Deferrals, Employee After-Tax Contributions or have Qualified Nonelective Contributions allocated to his or her Account for the Plan Year.

(d) For purposes of determining whether a plan satisfies the Actual Contribution Percentage test of section 401(m), all Employee and matching contributions that are made under two (2) or more plans that are aggregated for purposes of section 401(a)(4) and 410(b) (other than section 410(b)(2)A(iii)) are to be treated as made under a single plan and that if two (2) or more plans are permissively aggregated for purposes of section 401(m), the aggregated plans must also satisfy section 401(a)(4) and 410(b) as though they were a single plan.

(e) In calculating the Actual Contribution Percentage for purposes of section 401(m), the actual contribution ratio of a Highly Compensated Employee will be determined by treating all plans subject to section 401(m) under which the Highly Compensated Employee is eligible (other than those that may not be permissively aggregated) as a single plan.

(f) For purposes of determining whether a plan satisfies the Actual Deferral Percentage test of section 401(k), all elective contributions that are made under two (2) or more plans that are aggregated for purposes of section 401(a)(4) or 410(b) (other than section 410(b)(2)A(ii)) are to be treated as made under a single plan and that if two (2) or more plans are permissively aggregated for purposes of section 401(k), the aggregated plans must also satisfy sections 401(a)(4) and 410(b) as though they were a single plan.

(g) In calculating the Actual Deferral Percentage for purposes of section 401(k), the actual deferral ratio of a Highly Compensated Employee will be determined by treating all cash or deferred arrangements under which the Highly Compensated Employee is eligible (other than those that may not be permissively aggregated) as a single arrangement.

(h) An elective contribution will be taken into account under the Actual Deferral Percentage test of section 401(k)(3)A of the Code for a Plan Year only if it is allocated to the Employee as of a date within that Plan Year. For this purpose, an elective contribution is considered allocated as of a date within a Plan Year if the allocation is not contingent on participation or performance of services after such date and the elective contribution is actually paid to the Trust no later than twelve (12) months after the Plan Year to which the contribution relates.

4.9 Correction of Excess Contributions.

(a) Excess Contributions shall be corrected as provided in this section. The Administrator may also prevent anticipated Excess Contributions as provided in this section. The Administrator may use any method of correction or prevention provided in this section or any combination thereof, as it determines in its sole discretion. This section shall be administered and interpreted in accordance with sections 401(k) and 401(m) of the Code.
(b) The Administrator may refuse to accept any or all prospective Elective Deferrals to be contributed by a Participant.

(c) (1) The Company may, in its sole discretion, elect to contribute, as provided in section 4.1(c), a Qualified Nonelective Contribution in an amount necessary to satisfy any or all of the requirements of section 4.8.

(2) Qualified Nonelective Contributions for a Plan Year shall only be allocated to the Accounts of Participants who are not Highly Compensated Employees. Qualified Nonelective Contributions shall be allocated first to the Participant with the lowest Compensation for that Plan Year and any remaining Qualified Nonelective Contributions thereafter shall be allocated to the Participant with the next lowest Compensation for that Plan Year. This allocation method shall continue in ascending order of Compensation until all such Qualified Nonelective Contributions are allocated. The allocation to any Participant shall not exceed the limits under section 415 of the Code. If two or more Participants have identical Compensation, the allocations to them shall be proportional.

(3) Qualified Nonelective Contributions for a Plan Year shall be contributed to the Trust within twelve (12) months after the close of such Plan Year.

(4) Qualified Nonelective Contributions shall only be allocated to Participants who receive Compensation during the Plan Year for which such contribution is made.

(d) The Administrator may, during a Plan Year, distribute to a Participant (or such Participant’s Beneficiary if the Participant is deceased), any or all Excess Contributions or Excess Deferrals (whether Elective Deferrals, Matching Contributions or Qualified Nonelective Contributions) allocable to that Participant’s Account for that Plan Year, notwithstanding any contrary provision of the Plan. Such distribution may include earnings or losses (if any) attributable to such amounts, as determined by the Administrator.

(e) (1) The Administrator may recharacterize any or all Excess Contributions for a Plan Year as Employee contributions in accordance with the provisions of this subsection. Any Excess Contributions that are so recharacterized shall be treated as if the Participant had elected to instead receive cash Compensation on the earliest date that any Elective Deferrals made on behalf of the Participant during the Plan Year would have been received had the Participant originally elected to receive such amount in cash and then contributed such amount as an Employee contribution. To the extent required by the Internal Revenue Service, however, such recharacterized Excess Contributions shall continue to be treated as if such amounts were not recharacterized.

(2) The Administrator shall report any recharacterized Excess Contributions as Employee contributions to the Internal Revenue Service and to the affected Participants at such times and in accordance with such procedures as are required by the Internal Revenue Service. The Administrator shall take such other actions regarding the amounts so recharacterized as may be required by the Internal Revenue Service.

(3) Excess Contributions may not be recharacterized under this subsection more than two and one-half (2 1/2) months after the close of the Plan Year to which the recharacterization relates. Recharacterization is deemed to occur when the Participant is so notified (as required by the Internal Revenue Service).

(4) The amount of Excess Contributions to be distributed or recharacterized shall be reduced by Excess Deferrals previously distributed for the taxable year
ending in the same Plan Year and Excess Deferrals to be distributed for a taxable year will be reduced by Excess Contributions previously distributed or recharacterized for the Plan beginning in such taxable year.

(f) (1) The Administrator may distribute any or all Excess Contributions for a Plan Year in accordance with the provisions of this subsection. Such distribution may only occur after the close of such Plan Year and within twelve (12) months of the close of such Plan Year. In the event of the termination of the Plan, such distribution shall be made within twelve (12) months after such termination. Such distribution shall include the income allocable to the amounts so distributed, as determined under this subsection. The Administrator may make any special allocations of earnings or losses necessary to carry out the provisions of this subsection. A distribution of an Excess Contribution under this subsection may be made without regard to any notice or consent otherwise required pursuant to sections 411(a)(11) and 417 of the Code.

(2)(A) The income allocable to Excess Contributions distributed under this subsection shall equal the allocable gain or loss for the Plan Year. Income includes all earnings and appreciation, including such items as interest, dividends, rent, royalties, gains from the sale of property, appreciation in the value of stock, bonds, annuity and life insurance contracts, and other property, without regard to whether such appreciation has been realized.

(B) The allocable gain or loss for the Plan Year may be determined under any reasonable method consistently applied by the Administrator. Alternatively, the Administrator may, in its discretion, determine such allocable gain or loss for the Plan Year under the method set forth in subparagraph (C).

(C) Under this method, the allocable gain or loss for the Plan Year is determined by multiplying the income for the Plan Year allocable to Elective Deferrals (and amounts treated as Elective Deferrals) by a fraction, the numerator of which is the Excess Contributions by the Participant for the Plan Year and the denominator of which is the total Account balance of the Participant attributable to Elective Deferrals (and amounts treated as Elective Deferrals) as of the beginning of the Plan Year, increased by any Elective Deferrals (and amounts treated as Elective Deferrals) by the Participant for the Plan Year.

(3) Amounts distributed under this subsection (or other provisions of this section) shall first be treated as distributions from the Participant's subaccounts in the following order:

(A) from the Participant's Elective Deferrals Account (if such Excess Contribution is attributable to Elective Deferrals);

(B) from the Participant's Qualified Nonelective Contribution Account (if such Excess Contribution is attributable to Qualified Nonelective Contributions); and

(C) from the Participant's Matching Contribution Account (if such Excess Contribution is attributable to Matching Contributions).

(g)(1) The term "Excess Contribution" shall mean, with respect to a Plan Year, the excess of the Elective Deferrals (including any Qualified Nonelective Contributions and Matching Contributions that are treated as Elective Deferrals under sections 401(k)(2) and 401(k)(3) of the Code) on behalf of eligible Highly Compensated Employees for the Plan Year over the maximum amount of such contributions permitted under sections 401(k)(2) and 401(k)(3) of the Code.
(2) Any distribution of Excess Contributions for a Plan Year shall be made to Highly Compensated Employees on the basis of the amount of contributions by, or on behalf of, each such Highly Compensated Employee.

(3) The amount of Excess Contributions to be distributed or recharacterized shall be reduced by Excess Deferrals previously distributed for the taxable year ending in the same Plan Year and Excess Deferrals to be distributed for a taxable year will be reduced by Excess Contributions previously distributed or recharacterized for the Plan beginning in such taxable year.

4.10 Correction of Excess Deferrals.

(a) Excess Deferrals shall be corrected as provided in this section. The Administrator may also prevent anticipated Excess Deferrals as provided in this section. The Administrator may use any method of correction or prevention provided in this section or any combination thereof, as it determines in its sole discretion. A distribution of an Excess Deferral under this section may be made without regard to any notice or consent otherwise required pursuant to sections 411(a)(11) and 417 of the Code. This section shall be administered and interpreted in accordance with sections 401(k) and 402(g) of the Code.

(b) The Administrator may refuse to accept any or all prospective Elective Deferrals to be contributed by a Participant.

(c) (1) The Administrator may distribute any or all Excess Deferrals to the Participant on whose behalf such Excess Deferrals were made before the close of the Applicable Taxable Year. Distributions under this subsection include income allocable to the Excess Distribution so distributed, as determined under this subsection.

(2) Distribution under this subsection shall only be made if all the following conditions are satisfied:

(A) the Participant seeking the distribution designates the distribution as an Excess Deferral;

(B) the distribution is made after the date the Excess Deferral is received by the Plan; and

(C) the Plan designates the distribution as a distribution of an Excess Deferral.

(3) The income allocable to the Excess Deferral distributed under this subsection shall be determined in the same manner as under subsection (d)(3), except that income shall only be determined for the period from the beginning of the Applicable Taxable Year to the date on which the distribution is made.

(d) (1) The Administrator may distribute any or all Excess Deferrals to the Participant on whose behalf such Excess Deferrals were made after the close of the Applicable Taxable Year. Distribution under this subsection shall only be made if the Participant timely provides the notice required under subsection (d)(2) and such distribution is made after the Applicable Taxable Year and before the first April 15 following the close of the Applicable Taxable Year. Distributions under this subsection shall include income allocable to the Excess Deferrals so distributed, as determined under this subsection.

(2) Any Participant seeking a distribution of an Excess Deferral in accordance
with this subsection must notify the Administrator of such request no later than the first March 15 following the close of the Applicable Taxable Year. The Administrator may agree to accept notification received after such date (but before the first April 15 following the close of the Applicable Taxable Year) if it determines that it would still be administratively practicable to make such distribution in view of the delayed notification. The notification required by this subsection shall be deemed made if a Participant's Elective Deferrals to the Plan in any Plan Year create an Excess Deferral.

(3) The income allocable to the Excess Deferral distributed under this subsection shall be determined in the same manner as under section 4.9(f)(2), except that the term "Excess Deferrals" shall be substituted for "Excess Contributions" and the term "Applicable Taxable Year" shall be substituted for "Plan Year." The Administrator may make any special allocations of earnings or losses necessary to carry out the provisions of this subsection.

(e) The following terms shall have the meanings specified:

(1) Applicable Taxable Year. The taxable year (for federal income tax purposes) of the Participant in which an Excess Deferral must be included in gross income (when made) in accordance with section 402(g) of the Code.

(2) Excess Deferral. A Participant's Elective Deferrals (and other contributions limited by section 402(g) of the Code), for an Applicable Taxable Year that are in excess of the limits imposed by section 402(g) of the Code for such Applicable Taxable Year.

4.11 Correction of Excess Aggregate Contributions.

(a) Excess Aggregate Contributions shall be corrected as provided in this section. The Administrator may use any method of correction or prevention provided in this section or any combination thereof, as it determines in its sole discretion. This section shall be administered and interpreted in accordance with sections 401(k) and 401(m) of the Code.

(b) The Administrator may refuse to accept any or all prospective Elective Deferrals to be contributed to a Participant.

(c) (1) The Company may, in its sole discretion, elect to contribute, as provided in section 4.1(c), a Qualified Nonelective Contribution in an amount necessary to satisfy any or all of the requirements of section 4.8.

(2) Qualified Nonelective Contributions for a Plan Year shall only be allocated to the Accounts of Participants who are not Highly Compensated Employees. Qualified Nonelective Contributions shall be allocated first to the Participant with the lowest Compensation for that Plan Year and any remaining Qualified Nonelective Contributions thereafter shall be allocated to the Participant with the next lowest compensation for that Plan Year. This allocation method shall continue in ascending order of Compensation until all such Qualified Nonelective Contributions are allocated. The allocation to any Participant shall not exceed the limits under section 415 of the Code. If two or more Participants have identical Compensation, the allocations to them shall be proportional.

(3) Qualified Nonelective Contributions for a Plan Year shall be contributed to the Trust within twelve (12) months after the close of such Plan Year.

(4) Qualified Nonelective Contributions shall only be allocated
to Participants who receive Compensation during the Plan Year for which such contribution is made.

(d) The Administrator may, during a Plan Year, distribute to a Participant (or such Participant's Beneficiary if the Participant is deceased), any or all Excess Aggregate Contributions allocable to that Participant's Account for that Plan Year, notwithstanding any contrary provision of the Plan. Such distribution may include earnings or losses (if any) attributable to such amounts, as determined by the Administrator.

(e)(1) The Administrator may forfeit any or all Excess Aggregate Contributions for a Plan Year in accordance with the provisions of this subsection. The amounts so forfeited shall not include any amounts that are nonforfeitable under ARTICLE VI.

(2) Any forfeitures under this subsection shall be made in accordance with the procedures for distributions under subsection (f) except that such amounts shall be forfeited instead of being distributed.

(f) (1) The Administrator may distribute any or all Excess Aggregate Contributions for a Plan Year in accordance with the provisions of this subsection. Such distribution may only occur after the close of such Plan Year and within twelve (12) months of the close of such Plan Year. Such distributions shall be specifically designated by the Administrator as a distribution of Excess Aggregate Contributions. In the event of the complete termination of the Plan, such distribution shall be made within twelve (12) months after such termination. Such distribution shall include the income allocable to the amounts so distributed, as determined under this subsection. The Administrator may make any special allocations of earnings or losses necessary to carry out the provisions of this subsection. A distribution of an Excess Aggregate Contribution under this subsection may be made without regard to any notice or consent otherwise required pursuant to sections 411(a)(11) and 417 of the Code.

(2) (A) The income allocable to Excess Aggregate Contributions distributed under this subsection shall equal the allocable gain or loss for the Plan Year. Income includes all earnings and appreciation, including such items as interest, dividends, rent, royalties, gains from the sale of property, appreciation in the value of stock, bonds, annuity and life insurance contracts, and other property, without regard to whether such appreciation has been realized.

(B) The allocable gain or loss for the Plan Year may be determined under any reasonable method consistently applied by the Administrator. Alternatively, the Administrator may, in its discretion, determine such allocable gain or loss for the Plan Year under the method set forth in subparagraph (C).

(C) Under this method, the allocable gain or loss for the Plan Year is determined by multiplying the income for the Plan Year allocable to employee contributions, matching contributions and amounts treated as matching contributions by a fraction, the numerator of which is the Excess Aggregate Contributions for the Participant for the Plan Year and the denominator of which is the total Account balance of the Participant attributable to employee contributions, matching contributions and amounts treated as matching contributions as of the beginning of the Plan Year, increased by the employee contributions, matching contributions and amounts treated as matching contributions for the Participant for the Plan Year.

(3) Amounts distributed under this subsection (or other provisions of this section) shall first be treated as distributions from the Participant's
subaccounts in the following order:

(A) from the Participant's Employee After-Tax Contribution Account (if such Excess Aggregate Contribution is attributable to Employee After-Tax Contributions);

(B) from the Participant's Qualified Nonelective Contribution Account (if such Excess Aggregate Contribution is attributable to Qualified Nonelective Contributions); and

(C) from the Participant's Matching Contribution Account (if such Excess Aggregate Contribution is attributable to Matching Contributions).

(g) (1) The term "Excess Aggregate Contribution" shall mean, with respect to a Plan Year, the excess of the aggregate amount of the matching contributions and employee contributions (including any Qualified Nonelective Contributions or elective deferrals taken into account in computing the Actual Contribution Percentage) actually made on behalf of eligible Highly Compensated Employees for the Plan Year over the maximum amount of such contributions permitted under section 401(m)(2)(A) of the Code.

24

(2) The terms "employee contributions" and "matching contributions" shall, for purposes of this section, have the meanings set forth in Treas. Reg. ss.1.401(m)-1(f).

(3) Any distribution of Excess Aggregate Contributions for a Plan Year shall be made to Highly Compensated Employees on the basis of the amount of contributions by, or on behalf of, each such Highly Compensated Employee.

4.12 Correction of Multiple Use.

(a) If the limitations of Treas. Reg. ss.1.401(m)-2 are exceeded for any Plan Year, then correction shall be made in accordance with the provisions of this section. This section shall be administered and interpreted in accordance with sections 401(k) and 401(m) of the Code.

(b) Any correction required by this section shall be calculated and administered in accordance with the provisions for correcting Excess Contributions (in section 4.9), Excess Aggregate Contributions (in section 4.11) or both, as the Administrator determines in its sole discretion. Any correction required by this section, to the extent possible, shall be made only with respect to those Highly Compensated Employees who are eligible in both the arrangement subject to section 401(k) of the Code and the Plan, as subject to section 401(m) of the Code.

ARTICLE V

Investment of Accounts

5.1 Election of Investment Funds.

(a) Except as otherwise prescribed in subsections (b), (c) and (d) below, upon enrollment in the Plan, each Participant shall direct that the funds in the Participant's Account be invested in increments of one percent (1%) in one or more of the investment options designated by the Administrator, which may include designated investment funds, specific investments or both. The investment choices made available shall be sufficient to allow compliance with section 404(c) of ERISA.
(b) Matching Contributions made with respect to Plan Years beginning on and after January 1, 1999 must be invested in Common Stock until the beginning of the fifth (5th) Plan Year following the Plan Year for which such contributions are made. Thereafter, a Participant may designate the investment of the Matching Contribution funds in accordance with the provisions of subsection (a) above. Notwithstanding anything herein to the contrary, the five-year restriction prescribed in this subsection (b) shall no longer apply immediately following a Participant's Severance from Service or on or after January 1 of the calendar year in which a Participant attains age 55.

(c) Except as otherwise determined by the Administrator, amounts held in a Participant's ESOP Contribution Account shall be invested in Common Stock. Notwithstanding the preceding sentence, any Participant who has attained age 55 and completed a Period of Participation of at least ten (10) years shall be permitted to direct that up to twenty-five percent (25%) of the total number of shares of Common Stock (rounded to the nearest whole integer) allocated to the Participant's ESOP Contribution Account as of the December 31 immediately preceding each Plan Year during the Qualified Election Period may be invested among the otherwise available investment options under the Plan in accordance with the provisions of subsection (a) above. With respect to a qualified Participant's final diversification election, fifty percent (50%) is substituted for twenty-five percent (25%) in determining the amount subject to the diversification election. Any direction to diversify hereunder may be made within 90 days after the close of each Plan Year during the Participant's Qualified Election Period, as defined below. Any direction made during the applicable 90-day period following any Plan Year may be revoked or modified at any time during such 90-day period. The diversification of the ESOP Contribution Account as provided herein shall be made through the sale by the Trustee of the number of shares of Common Stock directed by the Participant. The amount that may be invested among the otherwise available investment options under the Plan shall be equal to the proceeds of such sale. Any such diversification shall be implemented no later than the 180th day of the Plan Year in which the Participant's direction is made. All such directions shall be in accordance with any notice, rulings, or regulations or other guidance issued by the Internal Revenue Service with respect to section 401(a)(28)(B) of the Code. For the purposes of this section, the term "Qualified Election Period" shall mean the six (6) Plan Year period beginning with the later of the Plan Year in which the Participant attains age 55 or completes a Period of Participation of ten (10) years.

(d) Notwithstanding subsection (e) below, the Administrator shall maintain a General Motors Class H Stock Fund ("Fund H") and Raytheon Company Class A Stock Fund ("Fund I") as investment options under the Plan, subject to the limitations prescribed in this subsection (d), for four (4) complete Plan Years following the Effective Date; provided, however, that if at any time prior to the expiration of such four (4) year period, the aggregate fair market value of the assets invested in either Fund H or Fund I falls below five percent (5%) of the highest fair market value of the assets invested in Fund H or Fund I, respectively, the Administrator may, with six (6) months written notice to affected Participants, eliminate Fund H or Fund I, as applicable, as investment options under the Plan. Notwithstanding the foregoing, the Administrator may eliminate one or both funds at any time if the Administrator determines in good faith that such elimination is necessary under applicable law (including without limitation the prudence requirements of ERISA). When Fund H and Fund I are eliminated in accordance with this section 5.1(d), Participants with assets invested in Fund H or Fund I, as applicable, shall direct the transfer of such assets to the available investment options under the Plan.
assets to other funds available under the Plan or, if no such election is made, the Administrator shall transfer such assets to a low risk fixed income fund as determined by the Administrator in its discretion. The only assets that may be invested in Fund H or Fund I are the General Motors Class H Stock Fund and Raytheon Company Class A Stock Fund, respectively, directly transferred to the Plan in connection with the mergers identified in Section 1.1(b). A Participant may not direct that any other funds in the Participant's Account be invested in Fund H or Fund I.

(e) In its discretion, the Administrator may from time to time designate new funds and, where appropriate, preclude investment in existing funds and provide for the transfer of Accounts invested in those funds to other funds selected by the Participant or, if no such election is made, to a low risk fixed income fund as determined by the Administrator in its discretion.

(f) Except as otherwise prescribed in subsections (b), (c) and (d) above, a Participant's investment election will apply to the entire Account of the Participant.

(g) In establishing rules and procedures under section 5.1, the following shall apply:

(1) Each Participant, Beneficiary or Alternate Payee shall affirmatively elect to self-direct the investment of assets in his or her Account, but such election may provide for default investments in the absence of specific directions from such Participant, Beneficiary or Alternate Payee.

(2) The investment directions of a Participant shall continue to apply after that Participant's death or incompetence until the Beneficiary (or, if there is more than one Beneficiary for that Account, all of the Beneficiaries), guardian or other representatives provide contrary direction.

(3) The Administrator may decline to implement investment designations if such investment, in the Administrator's judgment:

(A) would result in a prohibited transaction under section 4975 of the Code;
(B) would generate income taxable to the Trust Fund;
(C) would not be in accordance with the Plan and Trust;
(D) would cause a Fiduciary to maintain the indicia of ownership of any assets of the Trust Fund outside the jurisdiction of the district courts of the United States other than as permitted by section 404(b) of ERISA and Labor Reg.ss.2550.404(b)-1;
(E) would jeopardize the Plan's tax qualified status under the Code;
(F) could result in a loss in excess of the amount credited to the Account; or
(G) would violate any other requirements of the Code or ERISA.

(4) Except as otherwise prescribed in subsections (b), (c) and (d) above, the Administrator may establish reasonable restrictions on the frequency with which investment directions may be given, consistent with section 404(c) of ERISA.

(5) The Administrator may establish limits on the use of brokers, investment
counsel or other advisors that may be utilized, including specifying that all
investments must be made through a designated broker or brokers.

(6) The Administrator may establish limits on the types of investments that are
permitted.

(h) Except as otherwise prescribed in subsections (b), (c) and (d) above, the Administrator shall establish such rules and procedures as may be advisable or necessary to carry out the provisions of this section, with such rules and procedures being consistent with section 404(c) of ERISA.

(i) The Administrator shall establish such rules and procedures as may be advisable or necessary to reasonably ensure that all transactions involving the investment funds comply with all applicable laws, including the securities laws.

5.2 Change in Investment Allocation of Future Deferrals. Except as otherwise prescribed in sections 5.1(b), (c) and (d), each Participant may elect to change the investment allocation of future contributions effective as of the first Trade Day subsequent to notice to the Recordkeeper by which it is administratively feasible to make such change. Any changes must be made either in increments of one percent (1%) of the Participant's Account or in a specified whole dollar amount and must result in a total investment of one hundred percent (100%) of the Participant's Account.

5.3 Transfer of Account Balances Between Investment Funds. Except as otherwise prescribed in sections 5.1(b), (c) and (d), each Participant may elect to transfer all or a portion of the amount in his or her Account between investment funds effective as of the first Trade Day following notice to the Recordkeeper by which it is administratively feasible to carry out such transfer. In determining the amount of the transfer, the Participant's Account shall be valued as of the close of business on the Trade Day on which notice is received; provided, however, that in any case where the notice is received after 4:00 p.m. Eastern Time (daylight or standard, whichever is in effect on the date of the call), the Account shall be valued as of the close of business on the next Trade Day. Such transfers must be made in either one percent (1%) increments of the entire Account or in a specified amount in whole dollars and, as of the completion of the transfer, must result in investment of one hundred percent (100%) of the Account. Transfers shall be effected by telephone notice to the Recordkeeper.

5.4 Ownership Status of Funds. The Trustee shall be the owner of record of the Plan assets. The Administrator shall have records maintained as of the Valuation Date for each investment option allocating a portion of the investment option to each Participant who has elected that his or her Account be invested in such investment option. The records shall reflect each Participant's portion of Common Stock, Raytheon Company Class A common stock and General Motors Class H common stock in cash and unitized shares of stock and shall reflect each Participant's portion of all other investment options as may be established by the Administrator in a cash amount.

5.5 Voting Rights. Participants whose Accounts are invested in Common Stock or Raytheon Company Class A common stock on the last business day of the second month preceding the record date (the "Voting Eligibility Date") for any meeting of stockholders have the right to instruct the Trustee as to voting at such meeting. The number of votes is determined by dividing the value of the shares in the Participant's Account by the closing price of the respective classes of stock on the Voting Eligibility Date. If the Trustee has not received instructions from a Participant as to voting of shares within a specified time,
then the Trustee shall not vote those shares. If a Participant furnishes the
Trustee with a signed vote direction card without indicating a voting choice
thereon, the Trustee shall vote the Participant's shares as recommended by
management. In addition, each Participant shall have the right to accept or
reject any tender or exchange offer for shares of the respective classes of
stock. The Trustee shall vote (or tender or exchange) all combined fractional
shares of the respective classes of stock to the extent possible in the same
proportion as the shares which have been voted (or tendered or exchanged) by
each Participant. Any instructions as to voting (or tender or exchange) received
from an individual Participant shall be held in confidence by the Trustee and
shall not be divulged to the Adopting Employers or to any officer or employee
thereof or to any other person.

5.6 Allocation of Earnings.

(a)(1) The Administrator, as of each Valuation Date, shall adjust the
amounts credited to the Accounts (including Accounts for persons who are no
longer Employees) so that the total of such Account balances equals the fair
market value of the Trust Fund assets as of such Valuation Date. Except as
otherwise provided herein, any changes in the fair market value of the Trust
Fund assets since the preceding Valuation Date shall be charged or credited to
each Account in the ratio that the balance in each such Account as of the
preceding Valuation Date bears to the balances in all Accounts as of that
Valuation Date with appropriate adjustments to reflect any distributions,
allocations or similar adjustments to such Account or Accounts since that
Valuation Date.

(b) The Administrator may, in its sole discretion, direct the Trustee to
segregate and separately invest any Trust Fund assets. If any assets are
segregated in this fashion, the earnings or losses on such assets shall be
determined apart from other Trust assets and shall be adjusted on each Valuation
Date, or at such other times as the Administrator deems necessary, in accordance
with this section.

ARTICLE VI

Vesting

6.1 Elective Deferral, Employee After-Tax Contribution, Rollover
Contribution, Qualified Nonelective Contribution and ESOP Contribution Accounts.
Each Participant shall have a nonforfeitable right to all amounts in the
Participant's Elective Deferral, Employee After-Tax Contribution, Rollover
Contribution, Qualified Nonelective Contribution and ESOP Contribution Accounts.
6.2 Matching Contribution Account.

(a) Each Participant who performs an Hour of Service on or after January 1, 1999, shall have a nonforfeitable right to his or her entire Account, including the Participant's Matching Contribution Account.

(b) Each Participant who does not perform an Hour of Service on or after January 1, 1999 shall have a nonforfeitable right to his or her Matching Contribution Account in accordance with the terms of the Plan as in effect before January 1, 1999 (or, if more favorable, under the terms of the transferee plan in the case of a direct transfer of assets to the Plan in accordance with sections 1.1(b) and 4.5(c)). For this purpose, before January 1, 1999, the Plan provided that each Participant would have a nonforfeitable right to his or her Matching Contribution Account upon the earliest of:

(1) the Participant's completion of a Period of Service of five (5) years;

(2) the Participant's completion of a Period of Participation of three (3) years;

(3) the Participant's Retirement, death while an Employee, Disability or attainment of Normal Retirement Age; or

(4) in the case of a Participant who formerly participated in the Raytheon Salaried Savings and Investment Plan (10011) and the Raytheon California Hourly Savings and Investment Plan (10012), the Participant's Layoff or Severance from Service due to Qualified Military Service.

(c) For purposes of this section 6.2, all Hours of Service as a Leased Employee, if any, shall be taken into account for purposes of determining a Participant's nonforfeitable right to his or her Matching Contribution Account, even though Leased Employees are not eligible to participate in the Plan.

6.3 Forfeitures.

(a) In the event that a Participant incurs a Severance from Service before attaining a nonforfeitable right to his or her Matching Contributions, the Matching Contribution Account will be forfeited as of the first day of the month immediately following the earliest of: (i) the date on which the Participant incurs a Period of Severance of five (5) consecutive years; (ii) death; or (iii) the date on which the Participant's Elective Deferral Account is distributed in accordance with ARTICLE VIII. Forfeitures of Matching Contributions will be used to reduce future contributions of the Adopting Employers to the Plan.

(b) If, in connection with his or her Severance from Service, a Participant received a distribution of his or her Elective Deferral Account when he or she did not have a nonforfeitable right to his or her Matching Contribution Account, the Matching Contributions that were forfeited, unadjusted by any subsequent gains or losses, shall be restored if he or she again becomes an Employee before incurring a Period of Severance of five (5) consecutive years.

6.4 Break in Service Rules

(a) Periods of Service. In determining the length of a Period of Service, the Administrator shall include all Periods of Service, except the following Periods of Service shall not be taken into account:
(1) in the case of a Participant who has never had a vested account balance, the Period of Service before any Period of Severance which equals or exceeds five (5) consecutive years; and

(2) in the case of a Participant who has had a vested account balance and who has incurred a Period of Severance which equals or exceeds five (5) years, the Period of Service after such Period of Severance shall not be taken into account for purposes of determining the nonforfeitable interest of such Participant in the Matching Contributions allocated to his or her Account before such Period of Severance.

(b) Periods of Severance. In determining the length of a Period of Service, the Administrator shall include any period of time beginning on an Employee's Severance from Service Date and ending on the date on which he or she is next credited with an Hour of Service, provided that such Hour of Service is credited within the twelve- (12) consecutive month period following such Severance from Service Date.

(c) Other Periods. In making the determinations described in subsections (a) and (b) of this section, the second, third, and fourth consecutive years of a Layoff (from the first anniversary of the last day paid to the fourth anniversary of the last day paid) and any period in excess of one (1) year of an Authorized Leave of Absence shall be regarded as neither a Period of Service nor a Period of Severance.

ARTICLE VII
In-Service Withdrawals

7.1 Elective Deferrals and Qualified Nonelective Contributions.

(a) Subject to the terms and conditions prescribed in section 7.5, a Participant may withdraw all or a portion of his or her Elective Deferral Account or Qualified Nonelective Contribution Account either (1) on or after attainment of age fifty-nine and one-half (59 1/2), or (2) in the event of a hardship.

(b) In order to be entitled to a hardship withdrawal under this section, a Participant must satisfy the requirements of both subsection (c) and subsection (d). Whether a Participant is entitled to a withdrawal under this section is to be determined by the Administrator in accordance with nondiscriminatory and objective standards.

(c)(1) A Participant will be deemed to have experienced an immediate and heavy financial need necessary to satisfy the requirements of this subsection if the withdrawal is on account of:

(A) medical expenses described in section 213(d) of the Code incurred by the Participant, the Participant's spouse or any dependents of the Participant;

(B) the purchase (excluding mortgage payments) of a principal residence of the Participant;

(C) payment of tuition for the next twelve (12) months of post-secondary education for the Participant or his or her spouse, children or dependents; or

(D) the need to prevent the eviction of the Participant from his or her
principal residence or the foreclosure on the mortgage of the Participant's principal residence.

(d)(1) A withdrawal under this subsection will be deemed necessary to satisfy an immediate and heavy financial need of the Participant if it satisfies the requirements of this subsection. To the extent the amount of the withdrawal would be in excess of the amount required to relieve the financial need of the Participant or to the extent such need may be satisfied from other resources that are reasonably available to the Participant, such withdrawal shall not satisfy the requirements of this subsection. For purposes of this subsection, a Participant's resources shall be deemed to include those assets of his or her spouse or minor children that are reasonably available to the Participant.

(2) A withdrawal may be treated as necessary to satisfy a financial need if the Administrator reasonably relies upon the Participant's representation that the need cannot be relieved:

(A) through reimbursement or compensation by insurance or otherwise;

(B) by reasonable liquidation of the Participant's assets to the extent such liquidation would not itself cause an immediate and heavy financial need;

(C) by cessation of Elective Deferrals under the Plan for at least twelve (12) months after receipt of the hardship withdrawal; or

(D) by other distributions or nontaxable (at the time of the loan) loans from plans maintained by the Adopting Employers or by any other employer or by borrowing from commercial sources on reasonable commercial terms.

(e) If a Participant receives a withdrawal for reasons of financial hardship, the Participant's Elective Deferrals shall be reduced to four percent (4%) (or such lower percentage as the Participant shall thereafter designate), if in excess thereof as of the date of the distribution, and shall not be increased during the twelve (12) months immediately subsequent to the date of distribution.

7.2 Employee After-Tax Contributions. Subject to the terms and conditions prescribed in section 7.5, a Participant may withdraw all or a portion of his or her Employee After-Tax Contribution Account.

7.3 Matching Contributions. Subject to the terms and conditions prescribed in section 7.5, after completion of a Period of Participation of five (5) years or more, a Participant may withdraw all or a portion of his or her Matching Contribution Account.

7.4 Rollover Contributions. Subject to the terms and conditions prescribed in section 7.5, a Participant may withdraw all or a portion of his or her Rollover Contribution Account.

7.5 General Terms and Conditions. All in-service withdrawals are subject to the following terms and conditions:

(a) In-service withdrawals of less than five hundred dollars ($500) will not be permitted.

(b) In determining the amount of any in-service withdrawal, the Participant's Account shall be valued as of the close of business on the Trade Day on which notice is received; provided, however, that in any case where the
notice is received after 4:00 p.m. Eastern Time (daylight or standard, whichever is in effect on the date of the call), the Account shall be valued as of the close of business on the next Trade Day.

(c) Payment of the amount withdrawn will be made as soon as administratively feasible after the effective date of the withdrawal.

(d) In-service withdrawals from a Participant's Account will generally be made in cash. However, in-service withdrawals from Accounts invested in Common Stock, General Motors Class H common stock or Raytheon Company Class A common stock will be made in cash or stock (with cash for fractional or unissued shares) as elected by the Participant.

(e) Funds for in-service withdrawals will be taken on a pro-rata basis against the Participant's investment balances in his or her Account.

(f) In-service withdrawals may not be redeposited in the Plan.

(g) The Administrator may adopt such other rules and procedures as it deems necessary, in its sole discretion, to properly administer the in-service withdrawal provisions in this ARTICLE.

ARTICLE VIII

Distribution of Benefits

8.1 General.

(a) Except as otherwise provided in Exhibit B to this Plan (or otherwise required by section 4.5(b)), all benefits payable under this Plan shall be paid in the manner and at the times specified in this ARTICLE.

(b) All payment methods and distributions shall comply with the requirements of sections 401(a)(4) and 401(a)(9) of the Code and the regulations thereunder and, if necessary, shall be interpreted to so comply. All distributions shall comply with the incidental death benefit requirement of section 401(a)(9)(G) of the Code. Distributions shall comply with the regulations under section 401(a)(9) of the Code, including Treas. Reg. ss.1.401(a)(9)-2. The provisions of the Plan reflecting section 401(a)(9) of the Code override any distribution provisions in the Plan inconsistent with section 401(a)(9) of the Code.

8.2 Commencement of Benefits.

(a) A Participant (or Beneficiary) shall be entitled to a distribution of the nonforfeitable portion of his or her Account upon Severance from Service (or if earlier, an event described in subsections (e)(3), (4) and (5)).

(b) Except as otherwise provided in this section 8.2, payment of benefits to a Participant (or Beneficiary) shall commence within a reasonable period of time following the Participant's Severance from Service (or if earlier, an event described in subsections (e)(3), (4) and (5)).

(c) If the value of the nonforfeitable portion of the Participant's Account exceeds the maximum amount prescribed in section 411(a)(11) of the Code, then payment to the Participant shall not commence without the Participant's written consent, except as otherwise required by Section 8.2(f). Such written consent must be obtained no more than ninety (90) days before the commencement of the distribution. Notwithstanding the preceding
provisions of this subsection (c), all distributions to a Participant's Beneficiary shall commence within a reasonable period of time following the Participant's death (no consent of the Beneficiary is required).

(d) Unless a Participant elects otherwise, distribution to the Participant shall commence no later than sixty (60) days after the close of the Plan Year in which the latest of the following events occurs:

(1) attainment by the Participant of Normal Retirement Age;
(2) the tenth (10th) anniversary of the date on which Participant commenced participation in the Plan; or
(3) Participant's Severance from Service.

(e) Distribution of the nonforfeitable portion of a Participant's Account attributable to Elective Deferrals and Qualified Nonelective Contributions shall generally commence in accordance with the general provisions of this section 8.2, but in no event before the earliest of:

(1) the Participant's Severance from Service;
(2) the Participant's attainment of age fifty-nine and one-half (59 1/2);
(3) the termination of the Plan without establishment or maintenance of another defined contribution plan (other than an employee stock ownership plan);
(4) the disposition of substantially all of the assets used by the Employer in a trade or business of the Employer but only with respect to an Employee who continues employment with the entity acquiring such assets;
(5) the disposition of the Employer's interest in a subsidiary, but only with respect to an Employee who continues employment with such subsidiary.

(f) A Participant who has attained age seventy and one-half (70 1/2) and is subject to the mandatory distribution requirements of section 401(a)(9) of the Code shall receive a lump sum distribution of his or her entire Account at the time distributions must commence in order to comply with such requirements. If additional amounts are allocated to such Participant's Account following such lump sum distribution, additional lump sum distributions of his or her entire Account shall be made at such times any mandatory distributions are required to comply with section 401(a)(9) of the Code. Such payments shall be made notwithstanding any contrary provisions of the Plan or election made by such Participant.

(g) If a Participant dies before the time when distribution is considered to have commenced in accordance with applicable regulations, then any remaining nonforfeitable portion of the Participant's Account shall be distributed within five (5) years after the Participant's death. If a distribution is considered to have commenced in accordance with the applicable regulations before the Participant's death, the remaining nonforfeitable portion of the Participant's Account shall be distributed at least as rapidly as under the method of distribution being used as of the date of the Participant's death.

8.3 Form of Distribution.

(a) Distributions under the Plan shall be made only in the form of a single, lump-sum payment of the entire nonforfeitable portion of the Participant's Account.

(b) Distribution of the nonforfeitable portion of the Participant's Account that is invested in Common Stock, Raytheon Company Class A common stock (if any) or General Motors Class H common stock (if any) shall be made in cash or in-kind, at the election of the Participant (or Beneficiary). All other
distributions under the Plan shall be made in cash (or cash equivalent).

8.4 Determination of Amount of Distribution. In determining the amount of any distribution hereunder, the nonforfeitable portion of a Participant's Account shall be valued as of the close of business on the Trade Day on which notice is received; provided, however, that in any case where the telephone notice is received after 4:00 p.m. Eastern Time (daylight or standard, whichever is in effect on the date of the call), the Account shall be valued as of the close of business on the next Trade Day.

8.5 Direct Rollovers.

(a) A Participant may elect that all or any portion of a distribution that would otherwise be paid as an Eligible Rollover Distribution shall instead be transferred as a Direct Rollover.

(b) The Administrator shall determine and apply rules and procedures as it deems reasonable with respect to Direct Rollovers. The Administrator may change such rules and procedures from time to time and shall not be bound by any previous rules and procedures it has applied.

(c) The following terms shall have the meanings specified:

(1) Direct Rollover. An available distribution that is paid directly to an Eligible Retirement Plan for the benefit of the distributee.

(2) Distributee. A Participant or former Participant. In addition, the Participant's or former Participant's Surviving Spouse or former spouse who is the Alternate Payee under a Qualified Domestic Relations Order, as defined in section 414(p) of the Code, are Distributees with regard to the interest of the spouse or former spouse.

(3) Eligible Retirement Plan. An individual retirement account described in section 408(a) of the Code, an individual retirement annuity (other than an endowment contract) described in section 408(b) of the Code, a qualified trust described in section 401(a) of the Code if such qualified trust is part of a plan that permits acceptance of Direct Rollovers or an annuity plan described in section 403(a) of the Code. In the case of a Direct Rollover for the benefit of the spouse or former spouse of a Participant, the term "Eligible Retirement Plan" shall only include an individual retirement account described in section 408(a) of the Code and an individual retirement annuity (other than an endowment contract) described in section 408(b) of the Code.

(4) Eligible Rollover Distribution. Any distribution under the Plan to a Participant, a Participant's spouse or a Participant's former spouse, except for the following:

(A) Any distribution to the extent the distribution is required under section 401(a)(9) of the Code.

(B) The portion of any distribution that is not includable in gross income (determined without regard to the exclusion for net unrealized appreciation described in section 402(e)(4) of the Code).

(C) Returns of elective deferrals described in Treas. Reg. ss.1.415-6(b)(6)(iv) that are returned as a result of the limitations under section 415 of the Code.
(D) Corrective distributions of excess contributions and excess deferrals under qualified cash or deferred arrangements as described in Treas. Reg. ss.1.401(k)-1(f)(4) and ss.1.402(g)-1(e)(3), respectively, and corrective distributions of excess aggregate contributions as described in Treas. Reg. ss.1.401(m)-1(e)(3), together with the income allocable to these corrective distributions.

(E) Loans treated as distributions under section 72(p) of the Code and not excepted by section 72(p)(2) of the Code.

(F) Loans in default that are deemed distributions.

(G) Dividends paid on employer securities as described in section 404(k) of the Code.

(H) The costs of life insurance coverage.

(I) Similar items designated by the Internal Revenue Service in revenue rulings, notices, and other guidance of general applicability.

8.6 Notice and Payment Elections.

(a) The Administrator shall provide Participants or other Distributees of Eligible Rollover Distributions with a written notice designed to comply with the requirements of section 402(f) of the Code. Such notice shall be provided within a reasonable period of time before making an Eligible Rollover Distribution.

(b) Any elections concerning the payment of benefits under this ARTICLE shall be made on a form prescribed by the Administrator. The Participant or other Distributee shall submit a completed form to the Administrator at least thirty (30) days before payment is scheduled to commence, unless the Administrator agrees to a shorter time period. Any election made under this section shall be revocable until thirty (30) days before payment is scheduled to commence.

(c) An election to have payment made in a Direct Rollover shall only be valid if the Participant or other Distributee provides adequate information to the Administrator for the implementation of such Direct Rollover and such reasonable verification as the Administrator may require that the transferee is an Eligible Retirement Plan.

8.7 Qualified Domestic Relations Orders.

(a) Notwithstanding any contrary provision of the Plan, payments shall be made in accordance with any judgment, decree or order determined to be a Qualified Domestic Relations Order.

(b)(1) If the Plan receives a Domestic Relations Order, the Administrator shall promptly notify the Participant and each Alternate Payee of the receipt of such order and of the Plan's procedures for determining whether such order is a Qualified Domestic Relations Order. The Administrator shall, within a reasonable period after receipt of such order, determine whether it is a Qualified Domestic Relations Order and notify the Participant and each Alternate Payee of that determination.

(2) During any period in which the issue of whether a Domestic Relations Order is a Qualified Domestic Relations Order is being determined, the Administrator
shall separately account for the amounts that would have been payable to the Alternate Payee during such period if the order had been determined to be a Qualified Domestic Relations Order.

(c)(1) A Domestic Relations Order meets the requirements of this subsection only if such order clearly specifies the following:

(A) the name and last known mailing address (if any) of the Participant and the name and mailing address of each Alternate Payee covered by the order;

(B) the amount or the percentage of the Participant's benefits to be paid by the Plan to each such Alternate Payee or the manner in which such amount or percentage is to be determined;

(C) the number of payments or period to which such order applies; and

(D) each plan to which such order applies.

(2) A Domestic Relations Order meets the requirements of this subsection only if such order does not:

(A) require the Plan to provide any type or form of benefit or any option not otherwise provided under the Plan;

(B) require the Plan to provide increased benefits (determined on the basis of actuarial value); and

(C) does not require the payment of benefits to an Alternate Payee that is required to be paid to another Alternate Payee under another order previously determined to be a Qualified Domestic Relations Order.

(d) A domestic relations order shall not be treated as failing to meet the requirements of section 8.7(c)(2)(A) solely because such order requires that payment of benefits be made to an Alternate Payee:

(1) in the case of any payment before a Participant has separated from service, on after the date on which the Participant attains (or would have attained) the Earliest Retirement Date;

(2) as if the Participant had retired on the date on which such payment is to begin under such order (but taking into account only the present value of the benefits actually accrued and not taking into account the present value of any employer subsidy for early retirement); and

(3) in any form in which such benefits may be paid under the Plan to the Participant (other than in the form of a qualified joint and survivor annuity with respect to the Alternate Payee and his or her subsequent spouse).

(e) A domestic relations order shall not be treated as failing to meet the requirements of section 8.7(c)(2)(A) solely because such order requires that payment of benefits be made to an Alternate Payee at a date before the Participant is entitled to receive a distribution. Such distribution shall be made to such Alternate Payee notwithstanding any contrary provision of the Plan.

(f) The following terms shall have the meanings specified:

(1) Alternate Payee. Any spouse, former spouse, child or other dependent of a Participant who is recognized by a Domestic Relations Order as having a right to
benefits under the Plan with respect to such Participant.

(2) Domestic Relations Order. A judgment, decree or order relating to child support, alimony or marital property rights, as defined in section 414(p)(1)(B) of the Code.

(3) Earliest Retirement Date. The earlier of:

(A) the date on which the Participant is entitled to a distribution under the Plan; or

(B) the later of: (i) the date the Participant attains age fifty (50); or (ii) the earliest date on which the Participant could begin receiving benefits under the Plan if the Participant separated from service.

(4) Qualified Domestic Relations Order. A Domestic Relations Order that satisfies the requirements of subsection (c) and section 414(p)(1)(A) of the Code.

(g) If an Alternate Payee entitled to payment under this section is the spouse or former spouse of a Participant and payment will otherwise be made in an Eligible Rollover Distribution, then such spouse or former spouse may elect that all, or any portion, of such payment shall instead be transferred as a Direct Rollover. Such Direct Rollover shall be governed by the requirements of section 8.5.

(h) If a Domestic Relations Order directs that payment be made to an Alternate Payee before the Participant's Earliest Retirement Date and such Domestic Relations Order otherwise qualifies as a Qualified Domestic Relations Order, then the Domestic Relations Order shall be treated as a Qualified Domestic Relations Order and such payment shall be made to the Alternate Payee, even though the Participant is not entitled to receive a distribution under the Plan because he or she continues to be an Employee of the Employer.

(i) This section shall be interpreted and administered in accordance with section 414(p) of the Code.

8.8 Designation of Beneficiary.

(a) A Participant may designate a Beneficiary (including successive or contingent Beneficiaries) in accordance with this section 8.8. Such designation shall be on a form prescribed by the Administrator, may include successive or contingent Beneficiaries, shall be effective upon receipt by the Administrator and shall comply with such additional conditions and requirements as the Administrator shall prescribe. The interest of any person as Beneficiary shall automatically cease on his or her death and any further payments from the Plan shall be made to the next successive or contingent Beneficiary.

(b) A Participant may change his or her Beneficiary designation from time to time, without the consent or knowledge of any previously designated Beneficiary, by filing a new Beneficiary designation form with the Administrator in accordance with subsection (a).

(c) If a Participant dies without a designated Beneficiary surviving, the person or persons in the following class of successive beneficiaries surviving,
any testamentary devise or bequest to the contrary notwithstanding, shall be deemed to be the Participant's Beneficiary: the Participant's (1) spouse, (2) children and issue of deceased children by right of representation, (3) parents, (4) brothers and sisters and issue of deceased brothers and sisters by right of representation, or (5) executors or administrators. If no Beneficiary can be located during a period of seven (7) years from the date of death, the Participant's Account shall be treated in the same manner as a forfeiture under section 6.3(a).

(d) Notwithstanding the foregoing provisions of this section, if a Participant is married at the time of his or her death, such Participant shall be deemed to have designated his or her surviving spouse as Beneficiary, unless such Participant has filed a Beneficiary designation under subsection (a) and such spouse has consented in writing to the election (acknowledging the effect of the election and specifically acknowledging the nonspouse Beneficiary) and such consent was witnessed by either the Administrator (or its delegate) or a notary public. Such consent shall not be required if the Participant does not have a spouse or the spouse cannot be located. Such consent shall not be required if the Participant is legally separated from his or her spouse or the Participant has been abandoned (under applicable local law) and the Participant has a court order to such effect, unless a Qualified Domestic Relations Order provides otherwise. If the Participant's spouse is legally incompetent to give consent, the spouse's legal guardian (even if the guardian is the Participant) may give consent.

8.9 Lost Participant or Beneficiary.

(a) All Participants and Beneficiaries shall have the obligation to keep the Administrator informed of their current address until such time as all benefits due have been paid.

(b) If any amount is payable to a Participant or Beneficiary who cannot be located to receive such payment, such amount may, at the discretion of the Administrator, be forfeited; provided, however, that if such Participant or Beneficiary subsequently claims the forfeited amount, it shall be reinstated and paid to such Participant or Beneficiary. Such reinstatement may, in the Administrator's sole discretion, be made from contributions by one or more Adopting Employers, forfeitures or Trust earnings, and shall be treated as a special allocation that supersedes the normal allocation rules.

(c) If the Administrator has not, after due diligence, located a Participant or Beneficiary who is entitled to payment within three (3) years after the Participant's Severance from Service, then, at the discretion of the Administrator, such person may be presumed deceased for purposes of this Plan. Any such presumption of death shall be final, conclusive and binding on all parties.

8.10 Payments to Incompetents. If a Participant or Beneficiary entitled to receive any benefits hereunder is adjudicated to be legally incapable of giving valid receipt and discharge for such benefits, the benefits may be paid to the duly authorized personal representative of such Participant or Beneficiary.

8.11 Offsets. Any transfers or payments made from a Participant's Account to a person other than the Participant pursuant to the provisions of this Plan shall reduce the Participant's Account and offset any amounts otherwise due to such Participant. Such transfers or payments shall not be considered a forfeiture for purposes of the Plan.
8.12 Income Tax Withholding. To the extent required by section 3405 of the Code, distributions and withdrawals from the Plan shall be subject to federal income tax withholding.

ARTICLE IX

Loans

9.1 Availability of Loans. Participants may borrow against all or a portion of the nonforfeitable balance in the Participant's Account, subject to the limitations set forth in this ARTICLE. Loans will be made available to all Participants on a reasonably equivalent basis and will not be made available to Highly Compensated Employees in an amount greater than the amount made available to other employees. Participants who have incurred a Severance from Service will not be eligible for a Plan loan.

9.2 Minimum Amount of Loan. No loan of less than five hundred dollars ($500) will be permitted.

9.3 Maximum Amount of Loan. No loan in excess of fifty percent (50%) of the Participant's nonforfeitable Account balance will be permitted. In addition, limits imposed by the Internal Revenue Code and any other requirements of applicable statute or regulation will be applied. Under the current requirements of the Internal Revenue Code, a loan cannot exceed the lesser of one-half (1/2) of the value of the Participant's nonforfeitable Account balance or fifty thousand dollars ($50,000) reduced by the excess of (a) the highest outstanding balance of loans from the Plan during the one-year period ending on the day before the date on which such loan was made over (b) the outstanding balance of loans from the Plan on the date on which such loan was made.

9.4 Effective Date of Loans. Loans will be effective as specified in the Administrator's rules then in effect.

9.5 Repayment Schedule. The Participant may select a repayment schedule of one, two, three, four or five (1, 2, 3, 4 or 5) years. If the loan is used to acquire any dwelling which, within a reasonable time is to be used (determined at the time the loan is made) as the principal residence of the Participant, the repayment period may be extended up to fifteen (15) years at the election of the Participant. All repayments will be made through payroll deductions in accordance with the loan agreement executed at the time the loan is made, except that, in the event of the sale of all or a portion of the business of the Employer or one of the Adopting Employers, or other unusual circumstances, the Administrator, through uniform and equitable rules, may establish other means of repayment. The loan agreement will permit repayment of the entire outstanding balance in one lump-sum and the repayment of any portion of the outstanding balance at any time (with appropriate adjustment to the remaining payment schedule as determined by the Administrator, in its sole discretion, on a uniform and nondiscriminatory basis). The repayment schedule shall provide for substantially level amortization of the loan. Loan repayments will be suspended under this Plan as permitted under section 414(u) of the Code.

9.6 Limit on Number of Loans. Except as otherwise provided herein, no more than two (2) loans may be outstanding at any time. If a Participant has more than two (2) loans outstanding on January 1, 1999, or thereafter on account of a transfer of assets from another plan in accordance with section 4.5, the Participant may not obtain a new loan until he or she has less than two (2) loans outstanding. The Administrator may, notwithstanding the foregoing
provisions, alter the requirements of this Section 9.6, or Sections 9.2 or 9.5.

9.7 Interest Rate. The interest rate for a loan pursuant to this ARTICLE will be equal to the prime rate published in The Wall Street Journal on the first business day in each calendar quarter and such rate will apply to loans which are made at any time during each respective calendar quarter.

9.8 Effect Upon Participant's Account. Upon the granting of a loan to a Participant by the Administrator, the allocations in the Participant's Account to the respective investment funds will be reduced on a pro rata basis and replaced by the loan balance which will be designated as an asset in the Account. Such reduction shall be effected by reducing the Participant's Account in the following sequence, with no reduction of the succeeding Accounts until prior Accounts have been exhausted by the loan: Matching Contribution Account; Elective Deferral Account; ESOP Contribution Account, Rollover Contribution Account; and Employee After-Tax Contribution Account. Upon repayment of the principal and interest, the loan balance will be reduced, the Participant Accounts will be increased in the reverse order in which they were exhausted by the loan, and the loan payments will be allocated to the respective investment funds in accordance with the investment election then in effect.

9.9 Effect of Severance From Service and Nonpayment. In the event that a loan remains outstanding upon the Severance from Service of a Participant, the Participant will be given the option of continuing to repay the outstanding loan. In any case where payments on the outstanding loan are not made within ninety (90) days of the Participant's Severance from Service Date, the amount of any unpaid principal will be deducted from the Participant's account and reported as a distribution. If, as a result of layoff or Authorized Leave of Absence, a Participant, although still in a Period of Service, is not being compensated through the Employer's payroll system, loan payments will be suspended until the earliest of the first pay date after the Participant returns to active employment with the Employer, the Participant's Severance from Service Date, or the expiration of twelve (12) months from the date of the suspension. In the event the Participant does not return to active employment with the Employer, the Participant will be given the option of continuing to repay the outstanding loan. If the Participant fails to resume payments on the loan, the outstanding loan will be reported as a taxable distribution. In no event, however, shall the loan be deducted from the Participant's Account earlier than the date on which the Participant (i) incurs a Severance from Service, or (ii) attains age fifty-nine and one-half (59 1/2).

ARTICLE X

Contribution and Benefit Limitations

10.1 Contribution Limits.

(a) The Annual Additions that may be allocated to a Participant's Account for any Limitation Year shall not exceed the lesser of:

(1) thirty thousand dollars ($30,000); or

(2) twenty-five percent (25%) of the Participant's Compensation for that Limitation Year.

(b) If the Employer maintains any other Defined Contribution Plans then the limitations in subsection (a) shall be computed with reference to the aggregate Annual Additions for each Participant from all such Defined
Contribution Plans.

(c) If the Annual Additions for a Participant would exceed the limits specified in this section, then the Annual Additions under this Plan for that Participant shall be reduced to the extent necessary to prevent such limits from being exceeded. Such reduction shall be made in accordance with section 10.4.

10.2 Overall Limits.

(a) With respect to Limitation Years beginning before January 1, 2000, if a Participant is participating in both a Defined Contribution Plan and a Defined Benefit Plan of the Employer, then the sum of the Defined Contribution Fraction and the Defined Benefit Fraction for any Limitation Year shall not exceed 1.0.

(b) If the sum of the Defined Contribution Fraction and the Defined Benefit Fraction would exceed 1.0, then the annual benefits under the Defined Benefit Plan shall be reduced to the extent necessary so that the sum of such fractions does not exceed 1.0.

10.3 Annual Adjustments to Limits. The dollar limits for Annual Additions and the dollar limits in the Defined Benefit Fraction and Defined Contribution Fraction shall be adjusted for cost-of-living to the extent permitted under section 415 of the Code.

10.4 Excess Amounts.

(a) The foregoing limits shall be limits on the allocation that may be made to a Participant's Account in any Limitation Year. If an excess Annual Addition would otherwise result from allocation of forfeitures, reasonable errors in determining Compensation or other comparable reasons, then the Administrator may take any (or all) of the following steps to prevent the excess Annual Additions from being allocated:

(1) return any contributions from the Participant, as long as such return is nondiscriminatory;

(2) hold the excess amounts unallocated in a suspense account and apply the balance of the suspense account against Matching or ESOP Contributions for that Participant made in succeeding years;

(3) hold the excess amounts unallocated in a suspense account and apply the balance of the suspense account against succeeding year Matching or ESOP Contributions;

(4) reallocate the excess amounts to other Participants.

(b) Any suspense account established under this section shall not be credited with income or loss unless otherwise directed by the Administrator. If a suspense account under this section is to be applied in a subsequent Limitation Year, then the amounts in the suspense account shall be applied before any Annual Additions (other than forfeitures) are made for such Limitation Year.

10.5 Definitions.

(a) The following terms shall have the meanings specified:
(1) Annual Addition. The sum for any Limitation Year of additions (not including Rollover Contributions) to a Participant's Account as a result of:

(A) Employer contributions (including Matching Contributions, ESOP Contributions, Qualified Nonelective Contributions and Elective Deferrals);

(B) Employee contributions;

(C) forfeitures; and

(D) amounts described in Code sections 415(l)(1) and 419A(d)(2).

(2)(A) Defined Benefit Fraction. A fraction, the numerator of which is the Projected Annual Benefit of the Participant under all Defined Benefit Plans of the Employer (determined as of the close of the Limitation Year) and the denominator of which is the Projected Annual Benefit the Participant would have under such plans (determined as of the close of the Limitation Year) if such plans provided an annual benefit equal to the lesser of:

(i) the product of 1.25 multiplied by ninety thousand dollars ($90,000); or

(ii) the product of 1.4 multiplied by one hundred percent (100%) of the Participant's average Compensation for the Participant's three (3) consecutive Years of Service that produce the highest average Compensation.

(B) For purposes of determining the Defined Benefit Fraction of a Participant (i) who was employed by an Adopting Employer on December 18, 1997 and immediately prior thereto was employed by General Motors Corporation or one of its affiliates or (ii) who transferred to an Adopting Company from General Motors Corporation or one of its affiliates after such date and before December 1, 1998, service for and Compensation received from General Motors Corporation and its affiliates, if any, shall be taken into account, and the Projected Annual Benefit under any Defined Benefit Plan of the Employer shall not be reduced as a result of the transfer of any assets or liabilities from a Defined Benefit Plan maintained by General Motors Corporation and its affiliates.

(3) Defined Benefit Plan. Any plan qualified under section 401(a) of the Code that is not a Defined Contribution Plan.

(4)(A) Defined Contribution Fraction. A fraction, the numerator of which is the sum of the Annual Additions to the Participant's Accounts as of the close of the Limitation Year, and the denominator of which is equal to the sum of the lesser of the following amounts determined for such Limitation Year and for each prior year of service with the Employer:

(i) the product of 1.25 multiplied by thirty thousand dollars ($30,000); or

(ii) the product of 1.4 multiplied by twenty-five percent (25%) of the Participant's Compensation.

(B) For purposes of determining the Defined Contribution Fraction of a Participant, services performed for, Compensation paid by and Annual Additions made by General Motors Corporation or any of its affiliates shall not be taken into account.

(5) Defined Contribution Plan. A plan qualified under section 401(a) of the
Code that provides an individual account for each Participant and benefits based solely on the amount contributed to the Participant's Account, plus any income, expenses, gains and losses, and forfeitures of other Participants which may be allocated to such Participant's account.

(6) Limitation Year. The Plan Year, until the Employer adopts a different Limitation Year.

(7) Projected Annual Benefit. The annual benefit to which a Participant would be entitled, assuming:

(A) the Participant continues in employment until Normal Retirement Age under the Plan;

(B) the Participant's Compensation for the Limitation Year remains the same until such Normal Retirement Age; and

(C) all other relevant factors under the Plan for the Limitation Year will remain constant.

ARTICLE XI

Top-Heavy Rules

11.1 General. This ARTICLE shall only be applicable if the Plan becomes a Top-Heavy Plan under section 416 of the Code. If the Plan does not become a Top-Heavy Plan, then none of the provisions of this ARTICLE shall be operative. The provisions of this ARTICLE shall be interpreted and applied in a manner consistent with the requirements of section 416 of the Code and the regulations thereunder.

11.2 Vesting.

(a) If the Plan becomes a Top-Heavy Plan, then amounts in a Participant's Account attributable to Matching and ESOP Contributions shall be vested in accordance with this section, in lieu of ARTICLE VI, to the extent this section produces a greater degree of vesting. This section shall only apply to Participants who have at least an Hour of Service after the Plan becomes a Top-Heavy Plan.

(b) If applicable, amounts in a Participant's Account attributable to Matching and ESOP Contributions shall vest as follows:

<table>
<thead>
<tr>
<th>Years of Top Heavy Service</th>
<th>Vested Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fewer than 3</td>
<td>0%</td>
</tr>
<tr>
<td>3 or more</td>
<td>100%</td>
</tr>
</tbody>
</table>

(c) If the Plan ceases to be a Top-Heavy Plan then subsection (b) shall no longer be applicable; provided, however, that in no event shall the vested percentage of any Participant be reduced by reason of the Plan ceasing to be a Top-Heavy Plan. Subsection (b) shall nevertheless continue to apply for any Participant who was previously covered by it and who has at least three (3) Years of Top-Heavy Service.

11.3 Minimum Contribution.
(a) For each Plan Year that the Plan is a Top-Heavy Plan, the Adopting Employers shall make a contribution to be allocated directly to the Account of each Non-Key Employee.

(b) The amount of the contribution (and forfeitures) required to be contributed and allocated for a Plan Year by this section is three percent (3%) of the Top-Heavy Compensation for that Plan Year of each Non-Key Employee who is both a Participant and an Employee on the last day of the Plan Year for which the contribution is made, with adjustments as provided herein. If the contributions (other than Rollover Contributions) allocated to the Accounts of each Key Employee for a Plan Year are less than three percent (3%) of his or her Top-Heavy Compensation, then the contribution required by the preceding sentence shall be reduced for that Plan Year to the same percentage of Top-Heavy Compensation that was allocated to the Account of the Key Employee whose Account received the greatest allocation of contributions (other than Rollover Contributions) for that Plan Year, when computed as a percentage of Top-Heavy Compensation.

(c) The contribution required by this section shall be reduced for a Plan Year to the extent of any contributions made and allocated under this Plan (as permitted under section 416 of the Code and the regulations thereunder). In addition, to the extent a Participant participates in any other plans of the Employer for a Plan Year, the contribution required by this section shall be reduced by any contributions allocated or benefits accrued under any such plans. Elective Deferrals shall be treated as if they were contributions for purposes of determining any minimum contributions required under subsection (b).

11.4 Definitions.

(a) The following terms shall have the meanings specified herein:

(1) Aggregated Plans.

(A) The Plan, any plan that is part of a "required aggregation group" and any plan that is part of a "permissive aggregation group" that the Adopting Employers treat as an Aggregated Plan.

(B) The "required aggregation group" consists of each plan of the Adopting Employers in which a Key Employee participates (in the Plan Year containing the Determination Date or any of the four (4) preceding Plan Years) and each other plan of the Adopting Employers which enables any plan of the Adopting Employers in which a Key Employee participates to meet the requirements of section 401(a)(4) or section 410(b) of the Code. Also included in the required aggregation group shall be any terminated plan that covered a Key Employee and was maintained within the five (5) year period ending on the Determination Date.

(C) The "permissive aggregation group" consists of any plan not included in the "required aggregation group" if the Aggregated Plan described in subparagraph (A) above would continue to meet the requirements of section 401(a)(4) and 410 of the Code with such additional plan being taken into account.

(2) Determination Date. The last day of the preceding Plan Year, or, in the case of the first plan year of any plan, the last day of such plan year. The computations made on the Determination Date shall utilize information from the immediately preceding Valuation Date.
(3) Key Employee.

(A) An Employee (or former Employee) who, at any time during the Plan Year containing the Determination Date or any of the four (4) preceding Plan Years, is:

(i) An officer of one of the Adopting Employers with annual Top-Heavy Compensation for the Plan Year greater than fifty percent (50%) of the amount in effect under section 415(b)(1)(A) of the Code for the calendar year in which that Plan Year ends;

(ii) one of the ten (10) Employees owning (or considered as owning under section 318 of the Code) the largest interest in one of the Adopting Employers, who has more than one-half of one percent (.5%) interest in such Adopting Employer, and who has annual Top-Heavy Compensation for the Plan Year at least equal to the maximum dollar limitation under section 415(c)(1)(A) of the Code for the calendar year in which that Plan Year ends;

(iii) a five percent (5%) or greater shareholder in one of the Adopting Employers; or

(iv) a one percent (1%) shareholder in one of the Adopting Employers with annual Top-Heavy Compensation from the Adopting Employer of more than one hundred fifty thousand dollars ($150,000).

(B) For purposes of paragraphs (3)(A)(iii) and (3)(A)(iv), the rules of section 414(b), (c) and (m) of the Code shall not apply. Beneficiaries of an Employee shall acquire the character of such Employee and inherited benefits will retain the character of the benefits of the Employee who performed services.

(4) Non-Key Employee. Any Employee who is not a Key Employee.

(5) Super Top-Heavy Plan. A Top-Heavy Plan in which the sum of the present value of the cumulative accrued benefits and accounts for Key Employees exceeds ninety percent (90%) of the comparable sum determined for all Employees. The foregoing determination shall be made in the same manner as the determination of a Top-Heavy Plan under this section.

(6) Top-Heavy Compensation. The term Top-Heavy Compensation shall have the same meaning as the term Compensation has under section 2.13.

(7) Top-Heavy Plan. The Plan is a Top-Heavy Plan for a Plan Year if, as of the Determination Date for that Plan Year, the sum of (i) the present value of the cumulative accrued benefits for Key Employees under all Defined Benefit Plans that are Aggregated Plans and (ii) the aggregate of the accounts of Key Employees under all Defined Contribution Plans that are Aggregated Plans exceeds sixty percent (60%) of the comparable sum determined for all Employees. For purposes of determining whether the Plan is top-heavy, a Participant's accrued benefit in a defined benefit plan will be determined under a uniform accrual method which applies in all defined benefit plans maintained by the Employer or, where there is no such method, as if such benefit accrued not more rapidly than the slowest rate of accrual permitted under the fractional rule of section 411(b)(1)(C) of the Code.

(8) Years of Top-Heavy Service. The Period of Service with the Adopting Employers that might be counted under section 411(a) of the Code, disregarding
all service that may be disregarded under section 411(a)(4) of the Code.

(b) The definitions in this section and the provisions of this ARTICLE shall be interpreted in a manner consistent with section 416 of the Code.

11.5 Special Rules.

(a) For purposes of determining the present value of the cumulative accrued benefit for any Participant or the amount of the Account of any Participant, such present value or amount shall be increased by the aggregate distributions made with respect to such Participant under the Plan during the Plan Year that includes the Determination Date and the four (4) preceding Plan Years (if such amounts would otherwise have been omitted).

(b) (1) In the case of unrelated rollovers and transfers, (i) the plan making the distribution or transfer is to count the distribution as a distribution under section 416(g)(3) of the Code, and (ii) the plan accepting the rollover or transfer is not to consider the rollover or transfer as part of the accrued benefit if such rollover or transfer was accepted after December 31, 1983, but is to consider it as part of the accrued benefit if such rollover or transfer was accepted before January 1, 1984. For this purpose, rollovers and transfers are to be considered unrelated if they are both initiated by the Employee and made from a plan maintained by one employer to a plan maintained by another employer.

(2) In the case of related rollovers and transfers, the plan making the distribution or transfer is not to count the distribution or transfer under section 416(g)(3) of the Code, and the plan accepting the rollover or transfer counts the rollover or transfer in the present value of the accrued benefits. For this purpose, rollovers and transfers are to be considered related if they are not unrelated under subsection (b)(1).

(c) If any individual is a Non-Key Employee with respect to any plan for any Plan Year, but such individual was a Key Employee with respect to such plan for any prior Plan Year, any accrued benefit for such Employee (and the account of such Employee) shall not be taken into account.

(d) Beneficiaries of Key Employees and former Key Employees are considered to be Key Employees and Beneficiaries of Non-Key Employees and former Non-Key Employees are considered to be Non-Key Employees.

(e) The accrued benefit of an Employee who has not performed any service for the Adopting Employer maintaining the Plan at any time during the five (5) year period ending on the Determination Date is excluded from the calculation to determine top-heaviness. However, if an Employee performs no services, such Employee's total accrued benefit is included in the calculation for top-heaviness.

11.6 Adjustment of Limitations.

(a) If this section is applicable, then the contribution and benefit limitations in section 10.5 shall be reduced. Such reduction shall be made by modifying section 10.5(a)(2)(A) of the definition of Defined Benefit Fraction to instead be "(i) the product of 1.0 multiplied by ninety thousand dollars ($90,000), or" and by modifying section 10.5(a)(4)(A) of the definition of Defined Contribution Fraction to instead be "(i) the product of 1.0 multiplied by thirty thousand dollars ($30,000), or".
(b) This section shall be applicable for any Plan Year in which either:

(1) the Plan is a Super Top-Heavy Plan, or

(2) the Plan both is a Top-Heavy Plan (but not a Super Top-Heavy Plan) and provides contributions (other than Rollover Contributions and forfeitures to the Account of any Non-Key Employee in an amount less than four percent (4%) of such Participant's Top-Heavy Compensation, as determined in accordance with section 11.3(b).

ARTICLE XII

The Trust Fund

12.1 Trust. During the period in which this Plan remains in existence, the Company or any successor thereto shall maintain in effect a Trust with a corporation and/or an individual(s) as Trustee, to hold, invest, and distribute the Trust Fund in accordance with the terms of such Trust.

12.2 Investment of Accounts. The Trustee shall invest and reinvest the Participant's accounts in the investment options available under the Plan in accordance with ARTICLE V, as directed by the Administrator or its delegate. The Administrator shall issue such directions in accordance with the investment options selected by the Participants which shall remain in force until altered in accordance with Article V.

12.3 Expenses. Expenses of the Plan and Trust shall be paid from the Trust.

12.4 Acquisition Loans. With respect to the ESOP Portion of the Plan, the Administrator may direct the Trustee to incur Acquisition Loans from time to time to finance the acquisition of Common Stock or to repay a prior Acquisition Loan. An Acquisition Loan shall be for a specific term, shall bear a reasonable rate of interest, and shall not be payable on demand except in the event of default. Acquisition loans may be secured by the pledge of the Financed Shares so acquired (or acquired with the proceeds of a prior Acquisition Loan which is being refinanced). No other Trust assets may be pledged as collateral for an Acquisition Loan, and no lender shall have recourse against Trust assets other than any Financed Shares remaining subject to pledge. If the lender is a party in interest (as defined in ERISA), the Acquisition Loan must provide for a transfer of Trust assets on default only upon and to the extent of the failure of the Trust to meet the payment schedule of the Acquisition Loan. Any pledge of Financed Shares must provide for the release of the shares so pledged as payments on the Acquisition Loan are made by the Trustee, and such Financed Shares are allocated to Participants' ESOP Contribution Accounts under Article IV. Payments of principal and/or interest on an Acquisition Loan shall be made by the Trustee (as directed by the Administrator) only from Employer contributions paid in cash to enable the Trust to repay such Acquisition Loan, from earnings attributable to such Employer contributions, and from any cash dividends received by the Trust on such Financed Shares. Except as required by section 409(h) of the Code and by Treasury Regulations sections 54.4975(b)(9), (10), or as otherwise required by applicable law, no Financed Shares may be subject to a put, call or other option, or a buy-sell or similar arrangement while held by, or distributed from, the Plan, whether or not the ESOP Portion of the Plan is an employee stock ownership plan, within the meaning of section 4975(e)(7) of the Code at the time.
12.5 Sale of Common Stock. With respect to the ESOP Portion of the Plan, subject to the approval of the Senior Vice President of Human Resources of the Company or other officer authorized by the Board of Directors to give such approval, the Administrator may direct the Trustee to sell shares of Common Stock to any person, including the Company and any Affiliates, provided such sale must be made at a price not less favorable to the Plan than fair market value. In the event that the Trustee is unable to make payments of principal and/or interest on an Acquisition Loan when due, the Administrator may direct the Trustee to sell any Financed Shares that have not yet been allocated to Participants' ESOP Contribution Accounts or to obtain an Acquisition Loan in an amount sufficient to make such payments.

ARTICLE XIII

Administration of The Plan

13.1 General Administration. The general administration of the Plan shall be the responsibility of the Company (or any successor thereto) which shall be the Administrator and named Fiduciary for purposes of ERISA. The Company shall have the authority, in its sole discretion, to construe the terms of the Plan and to make determinations as to eligibility for benefits and as to other issues within the "Responsibilities of the Administrator" described in this ARTICLE. All such determinations of the Company shall be conclusive and binding on all persons.

13.2 Responsibilities of the Administrator. Except as otherwise provided in ERISA, the Administrator (and any other named Fiduciaries) may allocate any duties and responsibilities under the Plan and Trust among themselves in any mutually agreed upon manner. Such allocation shall be in a written document signed by the Administrator (and any other named Fiduciaries) and shall specifically set forth this allocation of duties and responsibilities, which may include the following:

(a) Determination of all questions which may arise under the Plan with respect to questions of fact and law, including without limitation eligibility for participation, administration of Accounts, membership, vesting, loans, withdrawals, accounting, status of Accounts, stock ownership and voting rights, and any other issue requiring interpretation or application of the Plan.

(b) Establishment of procedures required by the Plan, such as notification to Employees as to joining the Plan, selecting and changing investment options, suspending deferrals, exercising voting rights in stock, withdrawing and borrowing Account balances, designation of Beneficiaries, election of method of distribution, and any other matters requiring a uniform procedure.

(c) Submission of necessary amendments to supplement omissions from the Plan or reconcile any inconsistency therein.

(d) Filing appropriate reports with the government as required by law.

(e) Appointment of a Trustee or Trustees, Recordkeepers, and investment managers.

(f) Review at appropriate intervals of the performance of the Trustee and such investment managers as may have been designated.

(g) Appointment of such additional Fiduciaries as deemed necessary for the
effective administration of the Plan, such appointments to be by written instrument.

13.3 Liability for Acts of Other Fiduciaries. Each Fiduciary shall be responsible only for the duties allocated or delegated to said Fiduciary, and other Fiduciaries shall not be liable for any breach of fiduciary responsibility with respect to any act or omission of any other Fiduciary unless:

(a) The Fiduciary knowingly participates in or knowingly attempts to conceal the act or omission of such other Fiduciary and knows that such act or omission constitutes a breach of fiduciary responsibility by the other Fiduciary;

(b) The Fiduciary has knowledge of a breach of fiduciary responsibility by the other Fiduciary and has not made reasonable efforts under the circumstances to remedy the breach; or

(c) The Fiduciary's own breach of his or her specific fiduciary responsibilities has enabled another Fiduciary to commit a breach. No Fiduciary shall be liable for any acts or omissions which occur prior to his or her assumption of Fiduciary status or after his or her termination from such status.

13.4 Employment by Fiduciaries. Any Fiduciary hereunder may employ, with the written approval of the Administrator, one or more persons to render service with regard to any responsibility which has been assigned to such Fiduciary under the terms of the Plan including legal, tax, or investment counsel and may delegate to one or more persons any administrative duties (clerical or otherwise) hereunder.

13.5 Recordkeeping. The Administrator shall keep or cause to be kept any necessary data required for determining the Account status of each Participant. In compiling such information, the Administrator may rely upon its employment records, including representations made by the Participant in the employment application and subsequent documents submitted by the Participant to the Employer. The Trustee shall be entitled to rely upon such information when furnished by the Administrator or its delegate. Each Employee shall be required to furnish the Administrator upon request and in such form as prescribed by the Administrator, such personal information, affidavits and authorizations to obtain information as the Administrator may deem appropriate for the proper administration of the Plan, including but not limited to proof of the Employee's date of birth and the date of birth of any person designated by a Participant as a Beneficiary.

13.6 Claims Review Procedure.

(a) Except as otherwise provided in this section 13.6, the Administrator shall make all determinations as to the right of any person to Accounts under the Plan. Any such determination shall be made pursuant to the following procedures, which shall be conducted in a manner designed to comply with section 503 of ERISA:

(1) Step 1. Claims with respect to an Account should be filed by a claimant as soon as practicable after the claimant knows or should know that a dispute has arisen with respect to an Account, but at least thirty (30) days prior to the claimant's actual retirement date or, if applicable, within sixty (60) days after the death, Disability or Severance from Service of the Participant whose Account is at issue, by mailing a copy of the claim to the Benefits and Services Department, Raytheon Company, 141 Spring Street, Lexington, Massachusetts 02173.
(2) Step 2. In the event that a claim with respect to an Account is wholly or partially denied by the Administrator, the Administrator shall, within ninety (90) days following receipt of the claim, so advise the claimant in writing setting forth: the specific reason or reasons for the denial; specific reference to pertinent Plan provisions on which the denial is based; a description of any additional material or information necessary for the claimant to perfect the claim; an explanation as to why such material or information is necessary; and an explanation of the Plan's claim review procedure.

(3) Step 3. Within sixty (60) days following receipt of the denial of a claim with respect to an Account, a claimant desiring to have the denial appealed shall file a request for review by an officer of the Company or a benefit appeals committee, as designated by the Administrator, by mailing a copy thereof to the address shown in subsection (a)(1); provided, however, that such officer or any member of such benefit appeals committee, as applicable, may not be the person who made the initial adverse benefits determination nor a subordinate of such person.

(4) Step 4. Within thirty (30) days following receipt of a request for review, the designated officer or benefit appeals committee shall provide the claimant a further opportunity to present his or her position. At the designated officer or benefit appeals committee's discretion, such presentation may be through an oral or written presentation. Prior to such presentation, the claimant shall be permitted the opportunity to review pertinent documents and to submit issues and comments in writing. Within a reasonable time following presentation of the claimant's position, which usually should not exceed thirty (30) days, the designated officer or benefit appeals committee shall inform the claimant in writing of the decision on review setting forth the reasons for such decision and citing pertinent provisions in the Plan.

(b) Except as otherwise provided in subsection (a), the Administrator is the Fiduciary to whom the Plan grants full discretion, with the advice of counsel, to interpret the Plan; to determine whether a claimant is eligible for benefits; to decide the amount, form and timing of benefits; and to resolve any other matter under the Plan which is raised by a claimant or identified by the Administrator. All questions arising from or in connection with the provisions of the Plan and its administration, not herein provided to be determined by the Board of Directors, shall be determined by the Administrator, and any determination so made shall be conclusive and binding upon all persons affected thereby.

13.7 Indemnification of Directors and Employees. The Adopting Employers shall indemnify any Fiduciary who is a director, officer or Employee of the Employer, his or her heirs and legal representatives, against all liability and reasonable expense, including counsel fees, amounts paid in settlement and amounts of judgments, fines or penalties, incurred or imposed upon him in connection with any claim, action, suit or proceeding, whether civil, criminal, administrative or investigative, by reason of acts or omissions in his or her capacity as a Fiduciary hereunder, provided that such act or omission is not the result of gross negligence or willful misconduct. The Adopting Employers may indemnify other Fiduciaries, their heirs and legal representatives, under the circumstances, and subject to the limitations set forth in the preceding sentence, if such indemnification is determined by the Board of Directors to be in the best interests of the Adopting Employers.

13.8 Immunity from Liability. Except to the extent that section 410(a) of ERISA prohibits the granting of immunity to Fiduciaries from liability for
any responsibility, obligation, or duty imposed under Title I, Subtitle B, Part 4, of said Act, an officer, Employee, member of the Board of Directors of the Employer or other person assigned responsibility under this Plan shall be immune from any liability for any action or failure to act except such action or failure to act which results from said officer's, Employee's, Participant's or other person's own gross negligence or willful misconduct.

ARTICLE XIV

Amendment Or Termination Of Plan

14.1 Right to Amend or Terminate Plan. The Company reserves the right at any time or times, by action of the Board of Directors, to modify, amend or terminate the Plan in whole or in part, in which event a certified copy of the resolution of the Board of Directors, authorizing such modification, amendment or termination shall be delivered to the Trustee and to the other Adopting Employers whose Employees are covered by this Plan, provided, however, that no amendment to the Plan shall be made which shall:

(a) reduce any vested right or interest to which any Participant or Beneficiary is then entitled under this Plan or otherwise reduce the vested rights of a Participant in violation of section 411(d)(6) of the Code;

(b) vest in the Adopting Employers any interest or control over any assets of the Trust;

(c) cause any assets of the Trust to be used for, or diverted to, purposes other than for the exclusive benefit of Participants and their Beneficiaries; or

(d) change any of the rights, duties or powers of the Trustee without its written consent.

(e) Notwithstanding the foregoing provisions of this section or any other provisions of this Plan, any modification or amendment of the Plan may be made retroactively if necessary or appropriate to conform the Plan with, or to satisfy the conditions of, ERISA, the Code, or any other law, governmental regulation or ruling. In the alternative, subject to the conditions prescribed in subsections (a) through (e), the Plan may be amended by an officer of the Company authorized by the Board of Directors to amend the Plan, provided, however, that any such amendment does not, in the view of such officer, materially increase costs of the Plan to the Company or any Adopting Employer.

14.2 Amendment to Vesting Schedule. Any amendment that modifies the vesting provisions of ARTICLE VI shall either:

(a) provide for a rate of vesting that is at least as rapid for any Participant as the vesting schedule previously in effect; or

(b) provide that any adversely affected Participant with a Period of Service of at least three (3) years may elect, in writing, to remain under the vesting schedule in effect prior to the amendment. Such election must be made within sixty (60) days after the later of the:

(1) adoption of the amendment;

(2) effective date of the amendment; or
14.3 Maintenance of Plan. The Adopting Employers have established the Plan with the bona fide intention and expectation that they will be able to make contributions indefinitely, but the Adopting Employers are not and shall not be under any obligation or liability whatsoever to continue contributions or to maintain the Plan for any given length of time.

14.4 Termination of Plan and Trust. The Plan and Trust hereby created shall terminate upon the occurrence of any of the following events:

(a) Delivery to the Trustee of a notice of termination executed by the Company specifying the date as of which the Plan and Trust shall terminate; or

(b) Adjudication of the Company as bankrupt or general assignment by the Company to or for the benefit of creditors or dissolution of the Company.

Upon termination of this Plan, or permanent discontinuance of contributions hereunder, with or without written notification, the rights of each Participant to the amounts credited to that Participant's Account at such time shall be fully vested and nonforfeitable. In the event a partial termination of the Plan is deemed to have occurred, each Participant affected shall be fully vested in and shall have a nonforfeitable right to the amounts credited to that Participant's Account with respect to which the partial termination occurred.

14.5 Distribution on Termination.

(a)(1) If the Plan is terminated, or contributions permanently discontinued, an Adopting Employer, at its discretion, may (at that time or at any later time) direct the Trustee to distribute the amounts in a Participant's Account in accordance with the distribution provisions of the Plan. Such distribution shall, notwithstanding any prior provisions of the Plan, be made in a single lump-sum without the Participant's consent as to the timing of such distribution. If, however, an Adopting Employer (or an Affiliate) maintains another defined contribution plan (other than an employee stock ownership plan), then the preceding sentence shall not apply and the Adopting Employer, at its discretion, may direct such distributions to be made as a direct transfer to such other plan without the Participant's consent, if the Participant does not consent to an immediate distribution.

(2) If an Adopting Employer does not direct distribution under paragraph (1), each Participant's Account shall be maintained until distributed in accordance with the provisions of the Plan (determined without regard to this section) as though the Plan had not been terminated or contributions discontinued.

(b) If the Administrator determines that it is administratively impracticable to make distributions under this section in cash or that it would be in the Participant's best interest to make some or all of the distributions with in-kind property, it shall offer all Participants and Beneficiaries entitled to a distribution under this section a reasonable opportunity to elect to receive a distribution of the in-kind property being distributed by the Trust. Those Participants and Beneficiaries so electing shall receive a proportionate share of such in-kind property in the form (outright, in trust or in partnership) that the Administrator determines will provide the most feasible method of distribution.

(c)(1) Amounts attributable to elective contributions shall only be
distributable by reason of this section if one of the following is applicable:

(A) the Plan is terminated without the establishment or maintenance of another defined contribution plan (other than an employee stock ownership plan);

(B) an Adopting Employer has a sale or other disposition to an unrelated corporation of substantially all of the assets used by the Adopting Employer in a trade or business of the Adopting Employer with respect to an Employee who continues employment with the corporation acquiring such assets; or

(C) an Adopting Employer has a sale or other disposition to an unrelated entity of the Adopting Employer's interest in a subsidiary with respect to an Employee who continues employment with such subsidiary.

(2) For purposes of this subsection, the term "elective contributions" means employer contributions made to the Plan that were subject to a cash or deferred election under a cash or deferred arrangement.

(3) Elective contributions are distributable under subsections (c)(1)(B) and (C) above only if the Adopting Employers continue to maintain the Plan after the disposition.

ARTICLE XV
Additional Provisions

15.1 Effect of Merger, Consolidation or Transfer. In the event of any merger or consolidation with or transfer of assets or liabilities to any other plan or to this Plan, each Participant of the Plan shall be entitled to a benefit immediately after the merger, consolidation or transfer, which is equal to or greater than the benefit he or she would have been entitled to receive immediately before the merger, consolidation or transfer (if the Plan had been terminated).

15.2 No Assignment.

(a) Except as provided herein, the right of any Participant or Beneficiary to any benefit or to any payment hereunder shall not be subject to alienation, assignment, garnishment, attachment, execution or levy of any kind.

(b) Subsection (a) shall not apply to any payment or transfer permitted by the Internal Revenue Service pursuant to regulations issued under section 401(a)(13) of the Code.

(c) Subsection (a) shall not apply to any payment or transfer pursuant to a Qualified Domestic Relations Order.

(d) Subsection (a) shall not apply to any payment or transfer to the Trust in accordance with section 401(a)(13)(C) of the Code to satisfy the Participant's liabilities to the Plan or Trust in any one or more of the following circumstances:

(1) the Participant is convicted of a crime involving the Plan;

(2) a civil judgment (or consent order or decree) in an action is brought against the Participant in connection with an ERISA fiduciary violation; or

(3) the Participant enters into a settlement agreement with the Department of
Labor or the Pension Benefit Guaranty Corporation over an ERISA fiduciary violation.

15.3 Limitation of Rights of Employees. This Plan is strictly a voluntary undertaking on the part of the Adopting Employers and shall not be deemed to constitute a contract between any of the Adopting Employers and any Employee, or to be a consideration for, or an inducement to, or a condition of the employment of any Employee. Nothing contained in the Plan shall be deemed to give any Employee the right to be retained in the service of any of the Adopting Employers or shall interfere with the right of any of the Adopting Employers to discharge or otherwise terminate the employment of any Employee of an Adopting Employer at any time. No Employee shall be entitled to any right or claim hereunder except to the extent such right is specifically fixed under the terms of the Plan.

15.4 Construction. The provisions of this Plan shall be interpreted and construed in accordance with the requirements of the Code and ERISA. Any amendment or restatement of the Plan or Trust that would otherwise violate the requirements of section 411(d)(6) of the Code or otherwise cause the Plan or Trust to cease to be qualified under section 401(a) of the Code shall be deemed to be invalid. Capitalized terms shall have meanings as defined herein. Singular nouns shall be read as plural, masculine pronouns shall be read as feminine and vice versa, as appropriate. References to "section" or "ARTICLE" shall be read as references to appropriate provisions of this Plan, unless otherwise indicated.

15.5 Company Determinations. Any determinations, actions or decisions of the Company (including but not limited to, Plan amendments and Plan termination) shall be made by its Board of Directors in accordance with its established procedures or by such other individuals, groups or organizations that have been properly delegated by the Board of Directors to make such determination or decision.

15.6 Continued Qualification. This Plan is amended and restated with the intent that it shall continue to qualify under sections 401(a), 401(k) and 4975(e)(7) of the Code as those sections exist at the time the Plan is amended and restated. If the Internal Revenue Service determines that the Plan does not meet those requirements as amended and restated, the Plan shall be amended retroactively as necessary to correct any such inadequacy. Section 7.2 shall not be effective until the date the Internal Revenue Service issues a favorable determination letter with respect to the Plan as amended and restated herein (including section 7.2). Until section 7.2 becomes effective in accordance with the immediately preceding sentence of this section 15.6, a Participant may withdraw all or a portion of his or her Employee After-Tax Contribution Account, subject to the condition that if a Participant has a Period of Participation of less than five (5) years such Participant may not make any Employee After-Tax Contributions under the Plan for at least six (6) months after receipt of the in-service withdrawal.

15.7 Governing Law. This Plan shall be governed by, construed and administered in accordance with ERISA and any other applicable federal law; provided, however, that to the extent not preempted by federal law, this Plan shall be governed by, construed and administered under the laws of the Commonwealth of Massachusetts, other than its laws respecting choice of law.

Exhibit B

Special Withdrawal and Distribution Provisions

This Exhibit B describes special withdrawal and distribution provisions that apply with respect to certain assets transferred directly from other retirement plans to the Plan in accordance with section 4.5 of the Plan. Except
as otherwise provided herein, the special withdrawal and distribution provisions apply only with respect to the assets, together with earnings thereon, transferred from the other plans (hereinafter referred to as the "Transferred Account Balances").

As of January 1, 1999, this Exhibit B includes special withdrawal and distribution provisions applicable to the Transferred Account Balances from the following retirement plans:

A. Hughes Section 401(k) Savings Plan
B. Hughes STX Corporation 401(k) Retirement Plan
C. The 401(k) Plan for Employees of MESC Electronic Systems, Inc.
D. The 401(k) Plan for Bargaining Unit Employees of MESC Electronic Systems, Inc.
E. E-Systems, Inc. Employee Savings Plan
F. Serv-Air, Inc. Savings and Retirement Plan
G. Savings and Investment Plan of Standard Missile Company, L.L.C.

A. This paragraph A describes special withdrawal and distribution provisions applicable to Participants with Transferred Account Balances from the Hughes Section 401(k) Savings Plan:

(1) Directed Transfer to Account Plan: Notwithstanding section 8.3 of the Plan, a Participant who meets all of the requirements listed below may elect in writing on a form provided by the Administrator for this purpose to have his Transferred Account Balance transferred to the Hughes Personal Retirement Account Plan ("Account Plan") and applied to the purchase of an immediate annuity, in accordance with the applicable annuity factors and other provisions of the Account Plan. The requirements that must be met are:

(a) the Participant has had a Severance from Service;

(b) the Participant, as of the Severance from Service Date, was a participant in the Account Plan;

(c) the Participant is entitled to an immediate distribution of his or her accrued benefits under the Account Plan in the form of an annuity or a lump sum;

(d) the Participant has irrevocably elected to receive his accrued benefit under the Account Plan in the form of an immediate annuity; and

(e) the Participant was not, immediately prior to such Severance from Service -
   (i) a union employee whose terms of employment were the subject of a collective bargaining agreement or the subject of negotiation by a labor union or other labor organization, or (ii) an employee of CAE Vanguard Inc. or CAE ScreenPlates, Inc. or any subsidiary thereof.

(2) Special Distribution Rules for March 31, 1990 Account Balances: This subsection applies to Participants who had an account in the Hughes Section 401(k) Savings Plan on March 31, 1990 (a "3/31/90 Member"). In addition, the
special distribution rules available to 3/31/90 Members apply solely with respect to the value of such account on the March 31, 1990 valuation date under the plan (the "3/31/90 Balance").

(a) Additional Methods of Distribution: Notwithstanding section 8.3 of the Plan, a 3/31/90 Member shall have the following additional forms of distribution elections available with respect to his 3/31/90 Balance:

(i) withdrawal in a single lump sum distribution of the amount credited to the Participant's 3/31/90 Balance attributable to voluntary after-tax contributions with or without the deferral of the receipt in a single lump sum distribution of the Participant's 3/31/90 Balance attributable to pre-tax contributions and rollover contributions to a date no later than the April first (1st) following the calendar year during which the Participant attains age seventy and one-half (70-1/2); or

(ii) purchase of an annuity contract from a life insurance company under tables based on unisex mortality assumptions with all or any portion of the Participant's 3/31/90 Balance and taking a single lump sum distribution with respect to any portion of such 3/31/90 Balance not applied to the purchase of the annuity.

(b) Special Informational Requirement: Information showing the Participant the financial effects of the various distribution options available with respect to the 3/31/90 Balance shall be provided to the Participant at least ninety (90) days prior to the date the Participant becomes eligible for a benefit under the Plan.

(c) Special Annuity Contract Requirements: The following rules shall apply with respect to any 3/31/90 Member who elects the annuity contract option:

(i) The annuity contract shall provide for periodic annuity payments for the life of the 3/31/90 Member and the continuation of fifty percent (50%) of the amount of the periodic annuity payments the 3/31/90 Member was receiving (or was entitled to receive at his date of death) to the 3/31/90 Member's spouse on the date the annuity payments to the 3/31/90 Member commenced (or, if earlier, on the date of the 3/31/90 Member's death). The 3/31/90 Member may revoke such election and elect any other form of benefit; provided, however, that the 3/31/90 Member may not re-elect the forms of distribution specified above for a reasonable period of time before the purchase of the annuity contract, as determined by the Administrator. Such annuity contract may not contain an "interest only option" form of distribution. The revocation of an election to have benefits paid in the form of an annuity must be made in the form and manner prescribed by the Administrator and after the Participant shall have been furnished with a written explanation of (A) the terms and conditions of the annuity benefit, (B) the Participant's right to revoke an election of an annuity benefit, (C) the general financial effect of such an election to revoke, (D) the requirement that the consent of the Participant's spouse, if any, is required to make a revocation and (E) the rights of the Participant's spouse, if any. A Participant's election to revoke the annuity benefit shall be effective only if it is accompanied by the written notarized consent of the Participant's spouse, if any, and shall specify the other form of benefit and identify the beneficiary, if any, and shall acknowledge the effect of the election.

(ii) The annuity contract must provide that benefits will commence no later than the April first (1st) following the calendar year during which the Participant attains age seventy and one-half (70-1/2) and, if the spouse of the 3/31/90 Member is not the Participant's Beneficiary, payments under any periodic payment
option offered under the annuity contract to such 3/31/90 Member and his
Beneficiary must be completed during a period not exceeding the life expectancy
of the 3/31/90 Member, or the joint life expectancy of such Participant and his
Beneficiary or, if the Beneficiary is not treated as a natural person, five (5)
years. The forms of distribution offered under the annuity contract must
otherwise satisfy the minimum distribution requirements under the Code.

(iii) An annuity contract that does not provide for immediate payment of
benefits must provide for all other forms of distribution then available to the
3/31/90 Member under the Plan at all times prior to the commencement of benefit
payments under such contract.

(iv) The annuity contract option shall be available to any 3/31/90 Member with
respect to any portion of his 3/31/90 Balance that he has elected to defer.

(v) Any 3/31/90 Member who elects the annuity contract option shall have the
annuity contract distributed to him in lieu of cash or other property for the
portion of his 3/31/90 Balance that was applied to the purchase of the annuity
contract.

The above-referenced qualified retirement plans shall cease to exist as separate plans after December 31, 1998.

(c) The Plan is intended to comply with all of the applicable requirements under sections 401(a), 401(k) and 4975(e)(7) of the Code and the terms of the Plan shall be interpreted consistent therewith.

1.2 Trust. The Trust shall be the sole source of benefits under the Plan and the Adopting Employers or any Affiliate shall not have any liability for the adequacy of the benefits provided under the Plan.

1.3 Effective Date.

(a) General Effective Date: The amended and restated Plan shall be effective as of January 1, 1999, or such other dates as may be specifically provided herein or as otherwise required by law for the Plan to satisfy the requirements of section 401(a) of the Code.

(b) Special Effective Dates: The following special effective dates apply with respect to the Plan, including the separate plans merged into the Plan effective January 1, 1999 and identified in section 1.1(b):

1. Section 3.6 shall be effective on and after December 12, 1994, in accordance with the requirements of section 414(u) of the Code.

2. For Plan Years beginning after December 31, 1997 and before January 1,
1999, the definition of compensation used to apply the limitations on contributions and benefits under section 415 of the Code shall include any elective deferral (as defined in section 402(g)(3)), and any amount which is contributed or deferred by the Employer at the election of a Participant and which is not includible in the gross income of the Participant by reason of section 125 or 457 of the Code.

(3) Section 2.31 shall be effective for Plan Years beginning after December 31, 1996.

(4) Section 8.2(f) shall be effective for Plan Years beginning after December 31, 1996.

(5) For Plan Years beginning after December 31, 1996, the family aggregation rules prescribed in sections 414(q) and 401(a)(17) of the Code shall no longer apply.

(6) Sections 8.2(b) and (c) shall apply with respect to distributions made on or after the first Pay Period commencing on or after September 25, 1998.

(7) Section 2.34 shall be effective for Plan Years beginning after December 31, 1996. (8) Sections 4.8 though 4.12 shall be effective for Plan Years beginning after December 31, 1996.

1.4 Adoption of Plan. With the prior approval of the Senior Vice President of Human Resources of the Company or other officer to whom authority to approve participation by an entity is delegated by the Board of Directors, the Plan and Trust may be adopted by any corporation or other entity (hereinafter referred to as an Adopting Employer). Such adoption shall be made by the Adopting Employer taking the actions designated by the Administrator as appropriate to the proper adoption and operation of the Plan and Trust. In the event of the adoption of the Plan and Trust by an Adopting Employer, the Plan and Trust shall be interpreted in a manner consistent with such adoption. The Adopting Employers shall be listed in Exhibit A attached to this Plan.

1.5 Withdrawal of Adopting Employer.

(a) An Adopting Employer's adoption of this Plan may be terminated, voluntarily or involuntarily, at any time, as provided in this section.

(b) An Adopting Employer shall withdraw from the Plan and Trust if the Plan and Trust, with respect to that Adopting Employer, fail to qualify under sections 401(a) and 501(a) of the Code (or, in the opinion of the Administrator, they may fail to so qualify) and the continued sponsorship of that Adopting Employer may jeopardize the status with respect to the Company or the remaining Adopting Employers, of the Plan and Trust under sections 401(a) and 501(a) of the Code. The Adopting Employer shall receive at least thirty (30) days prior written notice of a withdrawal under this subsection, unless a shorter period is agreed to.

(c) An Adopting Employer may voluntarily withdraw from the Plan and Trust for any reason. Such withdrawal requires at least thirty (30) days written notice to the Administrator and the Trustee, unless a shorter period is agreed to.

(d) Upon withdrawal, the Trustee shall segregate the assets attributable to Employees of the withdrawn Adopting Employer, the amount thereof to be determined by the Administrator and the Trustee. The segregated assets shall be held, paid to another trust, distributed or otherwise disposed of as is
appropriate under the circumstances; provided, however, that any transfer shall be for the exclusive benefit of Participants and their Beneficiaries. A withdrawal of an Adopting Employer from the Plan is not necessarily a termination under ARTICLE XIV. If the withdrawal is a termination, then the provisions of ARTICLE XIV shall also be applicable.

ARTICLE II

Definitions

The following terms have the meaning specified below unless the context indicates otherwise:

2.1 Account. The entire interest of a Participant in the Trust Fund. A Participant’s Account shall consist of the following subaccounts: an Elective Deferral Account and, where applicable, an Employee After-Tax Contribution Account, a Matching Contribution Account, an ESOP Contribution Account, an Employer Contribution Account, a Rollover Contribution Account and a Qualified Nonelective Contribution Account. The Administrator may set up such additional subaccounts as it deems necessary for the proper administration of the Plan.

2.2 Acquisition Loan. A loan or other extension of credit used by the Trustee to finance the acquisition of Common Stock with respect to the ESOP Portion of the Plan, which loan may constitute an extension of credit to the Trust from a party in interest (as defined in ERISA).

Acceptance of any such transfer shall not preclude the Administrator from refusing any such subsequent transfers.

(b) Any transfer of assets accepted under this subsection shall be separately accounted for at all times and shall remain subject to the provisions of the transferor plan (as it existed at the time of such transfer) to the extent required by section 411(d)(6) of the Code (including, but not limited to, any rights to qualified joint and survivor annuities and qualified preretirement survivor annuities) as if such provisions were part of the Plan.
