VALERO CASE SETTLEMENT - \$10,000

On August 21, 2002, Valero advised that three DAL batch reports submitted between August 17 and August 20, 2002, had incorrect aromatics values because of a laboratory software error. A settlement conference was held on February 4, 2003, and the case has since been settled in principle for \$10,000.
