AGREEMENT

I. PARTIES

This Agreement (Agreement) is entered into between the United States of America, acting through the United States Department of Justice on behalf of the Center for Medicare and Medicaid Services (CMS), (collectively "United States") and Highmark, Inc. ("Highmark") (hereafter referred to as "the Parties"), through their authorized representatives.

II. PREAMBLE

A. Whereas, Highmark is a Pennsylvania based not-for-profit corporation that is a licensed Blue Cross and Blue Shield Plan. Highmark was incorporated as a not-for-profit corporation in Pennsylvania in 1996 when it was formed through the consolidation of Blue Cross of Western Pennsylvania and Pennsylvania Blue Shield. Highmark underwrites various indemnity and managed care health insurance products. Highmark operates as Highmark Blue Cross Blue Shield in 29 counties in Western Pennsylvania and as Highmark Blue Shield in the remainder of the Commonwealth. In addition, two of Highmark’s unincorporated divisions serve as Medicare contractors. Veritus Medicare Services ("Veritus") is a Medicare Part A fiscal intermediary. HGS
Administrators ("HGS") is a Medicare Part B carrier. Veritus and HGS are paid by the United States to perform various claims processing and other functions pursuant to contracts with CMS.

B. Whereas, Elizabeth Drescher (the "relator") is an individual resident of the Commonwealth of Pennsylvania. On July 12, 2000, the relator filed a *qui tam* action in the United States District Court for the Eastern District of Pennsylvania captioned *United States of America ex rel. Elizabeth Drescher v. Highmark, Inc.*, (hereafter "the Civil Action"), Civil Action No. 00-3513. The United States filed a Complaint-In-Intervention on April 7, 2003. This action was later assigned Civil Action No. 03-4883.

C. Whereas, Medicare is a secondary payor of medical costs for an employee of: 1) an employer with 20 or more employees; and 2) an employer of 19 or fewer employees who is a member of a multiple employer plan or group which has at least one member with 20 or more employees, unless the small employer has the small employer exception (hereinafter the "MSP program").

D. Whereas, Highmark voluntarily conducted a review to capture actual employee count data from its customers
for purposes of determining whether Medicare should be the primary or secondary payer. Based on the results of Highmark's review, Highmark refunded $2,517,114.00 to CMS.

E. Whereas, the current statutory and regulatory framework does not specify an insurer's obligation to collect employee data for its group health plan customers.

F. Whereas, Highmark voluntarily undertook to create new data capturing and utilization measures in order to obtain accurate employee count information.

G. Whereas, a model MSP process has been created to address how data regarding employee counts can be captured and how information regarding the small employer exception will be disseminated and utilized. The model is attached hereto as Exhibit A.

H. Whereas, the parties do not intend that this Agreement or Highmark's commitment to implementation of a MSP process consistent with Exhibit A be deemed an admission of liability now, or in the future.

I. Whereas, to avoid the delay, uncertainty, inconvenience and expense of protracted litigation of the above claims and in the interest of implementing a model MSP claims process, the parties reach a full and final
settlement pursuant to the terms and conditions below.

III. TERMS AND CONDITIONS

NOW THEREFORE, in reliance on the representations contained herein and in consideration of the mutual promises, covenants, and obligations set forth below in this Agreement, and for good and valuable consideration as stated herein, the Parties agree as follows:

1. Highmark agrees to pay to the United States the sum of Two Million Thirty Thousand Eight Hundred Forty Dollars ($2,030,840.00). This sum shall constitute a debt immediately due and owing to the United States on the Effective Date of this Agreement. This sum shall be paid no later than 10 business days after Highmark receives written payment instructions from the United States.

2. Highmark will commence implementation of its MSP claims process consistent with the Model (Exhibit A) on the Effective Date of this Agreement. It is understood that the Model will be subject to updates and revisions to maintain compliance with any future changes in the federal regulatory requirements.

3. Highmark for a period of three years, through the services of an Independent Organization will verify
that Highmark has established and maintained MSP procedures consistent with the Model (Exhibit A). The protocol for such review is that beginning on January 1, 2007 and thereafter for a period of two years, Highmark's Internal Audit Department shall confirm that Highmark's MSP policies and procedures are consistent with Exhibit A. On an annual basis, and continuing for a period of three years, an Independent Organization chosen by Highmark shall verify Highmark's Internal Audit Department's findings and provide written notification to CMS within 30 days of completion. The Independent Organization's review will be limited to an evaluation of Highmark's MSP policies and procedures for consistency with the model at Exhibit A. It is not intended that this review, analyze or evaluate Highmark's actual MSP claims processing results. Any organization that is professionally qualified to review the existence of Highmark's policies and procedures shall be authorized to serve as an Independent Organization.

In consideration of the obligations of Highmark as set forth in this agreement, conditioned upon Highmark’s full payment of the Settlement Amount identified in paragraph 1, the United States (on behalf of itself, its officers, agents, agencies and departments) agrees to release Highmark from any civil monetary claim the United States has in law or in equity that relate to, arise from, or pertain to the MSP claims involving dates of service from January 1, 1996 through May 27, 2004, including all claims that were or could have been asserted in the relator’s complaint and the United States Complaint in Intervention.

6. The United States agrees, on behalf of the OIG HHS and CMS, that nothing in this Agreement will be deemed to reflect evidence of Highmark’s, Veritus’s, or HGS’s lack of responsibility to participate in any federal or state health care program.
7. Highmark, (on behalf of itself and its past and present parents, divisions, and subsidiaries, and affiliates, their predecessors, successors and assigns,) agrees to release the United States, its agencies, employees, servants, and agents from any civil monetary claim (including attorney's fees, costs, and expenses of every kind and however denominated) Highmark has in law or in equity that relate to, arise from, or pertain to the MSP claims involving dates of service from January 1, 1996 through May 27, 2004 including all claims that were or could have been asserted in Highmark's counter claim.

8. The Settlement amount that Highmark must pay pursuant to this Agreement shall not be decreased as a result of any off set for claims for administrative costs submitted by Highmark on any other Federal Health Care Program.

9. The Agreement is intended to be for the benefit of the Parties only, and by this instrument the Parties do not release any claims against any other person or entity.

10. Nothing in this Agreement constitutes an agreement by the United States concerning the characterization of
the amounts paid hereunder for purposes of the Internal Revenue Laws, Title 26 of the United States Code.

11. Each party to this Agreement shall bear its own legal and other costs incurred in connection with this matter, including the preparation and performance of this Agreement.
