This map of British Columbia illustrates the distribution of the Western Tanager-Salmonflycatcher. The species' range is highlighted in green, showing a concentration in the central and northern interior, particularly in the Kamloops and Merritt regions, and extending south towards the Okanagan and Kelowna areas. The map also shows major cities, provincial parks, and protected areas. A scale bar at the bottom left indicates a distance of 90 kilometers, and a QR code is located in the bottom right corner.
