LEARN FROM TWO OF THE MOST SUCCESSFUL REAL ESTATE ENTREPRENEURS IN CALIFORNIA

MIKE CANTU has been a full time Real Estate investor since April of 1982. During the past 27 years Mike has bought and sold hundreds & hundreds of houses, and built lots of them too. Mike currently runs a buy-sell operation with most of the houses being wholesaled to other investors, with a few being retailed, and also manages a rental house portfolio of over 30 rental houses.

Mike has met most of the big players in the buy-sell house business and knows what it takes to survive. Rentals are his true passion in the Real Estate business, allowing him to become financially free in an unfree world.

TONY ALVAREZ has been a successful Real Estate Investor and Certified General Appraiser in Southern California since 1981. But more importantly, Tony made over \$10,000,000 buying, renting and selling properties while working with professional real estate agents that specialize in selling lender owned (REO) foreclosure properties. He did it all in seven years in one of the lowest priced most depressed Southern California real estate markets.

Tony has bought, rented and sold hundreds of properties from vacant land to condos, single family residences, apartments and commercial properties. He has in depth knowledge of the inner workings of Lenders and their REO (foreclosure) departments. Tony's knowledge of real estate, appraisal, finance, and investing is vast and varied.
