

Myself as a  
*Creative* Practitioner

*Creativity* is about  
**original thoughts and ideas**

Everyone might have them,  
but not many people  
let them **grow**

**Ideas grow by believing  
in them and having  
confidence in them**

My ideas **grow**  
because I believe in  
**them** and in **myself**

**This comes from  
self confidence**

which is derived by people  
**not snubbing out**  
my ideas

A close-up photograph of two hands shaking in a firm grip. The hands are light-skinned and appear to be of different ages or genders. The background is plain white. The text is overlaid on the center of the handshake.

**When surrounded by  
good friends and family,**

that give me **happiness, stability**  
and a **positive environment,**

I am able to **nurture** and **give room**  
to ideas that might  
seem impractical at first

I've also developed a **mind set**,  
a **patience** and an  
**attention** to small thoughts

I then water and feed these into

*creative* **original ideas**

that then can be used  
**successfully**

**In summary...**

I'm a **good** *Creative*  
Practitioner because...

**I give credibility to the  
under dog ideas**

**listen to the alternative**  
**unexpected roots of thought**

and allow **breathing room**  
to see if a *creative* idea has **life**

**E N D**

Three white dice are arranged in a row on a white background. The top faces of the dice show the letters 'E', 'N', and 'D' in black, bold, sans-serif font. The dice are slightly offset from each other, creating a sense of depth. The background is a plain, bright white surface.
