

QUALITY GROUP
Homes for life

21 February 2008

To Whom It May Concern:

I have known Doron Katz for a period of 8 months, and as such, he has been responsible for the web projects of Quality Group, as well as assisting the Head of the I.T. Department in systems administration work.

He is an excellent and very professional worker, very tentative to others' needs, and most of all, loyal and creative and in possession of excellent web skills (a great asset to any company).

Therefore I wish to state that I can vouch for Doron, as a character referee. You may contact my office without hesitation, at the details below.

Regards,

Savvas Kakos
President & Chief Executive Officer.
