This letter informs you of an urgent matter in Lantian County which requires your immediate investigation. Corrupt public officials are engaged in an illegal expropriation of our joint venture, Xi'an Aleba Water Company. We have compiled our evidence on a website: <http://lantiancorruption.net>

Based on our investigation, corrupt public officials have conspired to deprive us of our property in Lantian County. The illegal transfer of our Chinese partner's share in our Joint Venture has been taken without our approval and in direct violation of our Joint Venture Agreement. Subsequent acts by corrupt Lantian officials have resulted in the confiscation of Joint Venture property and the closure of our Joint Venture operations. Our damages now exceed US\$1.3 million.

Corruption in Lantian County has become widespread and serious. We are calling attention to this situation through our web site and in conversation with Beijing and U.S. based journalists.

Lantian's corrupt public officials have illegally transferred ownership of all our Joint Venture property, transferred these assets to the organized crime group headed by Suen, a former Lantian policy deputy chief and now a Diaoyanyuan in Lantian court.

In the most urgent terms, I request that you launch an immediate investigation of corrupt Lantian and Xi'an public officials.

Sincerely yours,

Edward F. Morrison  
Chairman, Xi'an Aleba Water Company
