

## 53/10 – 100 Piece Run

Spec'd and approved by Paul himself, 53/10 pickups are the third installment in the vintage inspired series of PRS pickups and sound as warm as their singed appearance suggests. Paul worked with the PRS Sales Team to create a limited run of guitars around these pickups for their debut. Every aspect of this model, including its thin finish and excellent tone woods, was chosen to enhance the natural sound of these extraordinary pickups.

The 53/10 model utilizes the same PF09 ultra-thin, semi gloss nitro finish that was used on Paul's Dirty 100, which adds to the natural resonance of the wood. Paired with select mahogany backs and Private Stock grade quilted maple tops that Paul had set aside, this 100 piece limited run is truly distinctive.
