

OFFERS INVITED FOR:

An antique stained solid pine high sleeper with a slanting ladder. Includes pull out single guest bed which can be positioned left or right.

Ladder and underbed storage can be positioned on either side of the bed.

- Bed size W152, L198, H183cm.
- Clearance between floor and underside of bed 139cm.
- Cream removable futon cushions

This good quality bed is made entirely from solid pine and cost over £600 when new. When assembled they are sturdy with no rocking. My 13 year old son has been using it for years and loves the futon chair which is big enough for two to sit on. The chair quickly converts into a single bed which

is great when he has had a friend staying over or times when he hasn't wanted to sleep on the top bunk. If you have a small room, this bed is great. A bed, a desk, a chair and shelves all in the same floor space as a standard single bed, the desk is a really good size for homework and there are plenty of shelves above for books etc. The only reason we are selling the bed is because my son has outgrown it.

The bed frame is in fabulous condition but there are the usual small scrapes and marks and I don't want people thinking that this bed is as new. We're not selling the mattress with the bed but are selling the futon cushions which are in excellent condition with no marks or damaged stitching. The covers are removable and have just been washed. We are a smoke free house.

We have dismantled the bed because we can't store it assembled and forgot to take pictures of the actual bed beforehand, but we can promise that this bed really is in tiptop condition. It is simple to put together and we have full instructions. You will need an estate car or a van to collect it. I can help with the loading at this end. If you have no suitable vehicle I may be able to deliver it locally (within 15 miles of SO21 2JL) as long as you cover my fuel costs. You can pay cash on collection.

If you have any questions or would like further pictures of the dismantled bed please do not hesitate to drop me an email
