Glastonbury, CT 0

Dear Wayne:

Since 2003, Sage Resellers across the country have relied on Realized Solutions, Inc. to help their clients allocate expenses, improve bottom-line results, and put Key Performance Indicators at their fingertips.

Realized Solutions, Inc. (RSI) is a Connecticut based custom software developer and Application Service Provider with extensive experience in MAS90/200. We do all our work locally and don't sub-contract, offshore, or outsource to any other firms. Please let me take a moment to introduce you to some of our service offerings. These systems are available for resale with **35% margins** to the reseller as well as 20% margin on annual maintenance.

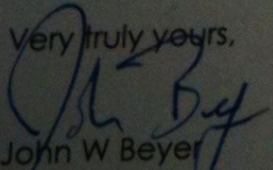

**RSI's T & E** is a full featured, affordable, web-based system that vastly improves the process of Travel & Entertainment processing and allocation. Utilizing the built-in Amex imports and automated Visual Integrator jobs, the RSI T&E System provides significant labor savings while vastly improving user satisfaction and reimbursement timelines.

**RSI's Dashboard and Report Delivery** displays mission-critical information in a graphical summary that allows your clients to drill down into the details when they need to. Data is transformed from a mind-numbing collection of numbers into attractive, easy to understand charts and graphs.

**RSI's Data Sync** provides a wizard driven system for copying Sage MAS 90 or 200 data to a Microsoft SQL Server Database. The system is fully automated and configurable to include all MAS data or a subset. The data copy in SQL Server can then be used for advanced reporting, archive, data cube generation, etc. A free functional demo is available from our website.

We're confident that you'll find our solutions are comprehensive, cost effective and an excellent source of additional revenue for you. Please visit our website at [www.MyRSI.com](http://www.MyRSI.com) or contact us for additional information. Thank you for your time and consideration.

Very truly yours,

  
John W Beyer  
President & CEO
