

**Celebrate the opening of the
LivingARK at Muswell Hill Primary
School, Muswell Hill, N10 3ST
(entrance off Dukes Avenue, N10)**

Your first chance to look around the new demonstration zero carbon building, and meet the team involved. It's a new classroom for the school, and is also open for bookings from local community groups and schools.

Come and take a look!

This building is different from an ordinary house. Every component has been carefully selected to minimise carbon dioxide (CO₂) and maximise sustainability. It is powered by the sun, captures rainwater and is made out of natural materials like wood, soil and sheep's wool. It even has living plants growing on the roof.

**Saturday, 11th December
11-12noon
Opening speech at 11:15am
followed by a tour**
