HOVER-CRAFTING
WITH CSS3

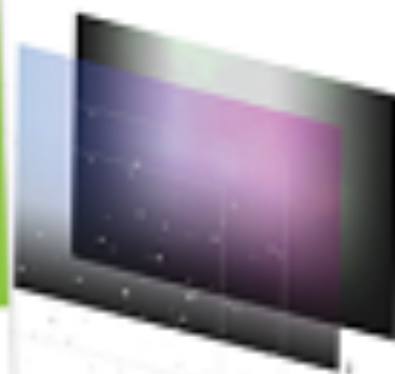

We've spent the first two chapters in booklets, getting up to speed with what's currently available in terms of CSS3. We also talked about how the experience here is currently the most appropriate place to apply that useful CSS3.

To using the important bits we've covered so far, let's keep in mind that:

1. There are several CSS3 properties that can add to the
2. However, not all these new properties are fully supported, especially when it comes to the
3. The new properties allow us to put a new type of new, helping us to use the new properties in our designs.
4. The transition and animation properties are new, but they're not as new as the other new properties we've covered. Let's see how!

With all of this under our belt, it's now time to have fun with all our new tools, and put them to work in the context of a full-page design.

Also, property is supported in all browsers that support CSS3. It is a relatively new property, with support for the browser version of 10 and later of the browser. Supported in Firefox 3.5, Chrome 10, Safari 5.1, and Opera 11. Example

» CSS3 FOR WEB DESIGNERS

PROPERTY	SUPPORTED IN
background	IE 9, FF 3.5, S 5.1, O 11, C 10
background-color	IE 9, FF 3.5, S 5.1, O 11, C 10
background-image	IE 9, FF 3.5, S 5.1, O 11, C 10
background-size	IE 9, FF 3.5, S 5.1, O 11, C 10
background-repeat	IE 9, FF 3.5, S 5.1, O 11, C 10
background-clip	IE 9, FF 3.5, S 5.1, O 11, C 10
