

Need your help in keeping Phos looking beautiful on Sunday mornings.

Hello my name is Tony Velasco and I'm heading up a team that will be willing to do some light housekeeping on Sunday mornings. The goal of this team will be to complement the major cleaning that happens every week. This will be rotating shifts so that everyone will know what shift they are on. My hope is to get enough people to volunteer, so that a person would only have to volunteer once every 8 weeks.

Job Description:

Light housekeeping before service a Sunday mornings.

- Picking up any trash and emptying waste baskets, putting new trash bags in baskets
- Cleaning the commodes in the restrooms and wiping down sinks
- Sweeping the front hallway and any other room that may need it
- Washing the front windows and doors
- Vacuuming or shaking out rugs in front of doors

The goal of this team is to keep Phos looking beautiful on Sunday mornings and to give people that walk in the door the total experience right down to fresh smelling commodes. It really does matter, so I need your help in making this project a success.

Please pray about it, sign up and lets all do our part to serve the church and the people that worship together on Sunday.

God Bless Tony Velasco
