Program Description

The objective of the Internship Program is to offer practical and educational museum experience to individuals interested in pursuing careers in the arts or museum-related fields. All interns are assigned to a department based on their academic background, professional skills, interests, and career goals. Interns participate in the ongoing work of the department and complete specific projects or portions of larger departmental initiatives. We encourage all prospective applicants to view our web site www.guggenheim.org/internships for a full list of departments that offer internships and information about stipends.

Museum Culture Seminar Program

The Museum Culture Seminar Program forms an integral part of our internship program, meeting most Fridays throughout the internship cycle. The Program includes field trips to sites such as auction houses, galleries, corporate collections, and other museums. Discussion with Guggenheim Museum staff from a range of departments and awareness of a range of museum-related issues is facilitated. A field trip outside New York is planned for every semester.
