

**VRC Robotics Check Out**  
**Papillion La Vista Public Schools**

Dear Student:

You are responsible for the equipment you are taking home. Please take this letter to your parent/guardian so that they understand that if the equipment is lost or damaged in any way you will be responsible for any repairs or replacement.

Your receipt of this letter and your signature indicate that you have accepted the responsibility for the equipment. In addition, please ask your parent/guardian to sign below. Your signatures on this notice will mean that you can check out the equipment for class work though out the year. The equipment **must be returned before 8 A.M. each school day**. Other students maybe waiting to use the same equipment during school hours.

Following these guidelines will assure that the equipment will be maintained and available for student use throughout the project.

Potentiometer (2)	2	\$12.99	VEXnet Joystick	1	\$149.99
VEXnet dongle	Pair	\$39.99	Performance Tool Kit	1	\$39.99
Omni Wheels 4" (2)	2	\$24.99	AAA Charger & 6pk	1	\$37.98

Above is just examples of equipment and 2011 costs. For the 2011-12 class a BOM (Bill of Materials) will be required when checking out a substantial amount of supplies and before each event followed by an inventory on return.

**For 2010-11 a BOM is not required since I recently was informed about needing a check out procedure when students take school equipment. For this year all that is needed is a copy of this check out sheet on file and a digital picture of all supplies taken each time.**
