# Exploring

*A Program for Career Education*

August 22, 2011

Dear Student,

Based on a recent career survey taken at your school you indicated your interest in manufacturing and related industries as a possible career path. As a result, the Nebraska Advanced Manufacturing Coalition "Dream It Do It" organization and their corporate partners would like to invite you to participate in our Exploring Post program, where you will learn about career options, career paths, and tuition assistance programs. Informal presentations, tours, and hands on activities will be presented by Tri-V Tool & Manufacturing, NMC, Inc. (Caterpillar), American Machine Works, Valmont Industries, Conductix-Wampfler, Elliott Equipment, and Metropolitan Community College. You will meet talented and dedicated professionals that will share career path insights and meet like-minded students who have expressed similar career interests.

The group will meet on Tuesdays September 20, 27, October 4, 11, 18, 25, (6:00pm to 7:30pm) and November 8 (6:00pm to 8:00pm). Your parents are always welcome to attend the meetings!

***Please note:*** The session will be limited to 50 students. If you are interested in participating, please register online at [omahaexploring.org](http://omahaexploring.org). Reservations for each student will be accepted on a first come, first served basis.

**The kick-off or sign up meeting will be at NMC, Inc. (Caterpillar) on Tuesday, September 13th @ 6:00 – 7:30 PM.** The address for NMC is 11002 Sapp Brothers Dr, Omaha, NE 68138. Our goal for the initial meeting is to acquaint our 50 participants with the program and program goals, handout schedule and locations for the post meetings and answer questions.

A \$25 registration fee is required for each youth (checks made payable to Mid-America Council or MAC) and should be brought to the kick-off meeting.

We look forward to meeting you and sharing the many career paths the above listed industries have to offer. Please explore on your own at <http://www.dreamit-doit.com/Nebraska/> and bring any questions you have to the meetings.

Sincerely,

John Vyhldal

a 501 (c)(3)
