Appearing
live at the

SPRING Cottage Life SHOW

When it comes to taking personal responsibility for the environment, few individuals can match Ed Begley, Jr.'s record. As Hollywood's eco-warrior, he is known for turning up at red-carpet events on his bicycle. He is currently one of the hottest speakers on green living in North America. Ed's speech, **Live Simply So That Others Can Simply Live**, has received standing ovations at over 200 events in the last four years. Currently, he is the co-star of the hit Planet Green series **Living with Ed**, a look at the day-to-day realities of "living green" with his wife Rachelle Carson, who's not quite as enthusiastic about a rain barrel as he.
