

E.10

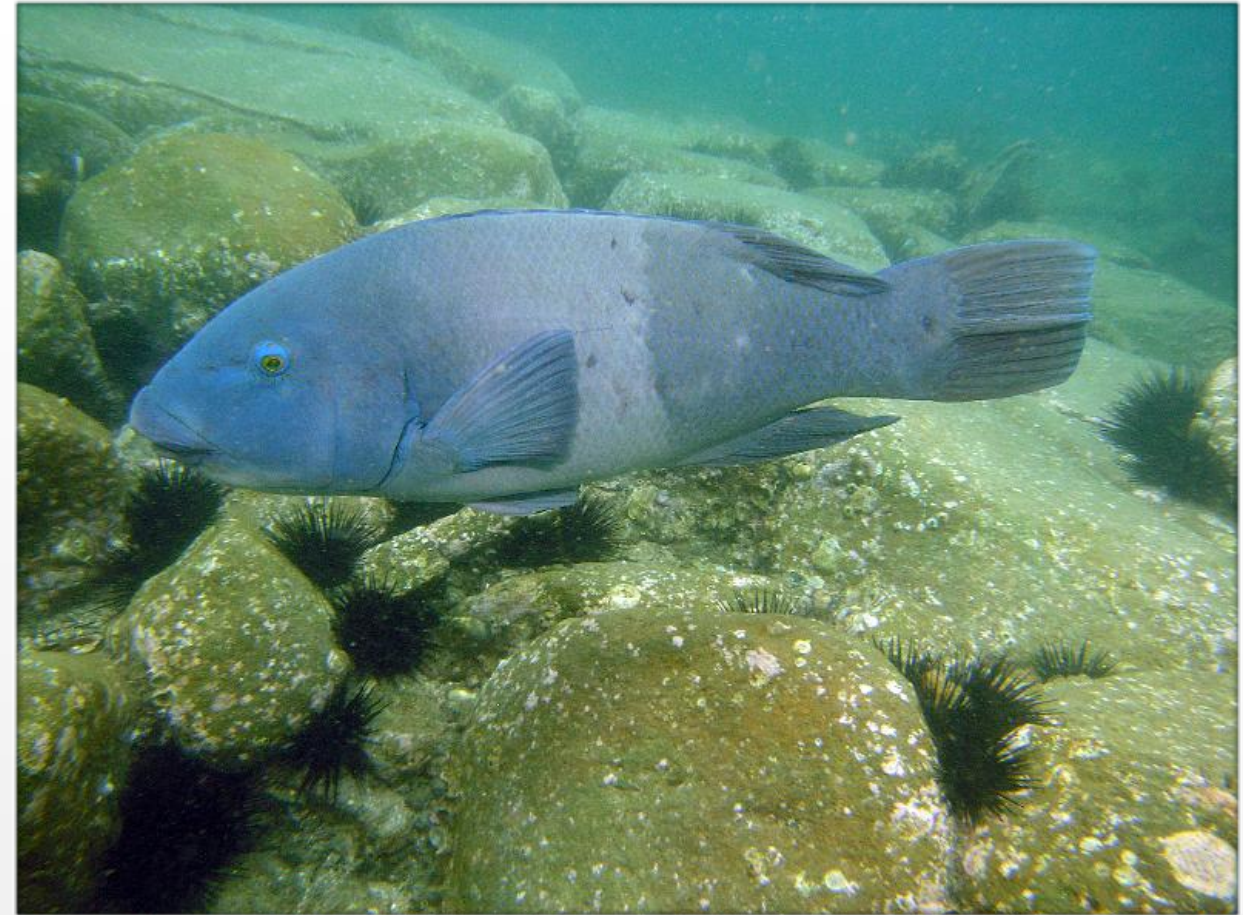

Blue back

- What does blue back look like:he is the majestic king of the bay his the older of the sea he looks like a big, long, blue fish with deep eyes a huge wide mouth. Blue luminous fins. Bouffy blue tail that lurks the oceans beneath .
- Blue backs hobbies: swimming with Abel, eating abalone and fish, steeling fish from the local fishermen.
- Two quotes from the novel blue back that describes his personality:
- "All day Abel daydreamed about Blueback. He wondered how old that fish must be to have grown to such a size. Just imagine all the things he had seen, all the creatures that he had come and gone around him all those years, the boats and people and time that had passed at Robbers Head."
- "It's big enough to eat your arm off." "He must be old to grow that big." "He's so blue." "And smart, he new what he was doing." "Where lucky t o see such a thing."
- What relationships does your character have with other characters: Dora and blueback had a old and trusting friendship. I think there had spent a lot of time together underwater before Abel came along.

Blueback's role in the book

- Blueback has a big connection with long boat bay. He becomes great friends with Dora and Abel. He lives all through Abel's life. If blueback was not in the book Abel would not have such big connection with the ocean. Without blueback Abel would live a different life and a different connection with the ocean.
