# Where blue groopers live

- ▶ Blue groopers are found in the coastal waters of south Australia, Western Australia, Victoria, New South Wales and up to Harvey bay in Queensland.

# Where blue back lives

- Blue back lives on a big reef full of fish and abalone, yellow plates of coral, sea weed, orange star fish and silver fish.

# Blueback story

- ▶ I was swimming alone in the reef having a wonderful day when I saw my great friend Dora. I swam up to her to say hello she looked at me worried and scared. She suddenly jumped in front of me. I saw heaps and heaps of abalone falling from the boat, I got so excited and swilled around Dora I wanted to get the abalone but there were two men in my way. One of them shot a rod at me. Dora knocked me on the nose so I swam off into the distance.

# How does the author gives blue backs character

- ▶ The author description of blue back that he is aloof but friendly. He loves to nudge and play with Abel but he is worried that he will be found and caught so he chooses his friends wisely.

# Blue back, Costello and Dora

- ▶ Blue back saw the abalone falling to the bottom of the ocean and he wanted to eat it all. He could not sense that there was danger. And so playfully he swilled around Dora.

# What they eat

- ▶ Blue groppers eat sea urchins, crabs , mussels and seagrass beds they can grow up to 1.2meters.
