

A titanium bicycle frame is the central focus, set against a dark background with radiating light lines. The frame is silver with blue 'ragley' branding on the top tube and down tube. To the left is a large, cylindrical titanium component, possibly a seatpost or handlebar, with a blue and white 'TD:1 RACEWEAPON' sticker. In the foreground, a black and silver headset or bottom bracket component is visible. To the right, another blue and white 'TD:1 RACEWEAPON' sticker is partially shown.

TD:1 RACEWEAPON

Introducing the new titanium 29er from Ragley. Making sense in a whole new way. We take 29in wheels and focus on weight and handling, with a 440mm rigid fork specific design that lets you carve and hammer unlike any other bike out there. Hand welded in the USA by Lynskey Performance from cold worked and butted 3/2.5 certified titanium, featuring sliding dropouts and Ragley's 3-Finger chainstay bridge for huge mud room and chainring clearance. Podium placed in the 24hr Solo class at Sleepless and Strathpuffer.
TD:1 - The Ultimate Race Proven Weapon.

RRP: £1199.99
