

Ethics in Undergraduate Projects

Informed Consent

Problem of the **power imbalance** between researcher and participant.

How informed can participants be?

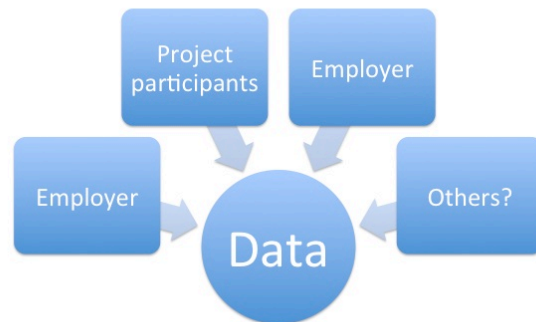

Avoid harm

- Projects must **not** have any predictable **negative consequences** for the participants or the setting.
- CRB

Benefits

Who will **gain** from your project?

Ownership of data

Permissions

Cultural Sensitivity

Your **position** in the project context.

Your **perspective**
Integrity

- Read the University ethics policy
- Download guidance from <http://www.bera.ac.uk>
- Further reading from <http://www.aare.edu.au/ethics/aareethc.htm>
