

IMPLEMENTING UNIVERSAL DESIGN FOR EDUCATION IN ILLINOIS

Universal Design for Education (UDE) is the incorporation of principles from both universal design for learning and universal design for instruction. Universal Design for Learning (UDL) employs learning guidelines for multiple means of representation, expression, and engagement for the student. Universal Design for Instruction (UDI) applies the same seven principles as universal design for architecture with two additional principles related to education. This webinar series will provide insights into how to begin to implement these principles into classroom instruction to provide a more inclusive learning environment for a diverse student population, including those with disabilities.

These webinars will focus on key concepts, strategies and instructional technology that may be used to develop course materials that are universally designed. Universally designed course materials often provide benefits on multiple levels, including accessibility, content retention, varied learning styles, as well as platform and device independent delivery.

Webinar Sessions

- **Introduction to Universal Design for Education.....** Chris Dobson, Harper College - 10/20/2011
- **Introduction to the Illinois Information Accessibility Act (IITAA).....** Kevin Price, UIC - 11/17/2011
- **Utilizing LecShare for Delivering Instructional Content,** Chris Dobson, Harper College - 12/15/2011
- **Microsoft Office 2010 Accessibility.....** Christy Blew, UIUC - 01/19/2012
- **Implementing Accessible Math on the Web.....** Giovanni Duarte, DeVry - 02/16/2012
- **Quick Checks for PDF Accessibility.....** Christy Blew, UIUC - 03/15/2012
- **Engaging E-learning with SoftChalk LessonBuilder.....** Chris Dobson, Harper College - 04/19/2012
- **Creating Accessible Presentations with Adobe Captivate.....** Giovanni Duarte, DeVry - 05/17/ 2012

Registration

This free Webinar series is sponsored by the Great Lakes ADA Center and the Illinois Board of Higher Education. To register for one or all of the sessions please visit <http://www.adaconferences.org/IBHE/>
