

THE BIG BANG!

by Shedlon Chorne

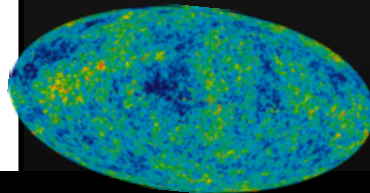

THE BIG BANG IS A THEORY THAT THE UNIVERSE STARTED OUT AS A SMALL THING BUT THEN IMPOLED AND EXPLODED THAT EXPANDED ARE UNIVERSE

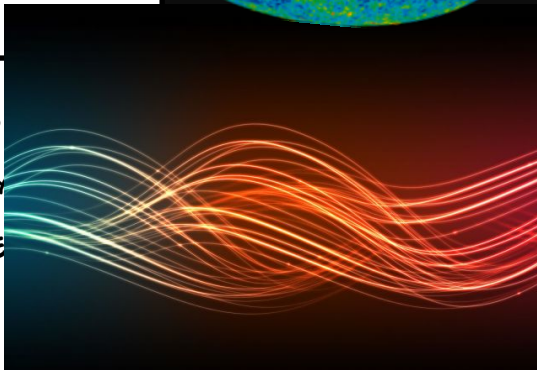

KABOOM!!

EDWIN HUBBELL NOTICED PHONE CALLS HAD A HISS AND WONDERED WHY? SO HE GOT A SATELITE UP IN TO SPACE TO GET SIGNALS OF THE HISS AND HE GOT A PICTURE THAT LOOK LIKED THIS

SCIENTIST TO DAY THINK THAT THE WAVES FROM THE BIG BANG ARE STILL HERE TODAY THE CAN TELL BECAUSE USING THESE TELESCOPES THAT TRANSMIT LIGHT IN TO COLOR WAVES

PEOPLE THINK THAT THE WAVES FROM THE BIG BANG ARE STILL GOING AND THAT OUR UNIVERSE IS STILL EXPANDING
