## **RYAN LANCASTER WINS 2010 AUSTRALIAN QUAD TITLE**

SP TOOLS/KTM Australia's Ryan Lancaster has won the 2010 Australian Quad Motocross Championship, at Southern Capes-Jindong near Busselton, Western Australia, on 16-17 October.

"I'm really happy to be able to win the championship again," said Lancaster, who adds the 2010 title to his championship victory captured in 2008. "I had an injury coming into the event and my speed wasn't quite there, but I dug deep with consistency on the day and it paid off in the end." "The track was awesome and formed up nice and rough, on day 2 of racing."

Lancaster, from Tom Price in WA, rode his KTM 450 SX to victory in the Pro Class after a consistent showing at the event run by the Southern Capes Motorcycle Club, finishing with 5-3-3-2-2 results to clinch the title over the five races contested over the weekend. "Race 1 didn't go as planned, on the second lap a rider crashed in front of me sending his bike into my path and knocking me off my bike. I then proceeded to get run over by 2 other riders following behind. I remounted only to realize I had also lost my seat and severed my front break lines, I battled from dead last back to 5th place in the 20min + 1 moto. I made the best of the situation and believe that is what helped me win the title. The rest of the races on day 1 & 2 went better, still feeling the effects of the crash in the first race I was a little off pace but the hard work leading up to the event paid dividends with my fitness holding up towards the end of the long motos, securing top 3 finishes in the next 4 races."

"This is a great way to finish off my season adding the Australian Championship to my Tri State Championship win earlier in the season."
