## **Environmental Testing Laboratory Opening in Longmont, Colorado**

### **COLORADO'S NEW TEST LAB: CASCADe TEK: FRONT RANGE**

Cascade TEK, the Pacific Northwest's premier, fully accredited environmental test laboratory, is proud to announce the opening of its new product testing facility in Longmont. By April 2011, over 15,000 square feet of laboratory space will offer Colorado a solid variety of Vibration, Shock, Salt-Fog, ISTA Package and Climatic testing capabilities.

Key pieces will be installed & operational by April 2011:

- Heavy Duty Vibration Tables (12,000 & 15,000 force pound systems, slip tables, multi-channel control)
- Temperature Humidity Cycling Chambers
- Temperature Humidity Walk-In Chamber
- Thermal Shock
- Salt Fog
- Settling Dust Chamber (Blowing Dust Capabilities at Portland, OR Lab)
- Accelerated Weathering
- Centrifuge (RTCA DO-160 Testing)
- Large Temperature/Altitude Chamber
- Bake-Out, Cure Ovens
- ISTA Drop Tester

**OPENING MARCH-APRIL 2011**

1530 Vista View Drive  
Longmont, Colorado  
(Next to EMC Integrity Lab)
