

Vote for Michelle Harris as your Labour Mayor of Bedford Borough

Michelle says:

We need a Mayor who will stand up for the people of Bedford Borough against this Conservative-led Government's plans. That's why I'm standing as your Labour candidate.

- I will be Bedford Borough's first line of defence against the damage being done by the Tory-led Government and their Liberal Democrat allies.
They have broken promises on VAT and tuition fees, and on protecting front-line services such as the Police Service, a move which will lead to some 60 officers being lost across Bedfordshire.
- This Government is taking a reckless gamble with the economy. We do need to get the deficit down, but this irresponsible programme – designed in Downing Street and now coming to your street – is going too far, too fast, and people in Bedford Borough will suffer because of it.
- Unfair cuts such as these will damage the economy and cause unnecessary misery and suffering to each and every one of us. As Mayor of Bedford Borough, I would do everything in my power to resist these plans and to minimise the potential harm to you, your families and friends.
- Your Labour councillors are already working hard to limit the damage done by the Conservative-led Government – vote for me and you will also have a Labour Mayor who is passionate about defending your rights, and who will not be afraid to speak out on your behalf.

About Michelle

Michelle lives within Bedford Borough in Riseley. After attending state school, she started full-time work at age 15, continuing her education at night school. In this way she took O-levels, A-levels and, as a mature student, gained her law degree.

Michelle finally became a barrister and has spent the last ten years representing the most vulnerable in society.

Michelle said: "I am proud to live in the Borough and I am honoured to have been selected as Labour's candidate for mayor."
