

The GLOBE Program

*Global Learning and Observations to Benefit the Environment
An International Environmental Science and Education Partnership*

May 14, 2011

Greetings GLOBE Partners!

As the 2010-2011 school year comes to a close, the GLOBE Alumni are ready to again expand the awareness, recruitment and utilization of our organization throughout the GLOBE Community. This year the Alumni are looking at ways our stories can bridge science education to real world applications for those of us who are STEM professionals. We remain enthusiastic about the possibilities and potential of an International GLOBE Alumni Association.

It is the end of the school year and we have developed documents aimed at informing schools, teachers, and students about GLOBE Alumni. The attached documents include an Invitation Letter, and 2 brochures outlining the North America GLOBE Alumni involvement, benefits, and current projects.

The literature can also be found at the below address: <http://globealumni.posterous.com/globe-alumni-north-america-literature>

For interested student, joining the Alumni is a simple procedure for students. Go to globealumni.com, click on database and fill in profile template, click submit. The GLOBE Program Office coordinator and the Regional Representative for the Alumni will contact them and introduce them to their GLOBE Regional Helpdesk Officer, their Country Coordinator and/or Partner.

Currently we have over 32 alumni present in 9 states which include: California, Colorado, Florida, Indiana, Kentucky, North Carolina, Ohio, Puerto Rico, and Virginia. We are hoping to expand that number again this year in addition to sending out email introductions between alumni and partners located near one another.

If you have any projects, workshops, or school visits coming up in the next few months please include these documents as a way to inform your GLOBE Community know that there are Alumni ready and willing to assist them in their efforts to support GLOBE science education.

Please contact us with any questions, comments, projects, or ideas you would like us to consider. Thanks so much for your time and commitment to the GLOBE Alumni organization.

Best Regards,

Matt Fenzel

GLOBE Alumni North America Regional Representative
