## Notes:

---

**Materials:** Lace, Scissors, Glue, Earring Back (Fishhook)

**Options:** In this tutorial 2 pieces of lace are layered together for extra bulk, it calls for gluing but fusible webbing or hand sewing with also work, it just gives a different look. Also fishhook earring backs are used but so could posts or hoops. Experiment! Have fun!

Try pre-made lace appliqués for a super quick version. Just add earring backs and go!
