In the wake of the closure of **greenroom**, our long running **emergency** platform has fled the safe confines of its black-box home in search of new shelter.

**Live art, durational performance, one-on-ones, performance lectures.**  
Intimate moments + powerful presence, playful interjection + verbal banter.

*Walk hand in hand down a desolate street, reimagine the landscape as a suburban vista ● A woman pours her heart out and Roy Orbison sings for you ● Table top sci-fi and the naked truth, neighbourhood stalking and a crusading fool ● Double-talk on the edge of a kiss ● Learn to weave, become a life model, take a shower, play with fire...*
