

CLASS

YOU CAN CATCH

Until now Dan has never been able to afford a car he can be truly happy with. After graduating college and getting a pretty decent job he has been able to pay a good chunk of his student loans back. Now it's time to ditch the junker and get the upgrade he has always dreamed of. Not the Mustang or the Eclipse we're talking something on par with Porsche and Mercedes.

We're talking about the all new Hyundai Sonata.

For the first time Dan doesn't have to compromise. He can get the quality of a Porsche at the price point of a Mustang. It's class he can catch.
