

British Columbia

Is very Eco friendly. We have fresh air and big trees with lots of bark and branches. Some trees are old and small new and big. Fresh water flows in the river little streams with little rocks. Wet lands and green land thar are all beautiful. The ocean flos with salmon hatchlings and with

salmon jumping out of it. In the forests we have fallen down trees with mos growing on top of it. We have many different types of trees with lots of bark on it. In our oceans we have bots fish and people. Thay like swimming in the oceans. Ewan from Mulgrave
