

# Bargaining Bulletin

**March 8 • Issue 4**

Dear Members

As part of the OSSTF/FEESO information strategy, a message has been sent to District and Bargaining Unit Presidents asking local leaders to arrange for general membership meetings for each District in our elementary and secondary education sector. These meetings are to be held by March 31, 2012.

All members are strongly encouraged to attend. These meetings will provide the latest information related to negotiations and recommended strategies from Provincial Office. The message will come from a member of the Provincial Executive and/or a provincial office Secretariat member.

OSSTF/FEESO will continue to keep members informed through communication on the provincial website. Your recommended attendance at this meeting, and future meetings when required, will ensure every member has the opportunity to better understand the current state of negotiations and the Federation's strategic response.

Kenneth Coran, President
