INTERSPEECH Events

Introduction

ISCA organizes an annual conference, INTERSPEECH. This brings together two previous series of biennial international conferences: EUROSPEECH, the European Conference on Speech Communication and Technology, and ICSLP, the International Conference on Spoken Language Processing. Since 2000, both conferences have been under the common label INTERSPEECH. The first INTERSPEECH event was ICSLP 2000, which took place in 2000, in Beijing, China, also co-sponsored by ISCA. Previous EUROSPEECH conferences were held in 1989 in Paris (France); 1991 in Genoa (Italy); 1993 in Berlin (Germany); 1995 in Madrid (Spain); 1997 in Rhodes (Greece); 1999 in Budapest (Hungary); 2001 in Aalborg (Denmark); 2003 in Geneva (Switzerland); and 2005 in Lisbon (Portugal). ICSLP conferences, coordinated by the Permanent Council for the Organization of International Conferences on Spoken Language Processing (PC-ICSLP), were held in 1990 in Kobe (Japan); in 1992 in Banff (Canada); 1994 in Yokohama (Japan); 1996 in Philadelphia (USA); 1998 in Sydney (Australia); 2000 in Beijing (China); 2002 in Denver (USA); 2004 in Jeju (Korea); 2006 in Pittsburgh (USA). The recent INTERSPEECH conferences were held in 2007 in Antwerp (Belgium), 2008 in Brisbane (Australia), 2009 in Brighton (UK), and 2010 in Makuhari (Japan).

INTERSPEECH conferences include papers on all the scientific and technological aspects of Speech. More than 1.000 participants from all over the world attend the conference and more than 700 papers are presented in oral and poster sessions. Several satellite workshops and a Scientific and Industrial Exhibition highly enrich the conferences' content. Interspeech conferences may be held in any country, although they generally should not occur in the same continent in two consecutive years. The next INTERSPEECH conferences will be held in 2011 in Florence (Italy), 2012 in Portland (USA), 2013 in Lyon (France) and 2014 in Singapore.

INTERSPEECH conferences are indexed in ISI, Engineering Index and Scopus.

Policy

1) All papers submitted to INTERSPEECH 20xx must be original contributions that are not currently submitted to any other conference, workshop, or journal, nor will be submitted to any other conference, workshop, or journal during the review process of INTERSPEECH 20xx. In all such paper submissions, any use of prior material should be cited by a reference to the source of that prior material, including one's own work, i.e., if an author uses earlier existing material, whether from one's own work or that of others, that work should be cited in the paper's list of references. Any violation of this policy may result in sanctions by ISCA, such as a ban on further submissions to ISCA publications by these authors.

2) Each accepted paper to an ISCA Event should be presented by one of the authors in person at the meeting site according to the schedule published. Any paper accepted into the technical program, but not presented on-site, may be withdrawn from the official proceedings.

3) Copyright: By each submission of a paper to Interspeech-20xx, the author(s) hereby warrant(s) that the manuscript has been submitted to ISCA (the International Speech Communication Association) for publication in the Interspeech 20xx Proceedings, IS ORIGINAL AND HAS NOT BEEN SUBMITTED FOR PUBLICATION OR PUBLISHED ELSEWHERE and that all trademark use within the manuscript has been credited to its owner or written permission to use the name has been granted. In addition, the author(s) acknowledge(s) that all images such as tables, screenshots, graphics, etc., do not have a copyright that is held by a third party. The author(s) agree(s) to, and hereby assign(s) all rights, title and interest, including copyrights, in and to the manuscript to ISCA. The author(s) retain(s) the rights to any intellectual property developed by the author(s) and included in the manuscript. Note that the ISCA reviewing process is confidential. The copyright is provisionally transferred to ISCA at the time of submission of the article. This copyright is definitively assigned to ISCA if the manuscript is accepted after the reviewing process. If the manuscript is not accepted, the copyright transfer to ISCA is thus abrogated. For any article published in INTERSPEECH

proceedings, ISCA grants each author permission to use the article in that author's dissertation or in institutional repositories (paper and/or electronic versions), provided that the article is correctly referenced (including page numbers and/or paper number). All authors of a paper have the same permission for reprinting, under the same conditions.
