

# What will you say to your constituents when they learn the truth?

Canadians are coming together against the **secretive & extreme Canada-China FIPA investor deal** because it threatens our democracy & our economy and hands unprecedented power to multinational corporations.

In the past two weeks, **over 70,000 Canadians across political lines** came together opposing this agreement. 3,000 donated to pay for radio ads to make their voices heard.

You can't lead by keeping people divided & in the dark. Canadians are watching & we will hold you accountable.
