APPLICATION FOR TREE REMOVAL

Per Residential Design Standard 8.8: *Trees measuring with a diameter 6" or greater, measured at 2' from the ground, may not be removed without prior approval of the Association. Trees that are closer than 15' to a house or other structure, trees that are leaning, dead or diseased (need approval) and individual trees within a group where removal will not substantially impact the appearance of the yard, will generally be approved.*

Where proposed tree removal will significantly reduce the number of trees on the property, removal may be limited and/or require a landscape plan for replacement landscaping. Standards are available at www.brandermill.com.
