Fraud, Waste and Abuse

We do not tolerate any practice that contributes to fraud, waste or abuse in the federal or state health care programs or private payer systems. Physicians and vendors must be aware of the federal and state laws, rules, and regulations designed to combat fraud and govern their actions and behaviors accordingly.

Deficit Reduction Act, Federal and State False Claims Act

The federal False Claims Act (FCA) protects government programs, including Medicare, Medicaid, and Tricare, from fraud and abuse. The Federal Deficit Reduction Act (DRA) provides state and financial incentives for enacting state false claims laws to protect the Medicaid programs from fraud and abuse. The primary activities that constitute violations under the FCA are: (i) knowingly present, or cause to be presented, a false or fraudulent claim for payment or approval; (ii) conspire to commit a violation of any of certain provisions of the FCA. The FCA provides administrative remedies for false claims and statements, state laws pertaining to civil or criminal penalties for false claims and statements, and whistle blower protections under such laws.

Anti-kickback Statute

The federal anti-kickback statute makes it illegal to knowingly and willfully solicit or receive any remuneration in return for referring an individual to a person or entity for the furnishing of any item or service for which payment may be made in whole or in part under a federal health care program. Most states have enacted similar state law. Physicians and vendors shall not offer or give to any Tri-State Nursing & Rehabilitation Center staff an improper or illegal gift, inducement, or referral, including meals and entertainment that may violate federal or state law or give the appearance of impropriety.

Stark Law/Conflicts of Interest

The Stark law prohibits a physician from referring patients to an organization with which the physician or the physician's immediate family member has a "financial relationship" for the furnishing of certain designated health services ("DHS") reimbursable by Medicare or Medicaid.

Tri-State Nursing & Rehabilitation Center prohibits relationships with physicians and vendors, financial or otherwise, that may cause conflicts of interest, perceived or real. Physicians and vendors must immediately disclose any conflicts of interest to the Administrator or the Compliance Hotline (877-772-6744).

Exclusion Screening

Should a physician, vendor or vendor personnel become excluded or sanctioned under any applicable federal or state fraud and abuse statutes, the physician or vendor agrees to immediately notify the Administrator or the Compliance Hotline (877-772-6744).

Elder Justice Act

The Elder Justice Act imposes a federal duty to report reasonable suspicions of crimes against residents of skilled nursing facilities to the Secretary of Health and Human Services and local law enforcement. When applicable, a physician or vendor must make this information available to its personnel and subcontractors working at Tri-State Nursing & Rehabilitation Center so that their staff are aware of the obligation to immediately report any suspicions of crimes to the Administrator or the Compliance Hotline (877-772-6744).
