Appliance Communication

GE Appliances WiFi Connect

Your appliance is GE Appliances WiFi Connect compatible using the GE Appliances ConnectPlus / U+ CONNECT module. To connect this appliance to the internet you will need to attach the module to your appliance through the communication port in the appliance. The GE Appliances ConnectPlus / U+ CONNECT will allow your appliance to communicate with your smart phone for remote appliance monitoring, control, and notifications. Please visit GEAppliances.com/connect to learn more about connected appliance features, to learn what connected appliance App’s will work with your Smart Phone, and to learn where you can purchase a GE Appliances ConnectPlus / U+ CONNECT. The GE Appliances ConnectPlus / U+ CONNECT module has the FCCID located on the back of the module.

WiFi Connectivity: For assistance with the appliance or the GE Appliances ConnectPlus / U+ CONNECT network connectivity (for models that are WiFi enabled or WiFi optional), please call 1-800-220-6899.

REGULATORY INFORMATION

FCC/IC Compliance Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/television technician for help.

CAUTION

Any changes or modifications to this unit not expressly approved by GE Appliances could void the user’s authority to operate the equipment.

ConnectPlus / U+ CONNECT module only (or similar communication module)

FCC RF Radiation Exposure Statement - This device is only authorized for use in a mobile application. At least 20 cm of separation distance between the ConnectPlus / U+ CONNECT device and the user’s body must be maintained at all times.

This device complies with Industry Canada’s license-exempt RSS’s. Operation is subject to the following two conditions:
1. This device may not cause interference; and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

Information

Le présent appareil est conforme aux CNR d’Industrie Canada applicable aux appareils radio exempts de licence. L’exploitation est autorisée aux deux conditions suivantes :
1. l’appareil ne doit pas produire de brouillage, et
2. l’utilisateur de l’appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d’en compromettre le fonctionnement.

Cet équipement est conforme aux limites d’exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles les radioélectriques “RF” de la FCC lignes directrices d’exposition et d’exposition aux fréquences radioélectriques (RF) CNR-102 de l’IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d’absorption spécifique (DAS).
