

NMOpedia

Digital Education Platform

NMOpedia: Digital Education Platform is a series of informational PowerPoint presentations made available for the scientific community by The Guthy-Jackson Charitable Foundation and its trusted team of scientific advisors. Each module offers a succinct exploration of the research surrounding NMO/SD with a particular focus and clearly-defined learning goals.

Current Modules

Module One Basic Diagnosis

A succinct overview of the current approaches to diagnosis of NMO/SD, based on the 2015 IPND Criteria (Neurology 85:177-189).

Learning goals for this module include:

- Consider NMO/SD Diagnosis
- Suspect NMO/SD Diagnosis
- Diagnostic Workup Schema
- Ancillary Diagnostic Tests
- Differential Diagnosis

Module Two Pathophysiology

A primer outlining the current understanding of NMO/SD pathophysiology, based on recent published literature in the field.

Learning goals for this module include:

- Astrocytes & AQP4 Protein
- NMO/SD Etiologic Theories
- Loss of Immune Tolerance
- Pathogenesis of NMO/SD
- Clinical Laboratory Results
