

*M*others, with loving hands and caring hearts, mold the lives and characters of sons and daughters, grandchildren, godchildren, spiritual children and adopted children. We all lovingly call that special nurturing woman in our lives, Mother. Even the Son of God had someone to call Mother. This must be God's providence and design to create anew, repeating a mother's love throughout the world.

Dear \_\_\_\_\_

A gift in your honor has been made to Good Counsel, which operates homes, and does so much more, to help single mothers and their children. Your love is reaching out to show love to others.

Love \_\_\_\_\_

Dear Friend,

This Spring as the miracle of new life unfolds, I remember with gratitude the more than 5,800 mothers and children we have seen at Good Counsel in our 26 years of ministry. Only God knows how many mothers and children were helped through our 24/7 helpline, outreach programs, and now also from our website.

This Mother's Day you were thought of in a most special way, and a generous donation was made in your name to help single mothers in need. I have to thank you, because that wonderful person whom you've helped to grow in love and grace, has now reached out and helped us at Good Counsel. You and your family, along with your special intentions, will be remembered in our homes and in our chapels as we gather for Mass and prayers.

May God always bless you, be with you and shine upon you. You are a most special mother.

Peace,

A handwritten signature in blue ink that reads "Chris" with a plus sign at the end.
