A Chilly Winter Greeting to One and All,

When it snows, you have two choices: shovel or make snow angels. Unfortunately, if you were like me during these last long snow storms I obsessed about how much work it was going to be to shovel all that snow and did not give one thought to the wonder and beauty of the snow.

The analogy of shoveling or making snow angels applies to a lot of the work we do at school as well. The everyday routine of classes, lunch, homework, sleep, repeat might feel like all the snow that needs to be shoveled, a heavy burden. Let us not overlook all of the snow angels that appear inside of the daily routines.

### Snow Angel #1 - CP Carnival

The 6<sup>th</sup>, 7<sup>th</sup>, and 8<sup>th</sup> grade classes created carnival games and hosted a St. Valentine's Day Party for the rest of the school. The goal of the day was to be modern day "St.Valentines" by reaching out and doing something kind for someone else. The students could play a game for \$.25. All proceeds from the event will be donated to the CP Center. Representatives from FACS will appear on the CP Telethon and present our check for \$1733.25. Clients from the CP Center were invited to join us for the party and several of them did come and enjoy the games with the students. It was a wonderful day of celebrating the care St. Valentine was known for by reaching out and supporting a community organization that does so much good in the Green Bay area.

## Snow Angel #2 - 100th Day of School

The 100th day of school arrived 3 days late because of the snow and cold but we finally got to celebrate the big day on Wednesday, February 6th. There were all kinds of 100 focused projects going on all day. The best part was all of the students at the St. Matthew Campus were encouraged to dress like they were 100 years old. The costumes were a hoot!

At the Resurrection Campus the students participated in a 100 question trivia contest. The winners from each class were:
