

Festival of New Life

A SPRING EQUINOX EVENT
WITH GW HARDIN

DENVER • MARCH 20 • TUE • 7-8 PM

We are now approaching the greatest moment in human history. The Winter Solstice Event was a resounding success with many of you asking us to call our community together again. This time we will add to the groundswell of efforts at co-creating a far better world. People from around the globe will once more join us as we unite with one another to electrify the powers of group intent that will foster new life-purpose in our rapidly changing world.

This time we will assist in a most vital task — that of transforming our world by transforming ourselves with blessings of Harmony, revitalizing the forces that make us One. Three reputable sources have presented evidence that humanity is now capable of moving to an advanced level.

Join us as we gather together for the Festival of New Life here in Denver as we help manifest a holistic planet using the powers of coherent consciousness that heal our minds, hearts, and souls as we once again co-create global, harmonious intent. A perfect opportunity for you to choose to move your own life into greater resonance with peace, love, and healing.

1ST SEGMENT

Release of Limitations ... opening sacred space ... ritual of the Miraculous-Self

2ND SEGMENT

Embracing New Life ... reviving the Light-Within ... quarter-hour session using the Xynchro™ as a tool of connecting with all of life.

3RD SEGMENT

Manifesting a Holistic World ... ritual of common healing ... affirm and send forth our blessedness as beings of the Light and co-creators of a new reality.

The Alchemist's Tool Chest

A monthly lecture series with helpful tools for harmony, well-being, and growth.
