

# THE GATEKEEPER EFFECT

**NEW WONDERS, NEW MIRACLES, NEW MYTH**

with GW HARDIN ... PETER DEBENEDITTIS, PHD ... GREGORY JOSEPH  
**Boulder-Denver** ... Saturday, June 1 ... 10AM-6PM

In ancient writings of the *Nag Hamadi*, we find detailed accounts of how magnificent humanity was. So magnificent that those beings who considered themselves far greater than humans became resentful to the point of using their great powers to subjugate and blind humans to their magnificence, thus robbing us of our ability to travel through the Gateways of Time/Space where Power bent its knee to Wisdom. Humanity is now stirring with remembrance during this time of unparalleled chaos. And those who were Gatekeepers to the ancient Gateways are now bringing forth not only the ancient secrets but also new wonders, new miracles, and a new myth through the **Gatekeeper Effect** that says we have been, are, and will be the co-creators of a better world. All have access to the Gatekeeper Effect, and this workshop is an opportunity for any and all to experience the new Gateways of Oneness that embrace all humanity, reminding us of our magnificence.
