

A100

Learn, practice, perform, play along — with the A100 you can do it all. The A100 is a 61-key portable keyboard with touch response and has 128 note polyphony. With a library of 508 voices to select from, you have every sound you might want. Play along with 180 different drum rhythm options or 120 songs. The built-in recording studio allows you to capture and play back your performances. With the A100, you can even use the included USB port to connect with your computer and use your favorite music software. Where will you take your playing with the A100?
