## 5 New York City Hotels with Unreal Concierge Services

New York's most elite hotels do more than provide turn-down service with chocolates. Need a personal butler or tailored cocktail menu designed for your tastes? These are some of the most exclusive amenities in Manhattan's top hotels.

### Lotte New York Palace

Inside the well-known Lotte New York Palace is a separate hotel-within-a-hotel concept called The Towers, which is located on the top 14 floors. Guests that check in here have access to Rarities, a private bar with only 25 seats and the choice of a tableside sommelier. For those staying in the 5,000-square-foot room known as the Jewel Suite by Martin Katz, it gets even better. The suite alone goes for \$25,000 per night but guests receive a diamond microband ring—designed by Katz himself—as a take-home gift. 455 Madison Ave.
