

USP Expert (9mm Model)

HK USP Expert 9mm

Using the common lineage of the USP and developed in conjunction with internationally renowned target shooters, the USP Expert achieves the highest levels of accuracy by combining features of the HK Tactical and Mark 23 pistols with a new slide design. The result is a USP ideally suited to IPSC (International Practical Shooting Competition)

- adjustable trigger stop
- target sights with micrometer adjustment for windage and elevation
- patented HK recoil reduction system
- corrosion resistant "Hostile Environment" blued finish
- corrosion proof fiber-reinforced polymer frame
- oversized trigger guard

and other practical target shooting applications.

Features summary:

- O-ring barrel with polygonal bore profile
- elongated milled steel target slide
- ambidextrous control levers on both sides of the frame
- match grade trigger

- choice of flat and extended floorplate magazines
- universal mounting grooves for installing accessories
- ambidextrous magazine release lever
- extended slide release
- extractor doubles as a loaded chamber indicator
- patented Lock-Out safety device
- lifetime warranty

USP9 EXPERT SPECIFICATIONS

Caliber	9 mm x 19
Operation	Short recoil, modified Browning type, linkless
Mode of Fire	Semi-automatic
Feed Device	10-round (Civilian) or 16-round (LE/Military) magazines
Sights	Rear micrometer adjustable for windage & elevation, high profile front sight
Length (overall)	8.74 inches / 222 mm
Barrel Length	5.20 inches / 132 mm
Width (overall)	1.26 inches / 32 mm
Height	5.87 inches / 149 mm
Weight	33.16 ounces (940 grams)

P2000 9mm GPM (German Police Model)

A recent addition to the Heckler & Koch handgun line, the P2000 incorporates features of the successful HK USP Compact pistol with the latest innovations of HK engineers. Designed especially for European police agencies, the P2000 uses the trigger system introduced in 2001 on the USP Compact "Law Enforcement Modification" model.

This unique pre-cocked hammer system combines the advantages of a cocked striker component (constant level of trigger pull and short trigger travel from first to last round fired) with the a double action hammer system.

A set of easy-to-install modular grips allow the P2000 to be custom-fitted to any shooter's hand. Ambidextrous slide release levers and magazine release levers make handling the P2000 natural and easy for right and left-handed shooters.

Due to its modular design, the P2000 GPM can be fitted to the individual needs of the shooter and with only a limited number being imported, promises to be highly collectible.

A highly reliable, safe, durable, and accurate compact pistol with significant ergonomics features, the P2000 is currently available in 9mm. A caliber .40 S&W variant is also planned.

Significant features include:

- Modular grip with exchangeable back straps to easily adjust the grip size to the shooter's hand
- Ideal size and weight to comply with the requirements of the full range of police missions, including concealed carry
- Set of mounting grooves molded into the polymer frame for installing accessory lights and laser aimers

**HK P2000 9mm GPM (German Police Model)
with interchangeable grip panels**

- Ambidextrous slide release (located on both sides of the frame)
- Ambidextrous magazine release
- Low profile slide and slimline, compact dimensions
- Advanced design with contoured external surfaces to avoid snagging on holster and clothing
- Polymer recoil absorber bushing (similar to the HK USP COMPACT) aids in recoil reduction
- Very short trigger reset distance to enhance the speed of multiple or follow-up shots
- Polygonal cold-hammer forged barrel for less barrel wear, better gas seal behind the bullet, and easier bore cleaning

SPECIFICATIONS

Caliber	9 mm x 19
Operation	Short recoil, modified Browning type, linkless
Mode of Fire	Semi-automatic
Feed Device	10-round (Civilian), 13 or 16-round (LE/Military) magazines
Sights	Fixed patridge style, drift adjustable for windage, standard 3-dot
Length (overall)	7.00 inches (178 mm)
Barrel Length	3.62 inches (92 mm)
Width (overall)	1.34 inches (34 mm)
Height	5.04 inches (128 mm)
Weight (overall)	21.87 ounces (790 grams)
Trigger Pull	7.31 pounds (32.5 Newtons)

This ensures an extremely safe pistol with regard to unintended firing and, in case of failure to ignite, the possibility of a second or third trigger pull without the need of first pulling the slide back to re-cock the system.
